Joy in Mongolia

If you can do something for Humanity, you must do it. If you don't give 100% of yourself to Humanity, you cannot have eternal life.

Maitreya Rael, Ulaanbaatar, June 62aH

WORDS OF OUR BELOVED PROPHET

MAITREYA RAEI IN ULAANBAATAR

Genghis Khan killed millions and for sure didn't save the life of millions +1.

We must never kill, not even one person. This is why very few military people can have eternal life, only those who refuse the order of their commander can. Some do it. Some refuse to be in the military. Conscientious objectors are sure to have eternal life"

He also explained how education can transform a peaceful people into a people that puts a criminal on a pedestal.

"I understand you, you were told from your childhood that Genghis Khan is a hero. Every school in the world is the same, not teaching the truth. I was told in France that Napoleon was a wonder-

Our Beloved Prophet went to Mongolia at the end of May to meet with the Ulaanbaatar's brand new team. Tuvshin, the National Guide, became Raelian three years ago and did his first seminar in Narita, Japan at about the same time. Since then he has gathered around him some 450 Raelians, the fastest growth on the planet for years! Maitreya Rael decided to meet with them for a mini-seminar and accepted also to give a press conference and a public conference. Hundreds came to see him and he was also portrayed on major news programs in the city. Many Mongolian personalities are actually Raelians. In this predominantly Buddhist country, the Raelian philosophy is obviously highly welcomed.

Maitreya Rael was also there to teach and in this Buddhist country, he was surprised to see how Mongolian people perceive Genghis Khan, their past bloody leader, who conquered China as well as most of Europe and killed millions on his conquests. Most Mongolians consider him as a semi-god. Some of them even asked whether our Beloved Prophet saw Genghis Khan on the Elohim's planet or whether he was a Prophet!!

Here is what Maitreya Rael said:

"No one killing another person can have eternal life except if he or she saves the life of two other people.

If you kill ten people, you must save eleven in your life.

On one of the best TV talk shows

ful man too. We have streets with his name there just like you have here with Genghis Khan's name. But if you research a little, you will see that Napoleon had killed millions of people. The US killed 300,000 people in Hiroshima. This is a terrible crime against Humanity, but in American schools it is still taught that it was a great thing to do and was necessary. This is terrible. Young children are being told that it is ok to send bombs and kill. Most countries have national heroes who are killers; Julius Caesar, Peter the Great, Alexander the Great, Napoleon, all were killers and history books portray them as models. Serial killers are the models given to our children. But what about the real heroes? What about Gandhi? What about those who make the scientific discoveries that make our lives so much easier? The inventors of electricity, of cars, of airplanes, were they military people? Everyone here has a cell phone. Its inventors were the real heroes, not Napoleon, not Genghis Khan!

All our lives are changed by geniuses. We should teach their names in school and show them as models.

This is why it is important to change education.

To be Raelian is to be revolutionary, but not false revolutionaries like Fidel

Castro or Lenin or Mao, because they were only thinking about politics. To be revolutionary is to change education in order to make the world a better place. It is to push women to be top scientists; it is to go back to school even if you are 70... you can all do it.

He also encouraged the audience to think about a World government and a World currency.

“We are children of the Universe. There are no separations between planets, between countries, all is illusion. We are one. If borders were real, we would see them from space. Borders and nationalities are illusions”

On the last day he addressed the 130 Raelians who gathered to meditate with him....

‘Thank you Elohim Thank you for the beauty of the trees, of the stars, of the eyes of other people...’

You don't read the Message of the Elohim, you feel it.

Maitreya Rael, Ulaanbatar, 62aH

Everything in your life is enjoyable thanks to them. Thank them ev-

ery second of your life. If you do that, your life will become fantastic. The book of the Message is just paper, it can be burnt. But the Message must be alive inside of you. The Message of the Elohim is in your heart, in your mind, inside of you. If it is just on paper, it is dead. What is beautiful is to have it alive inside of you.

More with the week's images

getting ready at the airport...

A touching welcome

During the press conference in front of more than 30 journalists

on the following morning..

12 new guides nominated

Tuskin, National Guide of Mongolia

Tsetsege, champion in archery and new level 4 trainee, Assistant of Tuskin

Koji, in the center, is level 4 in Japan and came to Mongolia on missionary actions starting 4 years ago. Congratulations Koji, well done!

In these two pictures, the wonderful Japanese team which came to support the organization of the whole week.. it was great to team with you all:-)

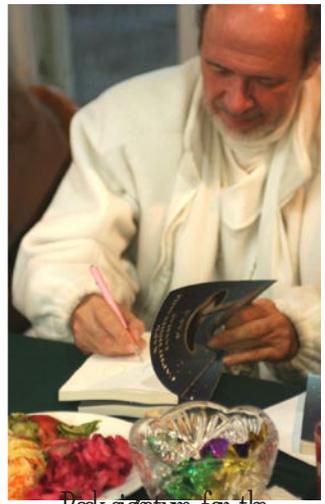

traditional house where Maitreya was invited

Unidentified lights were observed over the city during the week and a picture taken on a cell phone...

