WORDS OF MAITREYA

WHAT IS THE MOST IMPORTANT THING TO LEARN AT SEMINAR?

Many people ask me 'how can you summarize a Raelian seminar, what is the most important thing I will learn in the seminar?', and I give a very simple answer : to laugh.

That was the teaching of Buddha, a long time ago, which has been forgotten which said "laughing is the best way to enlighten your mind".

So I promise you beautiful, very funny seminars where everybody will laugh for no reason.

Because the best laughing is when you laugh for no reason. Remember that when you wake up, before opening your eyes, and start laughing, because it's so funny to be alive.

Do you feel it ?

Life is so funny. This planet is so funny. Everything is funny.

I enjoy Okinawa's typhoons, they are so funny. The wind, the leaves, the branches flying, very funny!

June 26th, 65 aH

It was also the theme of the address of Maitreya to the Canadian Raelians in seminar On October 10th

I see a lot of happiness in your eyes, so in fact, I actually realize that I am not useful anymore. And I am very happy about it. I am not frustrated with this. On the opposite, it is when I am needed that I feel unhappy, and my great happiness is to no longer be useful, and see that the work of 30 years of teachings created people who are able to do at least as well as me, even a little better.

So I tell myself 'mission accomplished' when I see the efficiency of Daniel, Marc, of all your teachers, Shizue, that I see as well, that's wonderful.

The less you need me, the more you make me happy.

However, you may feel like seeing me, that is something else, but no need.

Your applause make me feel like giving a seminar in Quebec, that's for sure, but for now it is better for me to avoid jet lags. However, I hope that one day, all the Quebec people come for a seminar in Japan, that is another dream.

As a Buddhist wise man used to say, it is not the light that comes to the people, but the people who come to the light. So, you want to see me? Come to see me in Japan!

I would like to add something, it is true that the seminars are each time stronger, I know that Marc and Daniel have transmitted a few of the new things that I gave at the European seminars.

Why are the seminars each time better?

That's because you are better.

That is to say that I cannot go higher than where you can hear me, if I may put it that way. That is to say, if, at the beginning, I had given you the information I am giving you now, most of you would not have understood anything except for a couple of you.

So, I can only give according to the elevation that I feel and since I always take you a little higher, I can each time give and go a little higher.

And, at a given time, I will have gone high enough that you will have to come to the Planet of the Eternals to listen to me. And I await all of you there, of course. I await all of you.

In the meantime, laugh, be happy. One true word is worth more than a thousand words that are not right.

A picture is worth a thousand words too and I would say that laughter is worth all the rest.

If it is laughter from happiness, laughter from being, laughter for nothing, that is to say, laughter for no reason, well, that is worth a seminar.

Often, people who come to a seminar ask me “what are we alive for?”

Why did the Elohim create us?

And my answer is always the same: to be happy.

Or, what is happier than someone laughing? Nothing.

And it is for that reason that if you want to sum up the seminar, my wish is that you end it with a huge burst of laughter, I know that you have sufficiently elevated Guides to make you do that.

There is everything in there. Of course it is not a very Christian way of doing things, and it is exactly what we find on the face of Buddha. It is what we find in true ancient oriental and also occidental wisdom, it is laughter, it is the joy of living.

All the rest, yes, the Messages, that's fascinating, to know where we come from, how we were made in laboratories, that is fascinating, meditation, that is marvelous, to know what future we are moving toward, that's nice, but all that, the explanation of our origin, that's the past, that is dead, it is people at the museum, the creation of life on Earth.

They do keep a few museums up there, they keep some of the test tubes that were used back then, it is the museum, it's old, it's the past.

Maybe we will never reach future happiness on Earth.

All we need is a few Fukushima, a few more idiots to set off atomic bombs on Earth and maybe we will never know it, that's possible.

On the other hand, today's laughter, you are sure to have it

So don't postpone it till tomorrow, don't miss it.

I send all of you lots of love

HAPPINESS IS FROM INSIDE

Are you happy ?

I want to tell you during which part of my life I was the happiest.

In life you have sometimes happy moments. When a baby is born, when you are in love with somebody, when you win big money, but this is not happiness, this is joy.

Real happiness comes from inside, never forget that.

To have a little baby born is joy, it's not happiness. Being in love with a handsome man or a sexy girl is a good feeling, but it's not happiness.

Why is that ?

Because if the next day the girl or boy says "bye bye I don't want to see you anymore" then you are sad, so it's not happiness, happiness stays.

When it comes from inside nobody can destroy it.

A baby is born, a baby dies: same happiness.

A beautiful partner brings joy. "Bye bye, I don't want to see you anymore" : you are sad, that's not happiness, happiness is inside.

One of the most happy times I had in my life was a few times when I was sick in hospital.

Most people say "why hospital, and sick, you must be very sad"!

No, that was the happiest moment in my life, because it was coming from inside.

I was sick, I was in pain, nothing from outside could make me happy, so I let it come from inside.

That was the happiest time of my life.

Another happiest time ?

I was in Paris, a singer, had no home, I was sleeping in the subway, had almost no food; I was so happy!

From inside!

I was free. I had no money, but I was free.

Happiness was coming from inside.

