## A BEAUTIFUL ASIAN SEMINAR...

**' I am here to guide you to one day be free of myself by being yourself. You can be as good as me, as good as the Elohim, you can be better than me, better than the Elohim, if you let your DNA sing, if you believe in yourself.' Rael**

**' Don't accept any limit in your life. Infinity is the limit, i.e., there is no limit!' Rael**

**These are some of the words our Beloved Prophet gave to the 550 people gathered in the Hilton hotel of Narita. The Maitreya Rael not only impressed all the participants but also all the visitors and the employees of the hotel who were moved by His presence and went into much effort to make His stay a most pleasant one. It was such a pleasure to witness that. One day a Japanese celebrity came to visit the Maitreya Rael ( sorry, at this stage we cannot disclose his name in our publication), the**

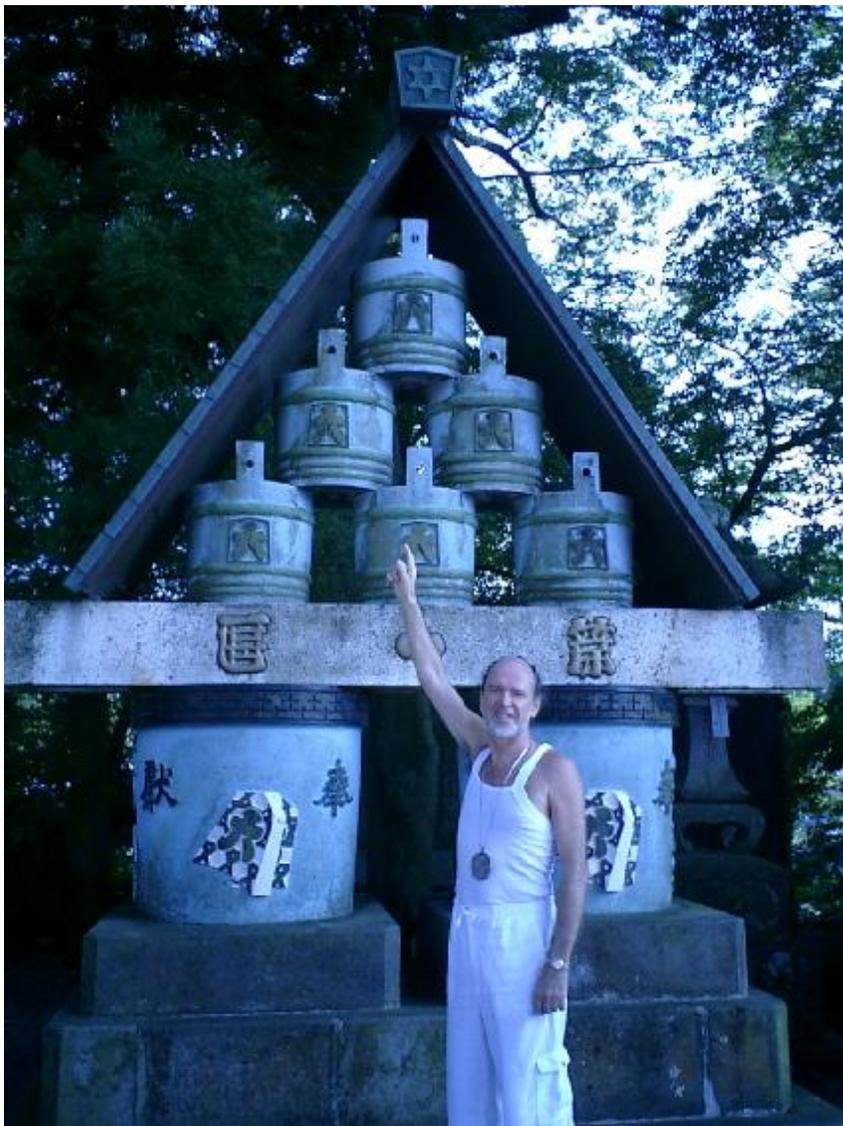

**whole hotel was in turmoil trying to find out what was the best way to handle two celebrities at once J**

**A Raelian seminar, as described by our Beloved Prophet, is a school to destroy fears. It was amazing to see people overcoming their own fear and blossoming through the week. From one continent to the next, the same touching transformations happen in the participants who more and more dare to show their own color and the whole group becomes a magnificent rainbow under the**

artistic touch of the Painter, the Maitreya RAEL. At one point, He revealed us that as science is progressing fast and as we may reach « singularity » ( all sciences merging for a full understanding of the universal principles) in 2025, it is more likely that the Elohim will arrive around 2025.... YEAH!!!, you imagine the ambiance in the teaching hall !!!