'Shing Star' is the name of the singer, name given to him by Maitreya Rael, after he requested the favor to Maitreya like many Buddhists do to the Dalai Lama. Shing Star has written a wonderful song to the Eldim.

Book signature for the first time outside. Maitreya loved it!

A happy team at the airport after a very successful week!! Thank you Beloved Prophet for all that you give to us all...

SUNDAY GATHERING AT MAITREYA'S GARDENS

On Sunday morning, when he is in Japan, our Beloved Prophet is always surrounded by Raelians coming from all over the country to meditate with him.

After the meditation he often talks to them...

Here are some notes from one of these magic moments:

What is love?

For many, love is linked to a girlfriend or a boyfriend. This is the same love as the one felt by rabbits or birds, it is just sex. Sex is good but it isn't love. It is making love.

What is love then? The love of a mother for her baby, for her child? It is the same as the love of a cow for its baby calf. It is all hormonal. Hormonal emotions are chemical reactions, they are not love. If you see a beautiful boy and you become wet, it is due to chemical reactions that you don't decide. It is good, it is fantastic and you should enjoy it, but it isn't love. When men have an erection, it is due to the same chemicals reactions as the ones experienced by a dog or a bull. This isn't love.

Real love cannot be hormonal; it must come from the consciousness. Real love is when you love someone without any chemical reactions in your body, no sexual attraction, no family link, when you love the human being because he is a human being; when you want to give love to as many people as possible. When you want the planet to be like heaven and have everybody happy... this isn't sex, it is consciousness.

You can mix both. You can love sexually and consciously, it is little bit more difficult. Whenever hormones are involved, we must be suspicious, but it is possible to love your child or your lover(s) with consciousness. Make sure that your life isn't guided by your hormones. That is real love.

Question from a participant: Sometimes I look at humanity and I can't give my love to it anymore. I am loosing hope.

Maitreya Rael:

When you see pain and suffering, you have two ways to react. It is an illusion to believe that compassion is crying with others. For example if Eri is hungry and is almost dying from starvation, you can look at her and cry or run and get food and save her. Crying about suffering doesn't help. We become negative in doing so. It is better to help and smile because we can change things.

To have compassion is to have a big smile for people suffering and putting energy into fixing the problem. It is a mistake to have a big plate in front of you and cry because people are dying from starvation in Africa. It is better to say thank you I have something to eat, and enjoy it to have the energy to fight the wrongs of this world.

Crying in your food doesn't give food to starving people

Question: How can you make an impossible dream possible?

Maitreya Rael:

Try.

You don't have to succeed but it is important to try. If you spend your life trying to reach it, it is a beautiful life. Succeeding isn't important, trying is important. Life is boring without impossible dreams. It is a reason why people kill themselves. To dream of an impossible dream, that's the goal.

If you unluckily succeed, you should find another one. But here is a little advice: Start with impossible ones that are easy to achieve so that you can have a second one :-) It is good to have different levels of dreams, small ones, middle size ones and huge ones:-)

Participant: yes but I have fear

Maitreya Rael:

To have no fear in your brain is the most important priority. It is your worse enemy. If you have fear, you won't accomplish anything.

Participant: How?

Maitreya Rael:

Just stop. Fear is a negative emotion. Right now you can have an infinite number of fears. The more fearful you are, the more you build fearful connections. Are you afraid of dying? No need to be afraid of it, you will die. You must love it. It is in your genetic code. We will change it one day but now it is inside of you. I'd love to be eternal on Earth but I know I will die and I love it. I feel the possibility to die tonight as a stimulation of happiness. It makes everything more intense. If you die in 15 minutes, have no fear, enjoy it, laugh and be happy. It is coming, every second... Fear of being sick... so many fears can make your life like hell.

Just stop thinking negative. Try to be completely fearless. Your #1 priority must be to destroy every fear. When you are a Buddha, you have no fear. Fear comes from imagination. If you are afraid of having cancer, you start to feel sick... Fear of losing beauty?... you will You can be happy without any money, no apartment, sleeping in the street.

If you use your imagination for negativity, it will bring you to a psychiatric hospital. Whenever you have a negative emotion, stop and check where it comes from.

NEWS AND VIEWS

RAEL'S OPEN LETTER TO SN. BARACK OBAMA

The following open letter objecting to media use of the term "African-American" was sent to Sen. Barack Obama, the presumptive Democratic presidential candidate.

Dear Honorable Senator Obama:

First, congratulations on your candidacy! I am hopeful that you will win the election and make much-needed changes in American policy, both domestically and abroad.