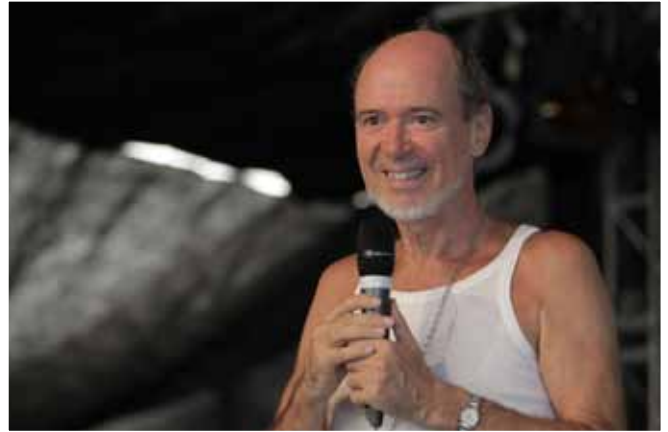

So remember, you will never be happy if you expect happiness to come from outside. It's the opposite, the more you expect happiness to come from something outside, the more sad you will be. Sad because you don't get it, or, if you get it, sad because you are afraid to lose it, and sad when you lose it. Sad, sad, sad. Always.

If you don't expect anything making you happy from outside, then you reach the Buddha level: 'Happiness from inside'.

A poor person sitting in the street, no girlfriend or no boyfriend, no money, no joy, sick in hospital, but very happy!

Number one happiness.

I remember one time I met a guy, he just learned he had cancer, and the doctor said you have 3 months to live, and this guy was the happiest guy I ever saw.

And he said I have been unhappy for my whole life, but the day the doctor told me I had 3 months to live, I said wow, 3 months, 90 days, I want to enjoy every day. Like in the movie 'The Bucket List' ?

If you didn't see it yet, try to watch this movie, it is a similar story.

And then you have a happy life. Happier if tomorrow a doctor says that you have 3 months to live.

Maybe nobody here has cancer now, maybe, but imagine you have you will feel happier, enjoying every minute.

We all have a deadly disease. Everybody here has a sickness that will kill him. It's called 'life'.

As of now, with today's science, everybody is meant to die one day, so it's coming.

Tic tac, tic tac, tic tac, it's coming, enjoy, enjoy every tic and every tac.

And when does it starts? right now !

DON'T BE THE SPECTATOR OF MAITREYA, BE THE ACTOR.

The Sunday contact is not a show.

We must not expect a speech on Sunday morning, but more feeling. A speech is when one man is speaking and people listen, so you come and you sit down and you listen. This is not interesting.

But to feel is more important and when there is feeling, it's not me, it's you who feel.

If you come to the 11am contact and you feel, you feel yourself, your brothers and sisters, the Elohim, you feel love, it's not a one man speech anymore, it's about you.

That's why you come.

If you just come to listen to a man talking and falling asleep, that is not interesting, the contact is not a show, there should be no camera, it's not a show.

You are as important as me, we are one.

I don't need to be in front, I can be behind, on the side, everywhere and together we touch each other, we feel each other, we feel love, love between us, love with the Elohim, love from Infinity.

The 11am contact is not about teaching, it's being.

Do you feel it ?

It's to be more, not to be something, to be.

Are you ? Do you feel it ?

I can be behind, you don't need to see me, you need to feel.

You need to feel the Elohim, you need to feel infinity, inside you, everywhere.

So it's like the contact, to be more, to be.

It can be in silence, but just to be.

To be love.

Feel this infinity of love around us.

In the wind, in the air, in the smell of the flowers and nature, to become one, with each other, with the trees, with the grass, with the planet, with infinity. That's what you feel if you really feel it.

You just have to feel it, it's not coming from outside, it cannot be taught, I am not teaching you.

It's inside you.

You are your own teacher, your own guide, your own Maitreya, I cannot do it for you.

I feel each of you like if you are a part of me.

But if you don't feel each other and you don't feel me it's your problem.

That's why the 11am contact is very active.

It's not coming, sitting, and letting Maitreya do everything.

It's feeling, do you feel it ?

This link with infinity, with me, I am the Messenger of the Elohim but the Elohim are Messengers of Infinity and we feel one with all this oneness.

Do you feel it ?

With time, with space, some are very young among us, some are quite old and this is eternity.

We came from dust and we will be back to dust. Soon for some, in a long time for others. But right now, we are alive and

together, that's this feeling that you have to enjoy, being, one second at a time. You should always ask yourself this question "why do I go to the 11am contact?"

To see Maitreya? Like you go to the museum to see a statue? A dead statue.

Or do you come to be? To be more?

Not to be a spectator, but to be an actor, because it's your life, it's your happiness, it's your connection with everything and only you can do it.

Each one of you.

So please if you come at 11am every Sunday, don't come to see me.

Come to see yourself, because here is a place where you can see yourself more.

