**If you really want to prove that you are intelligent, give

RAEL, November 66 aH

MAITREYA'S WORDS

**LOVING ELOHIM IS THE
MOST BEAUTIFUL THING
YOU CAN DO**

November 20th

Some people would think it is a little bit primitive or similar to all religions, to pray the Elohim and to tell them "I love you", but they are wrong. To send your love to Elohim is the most beautiful thing to do, it's not primitive at all. We are always at the highest level of intelligence when we love.

The highest proof of intelligence and consciousness is not invention, science, or art, which are very important also but they are not the most important, the most important is love.

If you really want to prove that you are intelligent: give love.

There is nothing higher to prove that you are an intelligent being than love.

You can be top scientists but without love you are nothing.

You can be the best artist in the world but without love you are nothing.

Or you can be nothing, just a simple poor human being and full of love, and then you are better than everybody else, just by giving love, just by thinking of love.

It's not difficult, no need to go to university, no need to study, no need for mathematics, just love.

And when you give love you become all mighty. Nobody is stronger than you, no Einstein, no

Leonardo Da Vinci, nobody, when you become love.

Giving love to yourself like the Messages say, then giving love to other people, how can you do it?

By looking at yourself in the mirror and giving yourself love, and then by looking in the eyes of the people around you. They will not burn you, don't be shy to look in the eyes of other people and give love.

Feel the oneness with other people when you look in their eyes.

Don't expect anything in return, even if they don't smile at you.

Some Raelians have very serious face, but I look at them and I give my love and I don't expect them to smile.

Love is not trading, it's not "I give you love so you must give me some to", never.

Love is giving without expecting anything.

I give love, even to people who hate me. I know that on Internet some people hate me and they watch my videos. "You hate me, I love you ! And I give you more love."

"Does that make you angry ? That's your problem."

And I send more love and more love.

And it's the same for the Elohim. Giving love, praying Elohim, without expecting anything in return makes you feel good, makes you a higher person, a greater person.

Loving Elohim is the most beautiful thing you can do.

Loving infinity! Loving everything.

Now I will finish with one question : imagine that you are the only Raelian on earth, will you still be Raelian ? You have to ask yourself; there isn't anybody, no group, no organization, you are alone suddenly, will you still be Raelian?

You feel it inside, in your heart, and the answer is Yes.

But look around you, you are not alone we are thousands of people! So, look carefully in the eyes of these people around you.

Can you imagine the feeling if you were the only one? It's a good feeling but a little bit lonely.

But look, we are not alone!

We have friends all around us and we love each other, and that's the beauty of these meetings, every Sunday. That's why it's better to do it together every Sunday, to feel love and give love to ev-

everybody in the group; everybody, not only the most beautiful and the youngest, everybody.

Giving love to everybody!. Giving love to everybody, that's the reason why we are on the earth.

That's our number one mission on earth, not being intelligent, not being geniuses, but giving love.

Are you ready ?

IGNITE YOUR HAPPINESS CENTER

November 6, 66

We are one. We are one with the animals, we are one with the flowers, with the plants, with everything, with the stars, with the atoms, with everything.

Remember that, and feel this oneness, with the colors, with the vibrations, everything brings happiness.

Remember to always focus on the left front of your brain, where the happiness center is. Every time you are happy more blood comes here.

But every time you send blood here through meditation, you become happier.

So you can create happiness, by feeling this part more than the rest of your body.

Feel it. Feel this part becoming warmer, like a little fire inside: the Happiness center, and you will have a beautiful life.

Never stop feeling it. Try to keep this place warmer than the rest of your body. When you are happy it is very hot, when you laugh it's even hotter, when you sing it's hotter, scientists can measure the difference in temperature, so do it.

ONLY THE MESSAGE OF THE ELOHIM CAN SAVE HUMANITY

December 13th, 66, after the Transmission ceremony

The Elohim love you and they send you a lot of love, a lot of energy and harmony.

A lot of love, a lot of energy from the Elohim

for you.

You are very lucky. Very lucky, because you are here and you are in contact with the Elohim, because you know the Message.

The Elohim love you, but I have a question : do you love them ? Do you love the Elohim ? Do you tell them everyday ? Are you sure that you never forget ?

When you wake up, it should be the first thing : "Elohim, I love you". Everyday, and that will put a light in your brain for the whole day.

Love is your guide! I am not your guide, love is your guide.

The greatest Maitreya or Buddha on Earth is nothing compared to love.