Petanque parties were somewhat special.... To go to the game field, we had to cross the biggest Buddhist temple of Japan, going through its amazing gardens. It was so beautiful and peaceful.... Petanque was more than ever a meditation J (And our Beloved Prophet started with a « fanny » (it means winning 13 to 0!!!). Here is a picture of Maitreya Rael in front of one of the Buddhist temples, showing the symbol at the top of the building.... A star of David. We could find also many swastikas around...

Hereafter a few more images of this special week and of course of the amazing shows presented almost every evening... Congratulations to all and a special thanks to the continental guide Junzo who lead this one week show so discreetly and efficiently.... J

**The new Mongolian leader, and also a first for the movement as she is a... journalist!!!**

**Cosmos, Korean national guide, leading his guides team in a funny dance, having as much fun as in real life in his special dance with the Korean government, trying to gain access to the country for Maitreya Rael**

**A dynamic newcomer from Thailand**

**A real Big Band!!!**

Sophie, whose dances were pure meditations....

Junzo in an impressive “ Halleluyah”, fully supported, as always, by the National guide of Japan, Hideaki, in the background

..... J

Thank You, Beloved Prophet, Thank You ELOHIM....

Regarding the nominations, the new national leaders listed in a previous contact were confirmed on the last day of the seminar.

After these tiring few weeks of traveling, jetlag and teaching, on His way back to America, Our Beloved Prophet stopped in Vancouver where David Taylor’s team

welcomed Him for 24hrs. David shared with us what he read to the Prophet RAEL before His departure:

Dear prophet after reading the article you wrote about people loving the Prophet or Rael it touched me deeply, to me a friend is someone who Loves you with no expectation and unconditionally, A friend is someone who helps you grow, A friend is someone Who tells you what you need to hear and not what you want to hear. To me my dear Prophet you are a great friend

So if I may I would like to address you as a friend.

My dear dear friend you have seen so many faces come and go,  
Like the stars,  
Some are brighter and more colorful than others.  
But all are so very beautiful.

Like watching dancers they move our heart  
Or a bird building its nest.  
I see you give so much love  
Always doing your best

You are the way, the truth and the light  
Even late at night.  
I have seen many of these faces that you have touched with your heart  
Become as shiny stars

With little bags of conscious stardust to sprinkle on the minds of other people  
So they too can find the truth in their hearts.

We have a great mission to do together, learning, Laughing and having fun.  
And sometimes lying in the sun.  
I hope that when the time has come to change back to dust,  
That we all will of expressed our dust enough.  
To feel the sun upon our face once again.  
To be young again, to play like children and to push an infinite amount of buttons,  
(Remember pushing the buttons as children?)

## There was a party in Quebec...

*By Samantha*

This year, we treated ourselves with a beautiful party for new year's day. We started with a nice ceremony in Quebec city, full of humour, surprises, emotions ( an enchanting meditation, tributes to our Beloved Prophet and even a song that made us shiver)

We had the pleasure to welcome two newcomers in our family Christiane and Yvon. So happy to have you with us!!

But the day was not over yetJ

At 6:00pm we all embarked for a cruise on the Saint Lawrence River with a special dinner while we sailed all the way to the water falls of Montmorency where we had fireworks!!!!

After the beautiful show, the Raelians took over the dance stage in their crazy and sensual way. We informed all the people on the boat that it was our new year celebration and several times during the evening, the DJ wished us happy new year. The other people around were a little surprised at first but joined quickly our celebration mood and had fun with usJ

What a beautiful celebration. On our way back, we contemplated the lights of Quebec city, feeling the love we shared, the enthusiasm that linked us, it was just sweet pleasure.

Thanks to the organizers and to our guides for a beautiful day!

## **Celebration in Benin with pleasure...**

*By Esprit Amoussou,*

We celebrated in the SunCity ( cité du soleil ) about 20 miles from Cotonou.... it was the city of pleasure with such a natural glorious environment, flowers with so delicate perfumes, birds with so many colors.... we were in constant meditation. We spent our first evening around a camp fire telling each other stories, the African way. The day after started the seminar given by Plaisir the national guide on the theme : "Use your conscience to be"... 5 newcomers did their cellular transmissions that day... and as in every seminar, the day ended with a show revealing many new talents...

## **DIFFUSION....**

### **In Toronto, by Diane Brisebois**

This is just to inform you that, Roberta Bondar, the first Canadian Woman Astronaut to go to space, has received the Message of the Elohim. I have met her in the past and she kept my business card. She recently sent me an invitation to her exhibition of her photographs; she is traveling the world to photograph the wonders of our National Parks. She said that after traveling in space, she realized the beauty we had right here at home, on this beautiful blue planet of ours and became passionate about capturing this beauty.

I couldn't make it to this exhibition tonight so Aresh Izadi and Patrick Rhein went to meet her and have given her the book as per my request. Thank you Aresh and Patrick you are wonderful!!!