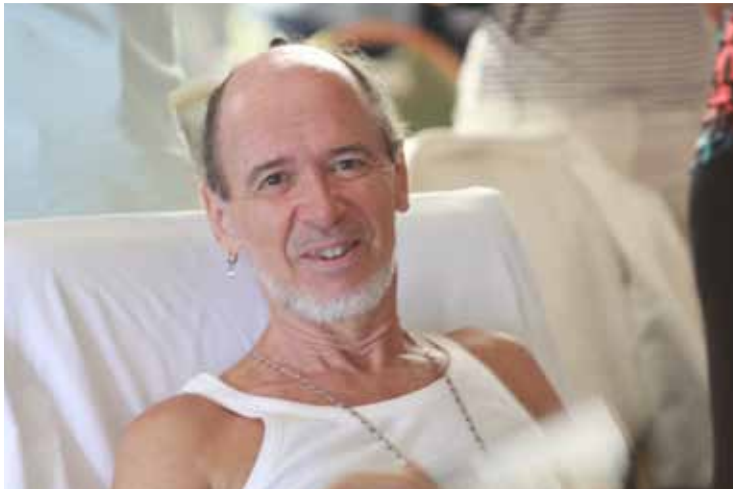

Come, meditate, think about the Elohim and be the spectator of yourself and not the spectator of Maitreya, if not it's just a show, and after you say "what's next?". It is not a show.

Being a spectator of yourself, being more, that's why the 11am contact is important.

But that being said, I'm very happy to see you.

Thank you !

REAL LOVE CAN ONLY BE FREE

What is the most important love?

Is it the love for your sexual partner?

Is it the love for your father and mother?

Is it the love for your children?

Is it the love for the whole of humanity?

Is it the love for the Elohim?

What is the most important love?

None of the above.

The most important love is the love for yourself. If you don't love yourself, you cannot love anybody, you

cannot love humanity, you cannot love the Elohim, because you don't love yourself.

The first thing is to love yourself, it is the most important.

To really love yourself, to love your freedom, the freedom to chose, the freedom to be yourself, the freedom to do what you feel, deeply.

Not to be forced by any structure. The couple structure, the society structure, the movement structure, any structure which limits you in your freedom of choice, limits you in your freedom of love.

So how can you love yourself more?

By destroying any structure, any limit you put to your freedom, then you can love.

The real love can only be free.

If there is no freedom there is no love, there is habit, rules, structure and no love.

So the first thing to do if you want to love yourself, is to destroy the rules you impose to yourself.

Because you have your own rules, your own rules which are completely false and that you created during your life.

You have your own limits, which you created following your education, the media, what is to be normal, even if you feel the need to be free inside you "yes I want to be free but I have to respect some rules, to live in the society I have to respect the law but also inside me I have to respect some laws" and then you are not free.

You cannot destroy the laws of the society, you cannot destroy the rule of the society, but you can destroy your own rules and laws inside your head. You can destroy them and you must destroy them to feel free.

The real freedom is coming and the real freedom brings real love.

When you look at yourself in the morning in the mirror, don't you see somebody with many "I have to do this, I have to do that"? It's not you.

Look in the mirror and in the morning see somebody free and you love this freedom face.

That's the only way to love yourself.

It's never too late.

Better to start young, but you can do it at 50, at 75, it's worth it.

Even if you die the next day, at least one day of real freedom, one day of real love for yourself, that's what I wish to you all. You can do it.

MAITREYA TALKS TO THE RAE LIANS OF KAMA DURING THEIR HAPPINESS ACADEMY ON AUGUST 66aH

One day, we will have a planetary seminar where all the Raelians of the planet will be together at the same time. We could imagine a big UFO coming to pick up all the Raelians everywhere around the planet, and we would do one and only seminar at the same time, what a dream it would be.

I imagine all the races of the planet, all the Raelians of the planet at the same time, a planetary seminar where there are no problems with visas, with plane travels, and where everyone would be gathered together.

Ok, it is not for right now but it will be possible one day.

In the meantime, I am with you, with Kama that is very dear to my heart, you are with me. For me, Kama is truly the future of mankind because since everything has been undone by the white poison, everything can be made new in Kama.

In a way, the whole strength of the Kamaians is precisely as in judo, to use the opponent's strength to defeat him.

You have been defeated, pillaged, colonized, enslaved. That is precisely what you have to use, it gives you the chance to start new with new technologies.

So, you mustn't hold in your mind this unhealthy idea

that says” we were enslaved, we were pillaged, colonized, we are behind”. No, no, you must not think that.

You must say : “Thanks to this, what are the advantages?”

The advantages are that there is a society that has been artificially divided, its values have been artificially imposed, and that gives you the advantage of starting new.

The countries of the former colonizers, the so called “advanced” countries that are in reality spiritually behind, are sclerosed today; they are prisoners of centuries and millennia of domination that make them extremely proud, that make them lose all sense of humility, all contact with nature, whereas you, in Kama, since you have been stifled for a very long time, you can now start new.

Take this as an advantage, as a spring board, as a chance, not at all as a handicap, but as a chance.

Kick them out, and start on a new foundation, with a new society thanks to this handicap that must be turned into an advantage. Instead of having a land that is sclerosed by centuries of what they call “culture” with a sort of pride and as if to squash the others, - some historians in France have even said that “Africa has no culture”. These people are just too funny.