It is for that very reason that I write to you, since you are in a position to greatly influence public discourse as well as policy, each affecting the other.

I'll come straight to the point:

Concerning the way the media refer to you and other black Americans, I respectfully ask how you, as an American, can accept being called an African-American by members of the press. In a country that claims to be fighting racial discrimination, this

reference is all too common and should be forbidden. In discussing white Americans, no media representative would dare refer to them as “European Americans,” so why call black Americans “African Americans?”

Surely you agree that the explicit reference to ancestral continent of origin is inherently racist, since no white American is ever described that way. It’s as though many in the media consider white Americans to be the only real Americans, with no need to mention their continent of ancestral origin, yet at the same time deem black Americans to be somehow less American and therefore find it necessary to mention it.

This appellation designating continental origin of ancestors shouldn’t be used anymore, and all black American organizations should either condemn it or force the media to provide fair and equal treatment by referring to white citizens as “European Americans.”

Recent scientific publications even showed that many ‘European Americans’ have a high percentage of genes coming from African ancestors. Jim Watson who had a very racist attitude lately was found himself having up to 9% of such genes.

Since words – especially those used by respected media sources – unobtrusively help to maintain, undermine or revise public attitudes, I urge you to publicly object to further use of the term “African-American” by the media, and to sponsor legislation outlawing use of this wording in textbooks, government documents and elsewhere.

Again, I send you my heartfelt congratulations, and I look forward to your reply.

Sincerely,

Rael

TOP OFFICIAL CALLS FOR ENGAGING AND TALKING TO ONE’S ENEMY

One of the top policemen in Britain told the nation’s media that the only way to end terrorism is to “talking and engaging” with one’s enemy. He should know – his name is Sir Hugh Orde and he was the first head of the police force in Northern Ireland to facilitate negotiations between Ian Paisley and Martin McGuinness, the respective leaders of two enemy organizations in Ireland who were engaged in one of the most violent struggles in recent history which lasted over 30 years.

Among other things, Orde pointed out that there has never been a single terrorism campaign in history that had ended without negotiation.

The Prophet RAEL responded emphatically:

“Of course he is 100 % right! Only understanding the “enemy” and negotiating with love can bring worldwide peace - because behind any “enemy” there is a human being with the need to be understood and respected. So many unnecessary deaths and suffering would have been avoided if all the world’s leaders could have had the same wisdom. No military power, no matter how powerful, can replace love and understanding. If only Bush and Blair could have understood this, so many innocent lives could have been spared.”

Thanks to Orde’s spearhead mission, a peaceful end was realized and the 2(two) former enemies (see picture above) even served in government together and have become friends. :-)))

CANADIAN NATIVES ABUSED

A truth and reconciliation commission examining what native leaders call one of the most tragic and racist chapters in Canada's history has begun. The commission will study Canada's decades-long policies that removed Aboriginal children from their families to force Christianity upon them. The state-funded religious schools were often the scenes of horrific physical and sexual abuse. From the 19th Century until the 1970s, more than 150,000 aboriginal children were required to attend Christian schools in an attempt to rid them of their native cultures and languages and integrate them into society.... We see here again the same despicable technique used by Christians on every continent, Kama, Ixachitlan... So much suffering in the name of god again!

The federal government admitted ten years ago that physical and sexual abuse in the once-mandatory schools was rampant. Many students recall being beaten for speaking their native languages, and losing touch with their parents and customs.

That legacy of abuse and isolation has been cited by leaders of native communities as the root cause of continuing epidemic rates of alcoholism and drug addiction on reservations.

The commission, which is in the early phase of its research, will spend five years traveling across the country to hear stories from former students, teachers and others involved in the so-called residential schools run by the Roman Catholic Church and various Protestant denominations.

Canada's aboriginals - who number nearly one million - remain the country's poorest and most disadvantaged group, with a life expectancy five to seven years lower than non-natives. Suicide rates are three times higher than the national average, and teenage pregnancies are nine times higher.....

Our Beloved Prophet sent his warm support to the head of the Native association and made the following comments:

'Apologies and money are not enough, the Canadian government should finance schools to reeducate all the so-called "native" people, (in fact the only real Canadians), to teach them their original culture, religion and languages, making these languages mandatory first language in these schools, with English or French as second language only and to be learned only later. This should include all schools, including kindergarten and primary schools which should be only in "native" language. Like that it would not be only political bla bla but a real action to restore and reinstate the 'native "religion" of this wonderful culture. And in parallel we should engage in a large action promoting apostasy from Christianity which was forcibly imposed on these people, telling them the truth, which is that their colonized and abused ancestors cannot rest in peace as long as their grand children continue to belong to the religion of their tormentors and colonizers.'

SHOULD HUMANITY AIM FOR THE STARS ...