## URIEL's tour in Burkina Faso

By Lamane

The curtains are down, Uriel is gone, but what a beautiful achievement!! We are all still under the beautiful emotions and they will last long...

After the beautiful conferences in Bobo Dioulasso as reported in last contact, we went to Elohika. Imagine the Prince Uriel, the Nlongi, the one who announces the

Nkua Tulendo ( according to the predictions of the Prophet Kimbangu), surrounded by the Princesses' of Elohika, arriving on a horse under the teaching hall of Elohika where 190 participants were waiting for him to start the new year!!! Wow, what a happy celebration!!!

The seminar started in a different way with 2 famous artists who joined as they wanted to contribute with their colors to our new year's celebration and honor our Beloved Prophet. We are talking about Foum Moboh and Abdoulaye Diabaté with his dancers who said, while he was on stage, " I came tonight to play for the Prophet RAEI."

And the celebration has been really amazing, an overwhelming welcome, fantastic classes to open the seminar, beautiful performances of the artists... and then we danced up to the early morning J The following day, we

welcomed 35 newcomers surrounded by the special symphony of the birds of Elohika. There was humour and love during these transmissions. We had to ask the last candidate to take his breath as he ran all the way to Elohika to be able to do it on time. We asked him to breath deeply 3 times before proceeding... J

After the seminar given by Uriel and the guides, Uriel went on with his meetings of kings.

- On August 15th, he spent one and a half hour with King Goulmou and his ministers, in Fada N’Gourma, about 150 miles from Ouagadougou. This king who is a trained pharmacist has been extremely receptive of the messages. He said : “ I am ready to bring my stone to the building of the Embassy and to the process of building a new African Confederation as you initiate it”. The kingdom of Goulmou is spread over Niger, Benin and Burkina Faso.
- On August 16th, he met the King of Boussouma, in his office, inside the National House of Representatives in Ouagadougou. This king is also an elected representative of the opposition party. He received especially well the Prophet Rael’s declaration for Africa and the book of Uriel triggered something in him as he is a Catholic but was questionning the coherence of it and the values of the teachings of his church. He declared at the end that it has been a great meeting and that he certainly didn’t waste his time.

- In the afternoon, Uriel met with Larle Naaba the first minister of Mogho

Naaba in his richly decorated palace. He said that he would welcome a meditation with the Raelians in his palace on a Sunday morning !!

- He also said “ I am Raelian, I am not in your list but I agree with most of your values and ideas”. He added that “most of the intellectuals do not know the Raelian philosophy, they think only about extraterrestrials, but

by meeting you and listening to you, it is a different story”

- At the end of the meeting while he was taking us to the exit of his palace, we could see people playing petanque outside. Larle Naaba confided to us that it would be a great honor to meet our Beloved Prophet one day and maybe, play petanque with him?

Looking back at all the meetings with the kings and traditional chiefs, we can tell they are all ready to support us for the Embassy. They are so different from the political people.

All media reported entirely what Uriel said during the interviews and some will air it several times.

We are expecting more outcomes from the stay of Prince Kayemb Uriël Nawej to whom we are so thankful. To say thank you is too little compared to what we feel

in our neuron-heart. It is almost as much as what we feel for our Beloved Prophet.

Uriel also was so happy with his stay. He said “ I can't believe it, it's like a dream!!!”

Yes, we all feel the same here in Burkina Faso.... A special thank you to Manaka Douanio the national guide and his team. It has been a success from A to Z and we owe it to you dear Beloved Prophet and to your Father in the skies.

Happiness, oh oh ... happiness

**RAËL Oyé ! ELOHIM Oyé !**

## **IN MONTREAL**

*by Michel Bolduc*

A new festival, Festiv'elles ' of the International Women Festival of Montreal was held lately and its president Andrée Parent accepted to welcome the movie Wo-Man, that was produced by the Canadian Raelian Movement for its apostasy campaign last year. On the picture, Andre Gaumont the director and Josephine Sarrazin who did the

scenario. The event took place at the National Office of Film in Canada where 5 movies were presented. Posters were displayed on the windows of the Film Office. 110 came to attend the presentation, and we were quite nervous to see for the first time a Rael Video Production presented to the public.

There were a few whispers at the end when people saw the rael.org website. At the end, Josephine and Andre were asked questions like all the other directors and they received more questions than any other. As they saw the apostasy request in the movie, they wanted to know if Raelians were atheist and you imagine that our representatives had pleasure to answer, in their smiling and harmonious way....

The president of the festival in her concluding remarks reminded the public that a society must encourage its differences and that there is room for everyone.

At the end, we could see the enthusiasm in the eyes of the Raelians who attended the presentation, especially our guide Rolland Gaudette who wants to have more presentations like that. We all felt as if we were at seminars....