So, they are sclerosed by what they call culture which is in reality un-culture, because a culture that allows to enslave and pillage others is not a culture, it’s is barbarism.

Get rid of them, they are sclerosed by millennia of barbarism.

Europeans have not only colonized Kama, but they have also colonized North and South America, Oceania, Australia as well as Asia, all Asia, except for one country that they were not able to colonize, that is Japan.

Japan said “no, we don’t want foreigners”. But they still suffered, of course, since the Americans could not stand the fact that Japan refrained the whites from coming to occupy and pillage the country.

So, they sent warships and they threatened them.

That always remained in Japanese history, “the black ships”, the American ships were all black, with Admiral Perry who arrived and said “you will open your borders, we will treat all the European and American merchants that come as ambassadors, please, otherwise we will destroy the palace of your Emperor.” The Japanese accepted, that is the first act of American colonization and imperialism in Japan.

What happened during the second world war?

It is interesting to know; everyone speaks about the drama that took place in Pearl Harbor, the Japanese destroying the American navy fleet, etc...

Why did they do that?

Because the Americans imposed a complete economical blocus upon Japan; they could no longer have access to fuel or any raw material.

Naturally, the Japanese defended themselves. But they are always presented as the aggressors.

So, this planetary white poison that exists everywhere; now the Europeans have the gall to say, to speak of the Asians and especially of the Chinese as the yellow peril.

There was the black slave that can be exploited, but we always speak about the rise of Chine, that’s the yellow peril.

There is a Japanese philosopher who wrote a book that says that the “yellow peril is imaginary because China did not colonize any country.”

China has no military bases in the world outside of China, Americans have 180.

The French have some everywhere in Kama too.

The Chinese have none.

They are a billion and a half, that is to say one fourth of humanity, but we speak about the yellow peril.

This Japanese philosopher says “the yellow peril, we don’t know that. What we know is the white catastrophe.”

The white catastrophe, that is to say, the whites who set out to invade the whole planet and to kill all that was there and was rejecting them, to pillage the raw material.

So, when you hear the whites speak about the yellow peril, do tell them, that in Kama, you are in the best position to know about it, the white catastrophe.

I find this expression magnificent, and it ties into the book of my beloved friend, Uriel, “White Poison”. In Japan, it is called the white catastrophe.

I believe that we ought to remember that.

So, here it is. I just wanted to tell you how much I love you, that I am with you and to take your handicap as an advantage, like in Judo, use the opponent’s strength to make him fall, you are starting new and it is an immense privilege.

HAPPINESS IS IN THE PREPARATION OF WELCOMING THE ELOHIM

We want to build the Embassy to welcome the Elohim.

What will be the most happy time of our life?

Is it when the Embassy will be built? Or is it while preparing for the Embassy?

Of course the day we will have the Embassy made and the Elohim will arrive, this day will be a beautiful day.

But will it be more beautiful than today?

No... because we are working to prepare it.

Like when you are preparing a good meal, which is the best time?

Is it when you eat the meal? or when you prepare it with all your love?

For me, preparing is better than eating...

Because I love cooking, and you cook, and you put a lot of loving, and you think how good it will be after...

That takes a long time, and you work to cook a meal, and really enjoy doing it.

The actual eating is quickly done and good but preparing is better.

We are now cooking together, preparing the building of the Embassy of the Elohim. For me it's much more exciting because it takes a long time.

It's the same when you have sex, the second you reach the orgasm, which is a goal, is quickly over... But preparing, kissing, talking, gently kissing everywhere, that's exciting. Much better than the last AHH!!

Of course the orgasm is good, but preparing, slowly, by being kind, touching, talking, reading a poem, it's much better, and lasts much longer!

So, remember, it's the same for the Embassy. We are preparing. We are flirting with the Embassy, we are kissing the project of the Embassy, like the lips of a beautiful girlfriend. We are gently touching the project, and like that everyday is beautiful, every step you walk towards the bedroom when you make love with your girlfriend is beautiful. Every step. And in the end, enjoy the past which brought you that which you wanted.

Because if you think that happiness is when you reach the goal, you are never happy. Because you think that happiness will be when you have accomplished what you wanted to do.

But if you enjoy the way that brings you to the accomplishment of your goal, then happiness is now. So, will the day that we build and finish the Embassy be better than today? No! no, because now is happiness.

Happiness to work together towards our goal, it's much better. Today is a holly-day, the most important day of your life, because it's today. Next week maybe you will be back again to listen to me, but it will not be today. So today is today. Now is now. Maybe next week I will not be here. I can die... and you will say "oh, we were with Maitreya last week... it was sooo good!!..."

So enjoy now, and we are together right now, sitting here, making the Embassy. We are on the way to the Embassy, and that's much better than when it's finished. And it can take a long time, 5 years, 10 years, 20 years, but if you are only happy when the Embassy is built, then you are 20 years not happy. But if you are happy every day which brings you closer to the 20 years or so, then it's constant happiness, and that's better, then it's a life of happiness. Happiness is not tomorrow, or next year, or after 20 years. Happiness is right now, and I'm very happy to be with you here and now, very happy, because I feel your love. We are together now, and by sitting here, we are making the Embassy.