This is the challenging title we found last week in one of CNN's articles...

The proponents of the NewSpace movement, hold that humanity must expand into space if we are to survive. They say that the limitless resources held by the stars will help humanity seek a bold new future.

But some say that we should fix Earth's problems, especially the challenge of global warming, before we set our eyes on the stars. They say space travel is too expensive, and its carbon footprint too great, to be a priority for us right now.

So the question asked by CNN was "Should space be our next frontier? Or should we focus on fixing things here on Earth first?"...

Fascinating question, especially for us Raelians, knowing that we are meant to go and spread life out there, but at the same time we have the mission to make this planet a paradise.... And both missions have to progress together if we want to succeed, but for sure, the dream to go out there has brought so much to Humanity in technology that this should never stop. All what has been developed by the scientists involved in that research has contributed much more to Humanity than the CO2 generated during the shuttle's launch and much more than all the money spent in weapons and war. It brings also so much more hope...

NURSES TO BE EVALUATED ON THEIR LEVEL OF COMPASSION

British Health Secretary Alan Johnson just stated that he wants the performance of every nursing team in England to be scored. He said he believes compassionate care was as important to the recovery of patients as the skills of surgeons.

RAEL said

“...this is a wonderful decision. This should also be applied to all government employees, including members of the police and military. Love and compassion are the only way to replace the barbaric brutality triggered by George Bush and Tony Blair.”

ZEITGEIST WRONG, A WORLD GOVERNMENT IS THE SOLUTION

There is an interesting independent movie circulating on the Internet by the name of Zeitgeist which addresses subject matters that would be considered conspiracy theories by some but cause for alarm by others. A few of the topics covered are banking monopolies, RFID (radio chip implants in order to track people), the New World Order (one single government) and other things like this.

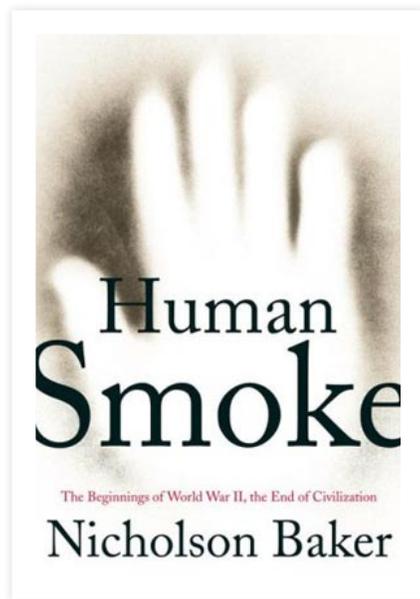

RAEL saw this piece and gave an interesting perspective:

“Contrary to the negative commentary in this film, having a one-world government as explained in the Messages given by the Elohim is the only way to save Humanity. It could be democratically controlled by the people as well as eventually reaching geniocracy. A world government is indeed much better than a total destruction through a nuclear world war. Additionally, control of criminals through implanted chips is also good and much better than prisons, especially if these chips can detect the mental sickness which creates violence. What would be terrible is if a world power were to destroy freedom and human rights using these tools. But this is already happening right now in several nations and it's not necessarily what will happen with a world government, which, if it is controlled by the “people for the people”, can also be a model of freedom with the Declaration of Human Rights as a World Constitution. Not being a criminal and if all the freedoms of Human Rights would be granted, I would be very willing to have this chip implanted in me. And with the United Nations as a supervising authority of this world government it could work very positively. Besides, it's much better than the current independent nationalistic powers accumulating nuclear weapons, preparing for the self destruction of Humanity and wasting huge amounts of money for national armies while children are starving and lacking education. The future is clearly more beautiful with a world government, a world currency, and a world language, which, when implemented all together will bring eternal world peace.”

HUMAN SMOKE - NICHOLSON BAKER'S BOOK ON WWII

Nicholson Baker is a U.S. novelist and has just released a nonfiction work titled “Human Smoke” (referring to the crematoriums on the concentration camps) which questions the moral justification of the world war which even many war critics feel was justified. The heated debate started while readers follow how Baker indicates that Winston Churchill and Franklin Roosevelt share blame with Adolf Hitler in setting the stage for the deadliest and most destructive war in history. Baker proposed “If this is the war that everyone holds up as the benchmark of a morally justified war, let's look very closely at how it began, let's find out what happened, in what order and where the moments were that things could have turned out differently.”

Raelians would agree. If we are to learn from the past this should be done very carefully.