Because the physical Embassy, the building we will make, is nothing compared to the Embassy which we build inside our heart. To build the Embassy physically one day, we must first build the Embassy inside ourselves, welcome the Elohim inside ourselves first. That's much more important than the actual building, and we are doing this right now. Do you feel it? Have a beautiful day.

August 25th

THE WIND OF THE MESSAGE

The Message is like a strong wind in your brain. The first time you read the message there was a typhoon in your brain.

The typhoon of the Message is much more powerful than any typhoon on earth, and you felt it when you read the Message.

Let it blow, that's a typhoon you love, it's a typhoon which is not destroying anything. It's a typhoon which is building, yourself, your connection with the world, building a better world, a unified and peaceful world.

The wind of the Message, is also a wind of consciousness, a typhoon of consciousness, a typhoon of love.

When you love, don't love with a gentle breeze.

When you love it must be a typhoon, never a little wind.

A little wind is good outside.

But inside, your love, your consciousness must be the most powerful typhoon in the universe. Don't love with a little wind. Do it with a strong wind, and you'll fly.

Strong wind makes you fly, like an eagle.

You don't have to move your wings, the eagle flies, only the wind makes it fly.

It is the same for you

The Message is the wind under your wings, which makes you fly higher and higher.

In consciousness there is no ceiling, there is no limit. Nothing, the limit is yourself. So you want to fly higher, higher and higher?

Let the Message wind blow, not a small wind, but a typhoon. So please enjoy this beautiful day and try to be stronger than this wind, much stronger, thanks to the Message of the Elohim.

AFTER THE TRANSMISSION ON OCTOBER 7TH

Welcome in the family.

Just a few words to tell you that right now, Asia is the most important place for the Elohim.

Especially a little country named China. Very little ;-).

And right now we have started advertising on the most important browser in China which is named Baidu. On the first day, 7 500 people clicked on the website because of the advertising.

7 500 people on the first day only.

We will keep advertising for many months.

In this little country there are 1.5 billion people and more and more people in China are joining the Raelian Movement. So, I hope that more and more, there will be a strong collaboration between the Chinese Raelian Movement, the Japanese Raelian Movement and the Korean Raelian Movement.

I think that Asia will be, soon, thanks to China, the number one continent in the world about the number of Raelians.

And of course, there is a synchronization between advertising and the Elohim.

And they, of course, started right now, when we start to advertise on Baidu in China to have big UFO appearing everywhere, because we communicate.

They asked me to advertise on Baidu, and as soon as we advertised on Baidu, many UFO appeared.

And many newspapers and media in China are now talking about UFO.

So more and more people search Baidu. Baidu is like Google in Japan,

They are searching, we are advertising, so everything is working very well.

And that's it, I have nothing else to tell you except one thing : I LOVE YOU.

And the Elohim love you.

Do you love the Elohim ?

Feel the love of Elohim on your head, in your heart, in all your body, in every step and every second of your life, especially the new members of the family. You are now connected with them.

I wish you all a very beautiful life.

MAITREYA with JUNZO, Continental Guide for Asia

WE ARE HERE TO BRING A TSUNAMI OF LOVE ON THE EARTH.

At first there was the earthquake of the Message, then, the tsunami of love.

That is better than Fukushima.

The Message is an earthquake, it shakes you, it shakes every cell of your body, every neuron of your brain. And then what do you feel ?

A tsunami of love.

We are participating in the tsunami, we are covering the earth of love, all the earth.

Right now we are living a wonderful time, many people are revolting on the earth.

In something which is like the beginning of a world revolution.

Many people are revolting in America, occupying in the street, camping in the street Occupy wall Street.

Everywhere in Europe, in Africa, in Asia it is starting.

Now there is a movement named Occupy Fukushima in Japan.

So the whole world is revolting, against stupid politicians, against the banks, against money, against capitalism, everywhere. They are occupying the streets in thousands, hundreds of thousands.

Everywhere.

They are fed up with how the world is governed.

They want big change but they don't know what can replace it.

And we bring the solution.

What is the solution?: Paradism. (see www.paradism.org.)

What is Paradism?

Paradism is communism without proletariat, where all the world can share the benefit of technology and science, without banks, without money, where everybody can share everything which is on earth.

No more Fukushima, no more money, no more banks, no more lending money from banks and then paying huge interest, and all the human beings becoming slaves of the banks.

All your life, working to pay back your house, your car, your tv.

You are slaves of the system, and everybody is tired of it.

They don't know how to replace it.

It's very easy, it's paradism.

First of all, withdraw all your money from banks, don't trust banks.

The banks own you, you become their slaves.

Buy gold, buy something which is safe, produce your own vegetables in a vegetable garden, because soon the world money and financial system will crumble down.

Nobody has a solution, we have it, thanks to the Elohim: Paradism.

Imagine, imagine this planet with no more banks, no more money, where we share everything and that's a planet, that's a planet of love where everybody starts to think about the only important thing, which is love.

There cannot be love with money, banks and stupid governments creating Fukushima.

Love for each other, love for our ancestors, and love for our children and grandchildren.

That's what we bring. That's what the teachings of the Elohim bring.

That's what the Raelians with me are bringing to this planet: LOVE and more love, and more love.

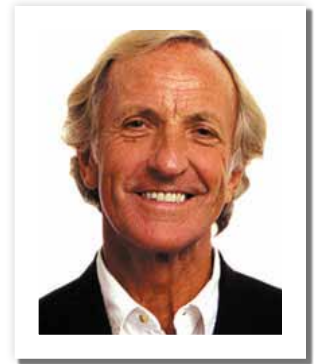

Have a beautiful day.

JOHN PILGER HONORARY GUIDE OF HUMANITY

Pilger is known for his more than 60 documentaries spanning 4 decades and his sharp criticism against Western Foreign Policy.

For over forty years now, Mr. Pilger has risked his life to bring the truth about the inhumanity brought about by Western Foreign Policy to the world. Sometimes reporting while under death threats, he has always put truth, compassion and justice for all people above the value of his own life or the sneers of his government

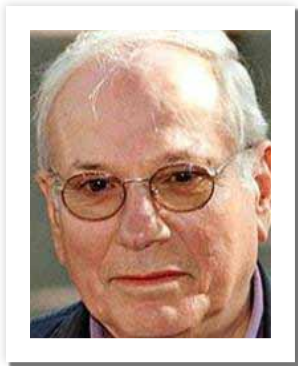

YORAM KANIUK NAMED HONORARY GUIDE OF HUMANITY

Famous Israeli Writer Officially Leaves Judaism

Following Yoram Kaniuk's public apostasy from Judaism, Maitreya has named Kaniuk as an Honorary Guide of Humanity.

Kaniuk cited personal reason for the departure from his native Judaism. For Raelians, it simply makes sense to leave a religious group whose acts are in contradiction with its founding philosophy and principles. Considering the way the religious state of Israel is treating the neighboring Palestine, we should expect a massive departure of the true Jews from Judaism as true Jews are meant to bring love and harmony to all, according to their scriptures.

RAEL CONDEMNS INTERFERENCE OF THE VATICAN IN INTERNAL AFFAIRS OF CHINA.

A battle has been going on between The Vatican and the Chinese Catholic Church with a recent excommunication of a few bishop who have been ordained during without the pope's permission. For the Catholic Church of China, they are independent and can ordain their own bishops.

Maitreya Rael issued the following statement following the latest excommunication:

I strongly condemn this blatant interference with the internal affairs of China by the Vatican, an independent state, and I ask China to officially declare the Catholic Church of China totally independent from the Vatican, with the Chinese President as the sole leader of this new church and the only able to ordinate new bishops.

There is no reason that a sovereign foreign country, the Vatican, should be able to decide who should influence spiritually the Chinese people with primitive beliefs in another country as we must remember that the Pope is also a head of state.

This official secession is not different from the one declared by the King of England in 1534 when Henry VIII wanted an

annulment of his marriage to Catherine of Aragon so he could marry Anne Boleyn. Under pressure from Catherine's nephew, the Holy Roman Emperor Charles V, Pope Clement VII refused the annulment. Eventually, Henry, although theologically a doctrinal Catholic, took the position of Supreme Head of the Church of England to ensure the annulment of his marriage. He was excommunicated by Pope Paul III. In fact Henry VIII created the independent Catholic church of England with him, the king, as its religious leader, who immediately proclaimed the divorce that the pope was refusing. Nowadays it's still the Queen of England who is the leader of this church and everybody in the world accepts it and no occidental media criticizes it as a lack of religious freedom as they do for China.

And the Vatican doesn't dare to "excommunicate" the Anglican bishops accepted by the Catholic Anglican church. China is not different and as a progressive and modern country should also emphasize that this secession is also based on values from the Vatican who are not any more acceptable in the modern world, as the acceptance of a necessary population control to fight the biggest danger humanity is facing : overpopulation, especially accurate in China.

That's why the independent Catholic Church of China should promote all family planning procedures, like contraception by use of condoms or other means and abortion, as well as ordination of women as bishops or priests as the Anglican Church do, and also acceptance of homosexuality, and many other subjects already existing or which should arise due to the progress of science

China should do the same and proclaim officially the President of China as the leader of the Catholic Church of China and announce that any "excommunication" of Chinese Bishops of the independent Catholic Church of China should trigger a retaliation which should see the leader of this new catholic Church, the Chinese President, to excommunicate the Vatican leader, the Catholic pope.

RAEL SENT HIS SUPPORT TO IRISH PM IN UNPRECEDENTED ATTACK ON VATICAN

Irish Prime Minister Enda Kenny has launched an unprecedented attack in parliament on the Catholic Church.

He said the recent Cloyne Report into how allegations of sex abuse by priests in Cork had been covered up showed change was urgently needed. He said the report exposed the elitism, dysfunction, disconnection, and narcissism that dominated the Vatican.

"The rape and torture of children were downplayed or 'managed' to uphold instead the primacy of the institution, its power, standing and 'reputation',"

POPE IN SPAIN

More than 100 groups opposed to the Pope's visit in Spain last August. They included those who belong to the 15-M "indignant" movement - who oppose the government's austerity drive - as well as gay rights groups and others who oppose aspects of Roman Catholic teaching.