Over the years of his research, Baker discovered a succession of newspaper articles which he placed in chronological order which have ended up painting a very different picture of the world stage in the years leading up to the war than what is taught in any school history class. Among other things, he contends that Churchill responded to Hitler's attacks on Poland and other neighboring states by launching a relentless bombing campaign against German cities as well as a blockade that was designed to starve the enemy into submission. (That sounds like the first Iraq war, doesn't it? It didn't work then, either. It only made innocent people suffer)

Baker also said in an interview that "Churchill was acting like a bloodthirsty maniac during that period and that this fact should go back on the record in all its unpleasantness. We can't learn from a hero like that. It's a mistake to say that because Hitler was bad, we have to clean up the image of Churchill. Churchill was also bad".

RAEL was very happy to see the release of this book and said it was fantastic and courageous to publish it. He commented that the same exact thing applies to the US blockade of Japanese oil which led to Pearl Harbor and Hiroshima."

90 YEARS OF AMERICAN ACTIVISM IN THE FACE OF GOVERNMENT OPPRESSION

An alarming yet touching book has just been published with the title "We Shall Be Heard" . This book recounts the stories of over 90 people from 1919 to today all of whom decided to stand up against the US government which was trying to diminish or remove their civil rights. Bud and Ruth Schultz wrote this book after 25 years of interviewing these very brave people. Their struggles were very difficult. Called traitors, unpatriotic, racial slurs, put in jail for speaking out against war amongst other things, these are the people who Americans can be grateful to for their remaining freedoms and enjoyment of life.

The Prophet RAEL was touched by their stories and said

"...if the US media honestly supports freedom as they like to tout, they must all promote this book. If they don't, they are either cowards or accomplices to these crimes - like those who didn't question Iraq's illegal invasion."

ISRAEL THREATENS IRAN WITH NUKES

Israel's Deputy Prime Minister, Shaul Mofaz, just told the Yediot Ahronot newspaper that if Iran continues its nuclear program, Israel will attack Iran, saying "Attacking Iran, in order to stop its nuclear plans, will be unavoidable".

The Prophet RAEL pointed out what most in the Western World somehow continue to ignore.

"...in other words it's supposed to be OK for Israel to have more than 500 nuclear bombs, but not for other Middle East countries. This is a double standard at its worst. Either Israel destroys all its nuclear weapons and then can ask all other countries to be nuclear free or it must accept others to equip themselves with similar weapons."

CONGRATULATIONS TO BILL HENSON

Bill Henson is an acclaimed photographer in Australia with an amazing portfolio. This week, Australian police dropped an obscenity investigation against him which involved portraits of nude adolescents at his exhibit at an Australian art gallery. As you can imagine, this ignited a debate on censorship. Dropping the investigation opened the way for the exhibit to open after an initial delay.

Our Beloved Prophet said

“This is a great victory for freedom. If showing naked children was forbidden, then all angels and cherubs would have to be removed from churches, including in the Vatican, and all old photos of naked babies too from every parent’s wallet or wall. Nudity is beautiful and should never be viewed with a pedophile mindset, which itself is a terrible mental sickness as recently confirmed by scientific study. Nudity should be promoted - not only for children and teenagers - but also for adults of all ages as it is the most beautiful show of art there is. Those against it are the ones who are mentally disturbed and sexually obsessed by their Judeo Christian and especially Catholic education. I hope all Australian Raelians (and non Raelians!) will visit this show and express their support to this artist”.

RAEL ASKS GAYS TO KISS IN PUBLIC

A huge local controversy was set off when two women were sharing kisses during a baseball game in Seattle, USA. A woman complained about the two stating that “There are children here. How will we explain that to them?”

Our Beloved Prophet immediately pointed out the succinct truth of the matter:

“I ask all gays and lesbians to start kissing in public as often and as publicly as possible and maybe even launch a “national kissing day”. US authorities will then have to either forbid kissing in public for all people - including heterosexuals as is done in primitive Muslim countries, or, allow gays and lesbian to do the same thing that heterosexual couples are able to enjoy. Anything else is pure discrimination.

The people complaining that “they have to explain to the children” are totally wrong: Yes they have to explain to the children that it’s OK for two men or two women to love each other. Schools should even include a curriculum which would teach complete, loving respect for gay and lesbian people. If it were like this, no parent would be “embarrassed” to explain what it’s all about.

In any case, it should never be embarrassing in any way when saying that two people love each other – no matter their sexual orientation. All the “embarrassment” is in the head of the one “embarrassed”. When they explain to little children why a man and a woman kiss each other they are not “embarrassed” and they don’t have to explain in which position they have sex in bed. It must be exactly the same regarding homosexuals. Just two people loving each other is a sufficient explanation.”

RAELIAN MOVEMENT STANDS BY SARIKA SINGH’S RIGHT TO RELIGIOUS FREEDOM.

The UK Raelian Movement has sent its support to Sarika Singh, the Sikh schoolgirl who has been excluded from classes for wearing a religious bracelet.

While the school argued that its uniform policy forbade all forms of jewelry which include religious symbols, Sarika explains that it is a religious requirement for Sikh people. We of course considered that this should be respected, even in school.

RAELIAN PLANET- KAMA

ANGOLA

This is a historical picture that I wish to share with you. Here are the first three Raelians of Angola and their National Guide Antonio Azevedo, who did their transmissions on the First Sunday of April. Their names: Adelina, Delcio and Jorge Xavier.

The picture was taken in Luanda, the capital of Angola. Antonio is standing between the girl (Adelina ?) and the person on the right side. Daniel Turcotte's team from Brazil, including David Uzal have done a lot and still do, to help Antonio who was found by Jacques Aizac while he was on a professional tour in Angola....

Tai , a happy Continental Guide

Raelians have no borders indeed...Welcome to you all from Angola !

IVORY COAST

This is what our sister Cathy just did at a seminar about the eradication of poverty at the President Hotel of Yamoussoukro, Ivory Coast.. Djaha Catherine is level 3 and lives in Bouafle, Ivory Coast. Here it is in her own words after she met with the Minister:

Cathy avec le ministre Bouabre

“I promised I would deliver the Message to the State Minister of ‘Planning and Development’, Mr Antoine Bohoun Bouabré. Well, mission accomplished! I am waiting now for the last part, when I will bring the final document about the ‘Strategy to reduce Poverty’ to the President of Ivory Coast, Laurent Gbagbo, where I will defend the position of the women of my region.”

Cathy Djaha.

URIEL'S WORDS

Kimbangu Piffer, guide level 4 in France who chose to be called Kimbangu in reference to Prophet Kimbangu of Kama, recently received the

following negative message:

‘Who are you to call yourself Kimbangu ? How ignorant of you! You don't even know whom you borrowed the name from otherwise you wouldn't dare such a thing. If you want to rob people, do it under your own name. Leave our Africa alone, I am telling you, as the one you want to pretend being is the exact one who hunts people like you’

Here is how Uriel responded to him:

Hi dear brother ,

Your reaction is understandable. It comes from the great desire to see our people escape the claws of this re-colonization we live at every level. I understand you and I support you in that. However remember this sentence of the Great messenger Papa

Simon Kimbangu who used to say: 'When the time has come, the black man will be white and the white man will be black'. You have a good proof of it here with a white brother who consciously chose as a spiritual name, a fight name to support and promote the path for the total liberation of the black people. Hence his choice isn't bad, on the contrary, here is a white man becoming black, who works for the accomplishment of Kimbangu's mission who couldn't wish for more. And you criticize him, what a pity, because there are so many black people around you who slow down the Prophecies of Kimbangu. Keep your energy for all those, I mean the black people who have become white. Not at any time during his life, Papa Simon Kimbangu would have pushed away a sincere white man willing to help, never ever. And a name isn't important. I went twice to Nkamba, the New Jerusalem, I was welcomed there by His eminence Papa Kimbangu Kiangani, I stayed there, I slept in his house, I talked to him in his private lounge and I can tell you that he introduced me to white Kimbanguists there ; a Portuguese, a Greek and a Brazilian with white skin. Not at any time would any of these people be thrown away because of the color of their skin or for the spiritual fight name they have chosen; never! Everywhere on the planet there are people named after the Prophets of their religion. There are plenty of Moses, Joseph, Mary, Jesus, Mohammed, etc... This isn't important. What is important is what someone says and does. Every real Prophet has always been someone who gathers people, not someone who divides them and only love can gather people. Hatred divides. Me, I love this white brother, he is more black than many black who have become white. He has understood the depth of the Prophecies of Kimbangu and he acts to see them accomplished. For this reason, he can carry that name. You know sometimes converts have more faith than those who are a member of a religion because they have been raised in it. Someone who recognizes a Prophet, does it really consciously, without family pressures, parental ones or any environmental pressure; he has studied the foundations of it and decides as a conscious adult. I should say that this black-white brother deserves recognition and this is how Prophet Kimbangu would have seen it and not otherwise.... Meditate on it ... The success of Kimbanguism depends on the increase of the numbers of white people who will become black and who will really want the total liberation of the black man. The Prophet himself said so. Think about it dear brother.

And I know very well the true teachings of Papa Simon Kimbangu ... The only picture that exists of the Prophet was taken in Katanga, outside of his cell, during his detention of 30 years. This was taken by my uncle and another one of my uncles was a guard there and talked with the Prophet often. These two people are however dead by now, obviously.

Fraternally, Kayemb Uriël Naweji

Le bonheur est comme un parfum.

On le porte sur soi pour le
faire respirer aux autres.

Kimbangu Piffer

RAELIAN PLANET – NORTH AMERICA

NEW YORK CITY...

Four of us Raelians (Marc Letourneau, Christopher Norland, Daya Juyoung Crystal and Upendra Singh) set out to have some fun on May 4th, 2008 in New York City. Our regional guide Marc had planned a monthly meeting followed by diffusion activity in Central Park.