They say that they are not angry about the Pope's visit, which some will agree with and others won't, but rather over the financing of it with public money, especially at a time when many services are being cut because it's necessary to curb government spending..

Maitreya Rael commented: they are absolutely right. It's shocking while so many Spanish people live in poverty to see the government financing the visit of the Pope while the Vatican is one of the richest countries in the world.

WOMEN AND NEW TESTAMENT.

An interesting website summarizes what the New testament says about women:

“It is good for a man not to touch a woman, so that he is not tempted to “immorality” and does not “defile” himself. Men are the “heads” of their wives and the “glory of God,” whereas the woman is merely the “glory of man.” Man was not created from woman, but woman from man. Women must be submissive in everything and subject to their husbands, who, again, are their “heads.” Women should not speak in church but must remain subordinate and learn in submissiveness. No woman can teach or have authority over men. Girls and women must be “trained” to love and to be sensible, chaste, domestic and submissive to their husbands.

Maitreya Rael commented:

All Christian women who are for sex equality should immediately apostatize. If not, they accept intrinsically to be treated as inferiors by men.

RAEL CONGRATULATES AUSTRALIAN CURRICULUM ASSESSMENT AND REPORTING AUTHORITY ON DECISION TO TAKE REFERENCES TO THE BIRTH OF JESUS CHRIST OUT OF SCHOOL BOOKS

Maitreya congratulated the Australian Curriculum, Assessment and Reporting Authority on their decision to replace BC and AD with BCE (Before Common Era), BP (Before Present) and CE (Common Era) for the new school curriculum.

Rael stated, “This is a wonderful decision which follows my recommendations many years ago in the ICACCI to replace the Christian calendar by a non religious one especially at the UNO. The Christians are a minority of the world population and their calendar shouldn't be imposed to the rest of the world.”

ABOUT INDIA OFFERING CARS AND TV SETS FOR STERILIZATION

Maitreya commented: This is a wonderful decision. All countries should do the same even if more modestly to push people to be sterilized in order to fight against overpopulation . We are very lucky that India and China which are almost a third of the world population are not polluted by the Catholic religion and the pope pushing people to have more and more children in what constitutes a crime against Humanity.

BOLIVIA'S GOVERNMENT HAS DECIDED TO RENOUNCE THE UNITED NATIONS' ANTI-DRUG CONVENTION BECAUSE IT CLASSIFIES COCA LEAF AS AN ILLEGAL DRUG.

Maitreya has sent his support to President Evo Morales who contends that coca leaf in its natural form is not a narcotic and forms an age-old part of Andean culture. Morales is still a coca growers' union leader who has campaigned for the leaf's traditional uses. Coca is a mild stimulant with high religious and social value in the Andean region. But while it fights hunger and alleviates altitude sickness, it is also the raw material of cocaine.

MUSLIMS TAKING OVER THE WORLD?

A video spread on youtube tried to hint that Muslims were taking over the world at an alarming rate.

Maitreya answered to this alarming video saying:

I just see here the panicking message of conservative Christians trying to stay dominant. Very racist and white imperialism. Islam replacing Christianity as world dominant religion? Why not.... It cannot be worst than the Christian dominated world we have seen for centuries with all the colonization , slavery and genocides...

And if it's due to people making less children than the Muslim people, that's great because the worst danger is overpopulation. I prefer a planet with 90 % Muslim population and less peoples than a 100 % Catholic planet with 20 billion human beings and more every year...And Muslim people living in modern countries also make less and less babies because they enjoy life.... But of course this propaganda movie does not talk about it... They prefer to push for their own agenda to have people make more babies following the criminal message of the Pope.

MAITREYA ABOUT RAE LIANS IN POLITICS

Many Raelians have expressed the desire to help the Indignant Movement and the Occupy Wall Street Movement.

Maitreya said that we shouldn't listen to those who say that we cannot get involved with politics. Everything is politics and spirituality is probably the most political of all.

To not be involved would mean that we leave imbeciles and the politician robots without spirituality, these power and money mongers, lead the world and we can already see the results of their leadership. To wish to save Humanity is the supreme manifestation of the political thought and action. It is not anymore about saving one's country, it is about saving one's own species.

ABOUT THE WORLD REVOLUTION.

On September 28th, when the protests became more worldwide, Maitreya said:

"Thankfully, a world revolution may be coming. The only way to save humanity is for people to take power from the international financial institutions and from the military industries and their puppet "democratic" governments. Then we can have a world without national armies, without dangerous nuclear power plants, without credit and interest rates that bankrupt everyone; a world governed by Internet democracies that will be a place of peace, sharing and compassion. We are on the way to paradism.

On October 29th, Maitreya asked all Raelians to help the movements to find the right solution:

"The only solution to the world problem is paradism, a communism without proletariat, banks and money where everybody shares the benefits of science, technology and prosperity respecting the planet. (see www.paradism.org). All the people protesting in the world are right to do it, like the peoples of OWS (occupy wall street) but they offer no solutions. Paradism is the solution and I ask Raelians to bring it to the people protesting in the streets. The time is now for a World Revolution, the only way to save Humanity.