During the lecture, the audience really seemed to enjoy the slide show with sound track containing pictures from our recent seminar...which emanated joy, happiness, sensuality and faces that expressed love. We were all fixated . Our guide Marc, as always, answered questions from the audience with his intelligence and passion. Then we set off for lunch, and then the diffusion at Central Park.

Now the fun part...so we found out that holding the poster in public is a fulfilling experience. What could be the best thing that we could be doing at this time in our civilization than diffusing the message? And that is exactly how we felt. Lots of people asked us for fliers that we were handing out for those who wanted them. At one point, we all wanted to hold the poster!!! Walking through the middle of Central park where hundreds of people were lying down with their eyes fixed to the message on the poster “Message from the Extraterrestrials; They created life on Earth; www.rael.org” felt great. People had so many questions and a lot of them wanted to take pictures with Marc, who was holding the poster most of the time. This was a wonderful time indeed – being together and diffusing!

Well the day was almost over and we had to leave New York City. But the fun did not stop there. As our beloved Prophet teaches us “Live like every second is your last,” we played music and improvised our own songs on our way back to Philadelphia.

RAELIAN PLANET - EUROPE

SLOVENIA

As we, Slovenian Raelians know, there are many more Raelians in the western part of Slovenia than in the eastern part. This is the main reason, why Damijan, who is currently the Raelian responsible for the most eastern region of Slovenia, and Gregor, who is responsible for education in Slovenia, decided to organize a conference in Murska Sobota, the largest city in that region, very near to Lendava where the European summer seminar will be held in August.

As a location, Damijan chose a meeting room in a new local library and asked local media to inform the public about the conference. This turned out to be a good idea, because 21 people came to it.

At this conference with a title ‘Intelligent life in the Universe’, Gregor first showed his beautiful slide-show, which includes many pictures of planets, solar systems and galaxies. He also explained to the audience, why the universe is much bigger than most people think. Afterwards, he also explained the possibility that we were created by people from another planet, and informed the audience about the wonderful Messages, given to our beloved prophet.

We could see that people who came to the conference enjoyed it and because of it, at least one more person will come to the seminar in Lendava.

I’ve been present at a few Raelian conferences in Slovenia and I must say that this was without a doubt, the best one.

With love, Iztok

UK

Monday, May 26th we were in Trafalgar Square (London) to attend the AFRICA DAY 2008, a festival that celebrates African culture, thanks to Eric for this info.

I was with Eric and Trysette and we gave a folder with the Press Kit Clitoraid and the words of our Prophet Rael for a new Kama (Africa) to some artists. We had two interviews with two African media to whom we gave a press kit of Clitoraid. Following our request the presenter who announced the artists on stage to pass our message that the real name of Africa is Kama, we were able to pass this information to a thousand people attending the event despite the rain throughout the day. Here are a few artists to whom we gave a folder (Manu Dibango was the last artist who went by and as the rain intensified we were unable to give his folder, then it will be for next time):

- Kanda Bongo Man (Big artist from Zaire)
- Bassekou Kouyate (winner of the BBC Radio 3 Awards for World Music Album of the Year for his album Segu Blue)
- Busi Ncube (from Zimbabwe who sings in six different African languages)
- Emmanuel Jal (whose album War Child has been a critical success)
- Inemo Afrobeat Experience (in the picture with Eric)
- Kaago Drummers (with their djembe drumming from the Ivory Coast)

RAELIAN PLANET – MIDDLE EAST

IN JERUSALEM...AN EMAIL RECEIVED LAST WEEK BY LEON... ENJOY

I live in Jerusalem and I want to become Raelian as I have always thought like you and I love your philosophy and your lifestyle based on freedom of thought and non-violence ; on the blossoming of the individual in happiness; on the full respect and love for others, without hypocrisy, in full tolerance of their different perceptions. It has been now 22 years that I have suffered in my culture, that I haven't been able to blossom through it. I have become a frustrated being. I have never had the courage to leave it because some have made all they could to make me believe, to make me reach the conclusion, to persuade me -and make me feel guilty about it-, that by trying to find happiness in another philosophy, I would be a traitor to my people and my god because I wouldn't follow his precepts; that I would be punished by god under the pretence that by trying to find happiness elsewhere – since I cannot find it in my religion- I was pursuing my own personal interest and being egoistic in my wish to change my philosophy to try to be happy! I must accept to suffer and I am obligated to stay in that philosophy because to abandon it would be considered as perdition for my soul at the service of the bad, treason towards god, I would be against god! I have always been convinced that it is only by being happy that one can make others happy; by being joyful that one can make others joyful and by being positive that one can emanate positive waves towards one's surrounding and it becomes beneficial for others to be that way. If, on the opposite, one is negative, one cannot make people happy. On the contrary, we emanate negative waves and because of that, people around suffer from these negative waves and become negative and stressed as well. How to impregnate people around us with joy and positivity if one isn't happy and joyful in the practice of one's own religion, belief or ideology? Would you be so kind to contact me and tell me what to do to become a member of your Movement asap. THANKS and see you soon.