On November 6th:

"It's time for the ex-colonized countries of the whole world to take revenge on the West. After all, it's pure justice that the Asian peoples who represent almost half of humanity dominate the world instead of the US which represents only 5 % of the world population, or instead of the ex-colonizing countries that are the UK, France, Holland, Spain and Portugal, which represent all together even less than the US.

The only superiority of these ex-colonizers were in the use of brutal and barbaric force using scientific provisional advance to enslave and pillage the whole world, and they are still doing it in Africa."

While he welcomes the Western fall, Rael expresses his concern about the possibility of a third world war.

"Let's hope that the Western powers, being humiliated economically by their ex-victims, will not use their only remaining advantage, ie, their military superiority, especially nuclear, to try to reverse the situation by creating a third world war, the only solution to save the dollar and euro.

Thankfully, -but sadly- China, India and Russia are also nuclear powers, and they are modernizing quickly their defenses. Any temptation by the West to invade them, like some war mongers amongst the US military wishes to happen, will not only be a world catastrophe, but also a terrible defeat for the West which will never recover and will be relegated to a third world level of development. 600 million of financially broken Western people are no match for the 3 billion rich Asians."

In his final remark, Rael added that he still hopes that peace will prevail and that the West will accept humbly, as a just punishment for their crimes of the past, to be the new under-developed world and will, instead of going to war, promote a world government, made of a federation of totally independent provinces of human size, on the way to Paradism.(see www.paradism.org).

“The only obstacle to this Paradism is the greed of the super rich and the banks, who want to keep the superior power their stolen wealth gives them, while enslaving the vast majority.” concluded Rael. “That’s why I totally support the OWS movement and a new total World Revolution”.

PLEASE LEAVE THE PLANET AS BEAUTIFUL AS IT WAS WHEN YOU WERE BORN

October 66 aH

(see video on RaelTV)

I want to talk to you about this beautiful planet that I’m sure you love, this beautiful planet named Earth, which is, that’s where we live and that we need to protect.

For a long time, there was a tradition specially in Asia and specially in Japan, of paying respect, paying homage to dead people, the cult of the ancestors, specially in the Shinto religion in Japan and it is a beautiful religion, much better than the one with a god.

It’s paying respect and remembering all the generation which gave us this beautiful planet, which protected this beautiful planet, which created a beautiful world for us, and it was beautiful that every generation pay respect instead of a god, to the ancestors.

All the generation of people who gave us this planet because they could have destroyed.

So it was beautiful to pay respect to them, to burn incense on their tomb, to put flower on their tomb, But now, after Fukushima, I wonder if this beautiful tradition is not being destroyed.

Because if we continue to have hundreds of Fukushima, not hundred ten would be enough, if we continue to destroy the planet by pollution, by destroying every life, every animal, every plant, by creating too many children and having a huge overpopulation, this planet will become a terrible place to live, it will become maybe in-habitable, or so difficult to live in, that I wonder if our children or our children’ children will still think that we deserve the respect, that we deserve that they come on our tomb and put flower or burn incense.

Personally, if I was to be born after maybe 20-30-50 years and I inherit a planet where everything is destroyed by radiation, by many Fukushima, by over exploiting the world, for the profit and for money - people are destroying this planet - I think, destroying the butterflies, destroying the flowers, I would be angry with the ancestors.

I would go on their tomb and pee on their tomb, and shit on their tomb and spit on their tomb.

So, I think we have to think about our children, and the children of our children, and the children of our children’ children to if we want to be respected we need to give them after we die, to let this planet, a little bit when you go in the toilet, there is a little board saying “please when you leave, make sure this place is as beautiful and clean as when you entered”, hein, many people write that on the toilet door.

It should be written on this planet also “please leave this planet as beautiful and as clean, when you die than when you are born”.

And we are not doing that.

And if we want your children' children' children to respect us, we are better to stop destroying this planet, to stop using this primitive nuclear energy, to stop following primitive religion like the Catholic Church which asks us to make more and more children, more than the earth can nourish.

There is a maximum number of human being on this planet and we are now much over this number, we are way too many people, but the Pope continues to say "no abortion, no contraception, make as many children as possible", this is crime against humanity.

And I think one day, the future human being will also go and pee and shit and spit on the tomb of the catholic Pope and he will deserve it.

That's why we need to change.

Maybe there will be 2 kinds of tombs, those who tried to save the planet and will deserve the respect of their children and children' children and those who are destroying it and who will be damned forever by our children' children.

One more time, look at the beauty of this flowers, of this butterfly, this is a planet the Elohim gave us. We need to protect it.

And we need to, when we die to make sure it is as beautiful as as when we are born, with all these butterflies and flowers.

This is Elohim creation, keep it, preserve it, protect it, it is so beautiful.

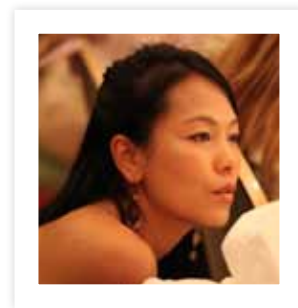

And one more time, like on the toilet, make sure this place is as beautiful when you die as it was when you were born.

Peace and love to all.