RAELIAN PLANET – AUSTRALIA

WOW! What a great Pride Festival, full of excitement and happenings. We sure let our revolutionary light shine. None of the dozens of stalls matched ours for powerful messages. Each year our PRIDE presence gets bigger and bigger and we are more accepted and respected - a moving force in the gay world and no doubt we are widely discussed.

Our powerful presence confronts the public with our relentless mission. There's no stopping us as we continue raising consciousness and highlighting religious homophobia.

The KISS-IN against the Pope of Rome's visit gains strength and was announced over the PA before the MARCH and it will now take place here in QUEENS PARK Brisbane on July 19th, as well as Sydney. It was also announced from the MAIN PRIDE STAGE. Along the MARCH route we handed out hundreds of flyers for next Saturday's Sexuality presentation – promising to be one of our biggest presentations in Queensland.

We made a really strong team effort - very much appreciated and loved.

Congratulations to Ra who sold a book at his first Raelian diffusion. (Ra is emerging as a wonderful Raelian). Thanks to Phil and Judy from the Gold Coast and Ian from North Coast NSW, who traveled to be with us and to help. (Phil alone handed out hundreds of Raelian postcards on Homosexuality to people)

Thanks to Harmony and Zabou, who danced with joy at our stall giving the public a view of our fun loving manner. A special thanks to our director of the event LuXifer, who puts so much time and thought into organizing this event (plus his beautiful spiritual presence on the day-Thanks to: Peter (always there to put in 100% effort with the setting up and diffusing) Jessica (one of the most stylish Raelians on the day) Seoung (always leaves a vibration of peace and calmness at our events) and George (expressing

the diversity of our local team with his dignity). Saul (a powerhouse of energy and enthusiasm, working overtime as usual, to get the material and stall together with Luxifer). Our Message, flyer, stickers, t-shirts and books were very popular.

We spoke with Quakers, Lutherans, Catholics and ex-Catholics, people from jesus.com and people from all manner of religious and non-religious backgrounds and handed out many apostasy forms. There is increasing curiosity about the Message of the Raelian Movement.

Thanks for this wonderful opportunity to spread consciousness of our beloved Prophet Rael and the Elohim

RAELIAN PLANET - IXACHITLAN

ARGENTINA

Daniel Riera, the author of the book "Buenos Aires Bizarro", wrote about the Raelian Movement and our Beloved Prophet in its 2008 edition. The author talks respectfully of the Raelian philosophy which despite its unusual characteristics deserves to be discovered. This book informs the readers about subjects of interest that are out of the ordinary in the city of Buenos Aires in Argentina.

Thanks to the excellent work of Rolly Cordoba, the National Guide of the country, the author was interested enough to write four pages about us in his book!

Great diffusion dear Rolly !

Daniel Turcotte

RAELIAN PLANET - ASIA

KOREAN RELIANS LAUNCH A CAMPAIGN FOR THE REVISION OF BIOLOGY TEXTBOOKS!

Koreans have been taught Darwinian evolutionism in school. Also most of them believe in God following preaches from churches that God created all life forms including human beings. Correcting such inconsistency, Korean Raelian movement launched a revision campaign of biology textbooks to make schools teach not only evolutionism, but also various theories about the creation of life including Intelligent design, the theory of scientific creation by Extraterrestrials, etc.

On June 22nd, we hosted performances in the big cities of Seoul, Busan, Daegu, and Gwangju to let people and media focus on the campaigns. Especially, in the center of Seoul, there was a very unique event to support the theory of scientific creation by Extraterrestrials as well as to mock evolutionism and the theory of creation by God. We got lots of attention from foreign tourists as well.

People were focused on Raelians who were dressed-up in company of an Extraterrestrial boy and girl, as well as the posters that said "life forms have been created by DNA synthesis, not by chance." "No God, No Evolution. The only answer is intelligent designers from outer space!" "The earth is not the center of the universe and an infinite number of life forms live in the universe." "Darwin evolutionism is fake without any evidence!" "God is fake, evolutionism is fake. The truth is the creation of life forms by Extraterrestrials!"

In this event, Raelians marched in the center of the city holding flags and posters for about an hour. They also spread flyers and made a petition to request support for the revision campaign of scientific textbooks.

In spite of a bad weather forecast announcing heavy rain, it was sunny during the event. Furthermore the event was covered and congratulated by "Newsis", the second high-ranked news agency which released positive articles with 13 photos about the event.

Love and Revolution, Toy, guide responsible for KRM PR team