I'm a messenger of the Elohim, the Elohim are messengers of infinity, and infinity is love, so I am a messenger of love. If you have to remember only one thing from the Message, it is love.

Love and more love.

First love for yourself, because you cannot give love to other people if you don't really love yourself completely. Feel that you are the Elohim. Don't think "I love Yahweh but me, I am nothing" or "I love Elohim and Yahweh but me, I am nothing", no, that's not good!

Remember that the Elohim made us in their image.

So if you don't love yourself, you cannot love Elohim. You first have to love you completely, totally. Look in the mirror, you see the Elohim because on your face there is Elohim. That's why you need to smile and laugh and realize how beautiful you are, each one of you.

So beautiful. So beautiful, whatever your age.

It is not a question of being sexy, just a beautiful being and then when you really love yourself, feel how lucky we are to be alive at the same time.

We are lucky, we are alive at the same time. Here and now. We are so lucky to be together.

Do you feel this love, from them, from us to them, and from us to ourselves, and then from us to other people around.

There is love everywhere. Love is everywhere and that's what makes the Messages beautiful. The most important part of the Messages is love.

And remember, first love yourself, really, even with the mistakes or the problems or the bad part of your personality. Even if you did in your past some terrible mistakes, love yourself because these mistakes are part of you and thanks to these mistakes you can do good things in the future. Even if you killed somebody in the past, love yourself, have compassion for yourself.

Then you will have the energy to save the life of other people.

Even if you killed people then you can save more people than the ones you killed.

That's why every mistake can be forgiven because we can do good things now, together. Together we are doing something fantastic, by spreading this message from the Elohim, we are saving the life of many people and our supreme goal is to save humanity.

That's our mission. Only the message of the Elohim can save humanity.

Right now, everywhere in the world there are protests, in the Arabic countries, Occupy Wall-Street in America, people are in the streets protesting and in Europe people in the streets are camping, protesting, everywhere. Everywhere people want a world revolution because all the economic systems of the world are completely broken.

The Dollar is destroyed, the Euro will be destroyed soon, all the monetary systems will be destroyed soon. Everybody is afraid of that but we are very happy, the Raelians are very happy, because we know that the future of humanity, very soon, is a future without money.

It is Paradism.

You can check paradism.org , everything is there.

Not only did the Elohim give us a beautiful message explaining the past but they gave us also the tool to have a beautiful future.

It is the end of the capitalist system. This is finished, capitalism is dying because 1% of the people in the world own 99% of your money and this is not good.

What is good is Paradism, a world without money, without banks, without banks sucking your blood.

You are the slaves of the bank. Everybody in the world is a slave of the banks.

You have a piece of paper where it is written 'one dollar' or 'ten thousand yens'. It's paper!

Paper is good to clean (ass) and go in the toilet. It's nothing, it's shit, but everybody works for that, for this piece of paper, the piece of paper must go in the toilet and not making you slaves.

We have robots, computers. In Japan, Toyota has a car manufacture where there is not even one worker, it's completely automatic. No workers, but you still pay your car to Toyota, where is the money going? It goes to the people who own the stocks of Toyota, people who don't produce anything, they are just making money on your work, they don't create anything and it is the same for everything you buy.

That's why money must disappear and why banks must disappear.

Some people say "ah this is a dream, an impossible dream, a utopia". No, today's world is utopia.

What is a utopia, something which doesn't work. Does the world work today ?

Not at all, everything is broken, the money is broken, banks are broken, everything is destroyed, so it doesn't work.

So the utopia is the reality of today and Paradism, the system that will replace the actual one, thanks to the Elohim, is something which works.

Very quickly we can reach a world without money. We can do it right now! We have all the tools, all the robots, all the computers to do every job you do, and then no more money will be needed and we can share everything on earth.

All the food, all, everybody can have a house and no more homeless people.

It's incredible, Japan is a rich country (but) you have thousands of homeless people in Tokyo, this is crazy! Completely crazy. And there are more and more homeless. Why is that? Because of the banks and this piece of paper named money which is nothing, just paper.

That's what we need to destroy, because money destroys love.

When people have money and make money, they forget love.

The richest you are, the less love you have.

And when we destroy money, then love comes back.

That's why Paradism is the essential key to the future of humanity.

And it's possible right now. If the world, the whole world revolts together at the same time, it can be done in a few weeks, not a few years, a few weeks!

That's why I'm very optimistic when I see all the world's people starting to revolt everywhere, protesting and asking for a new world order, a world based on love and sharing. That's what the Raelian Movement is promoting.

WE ARE NOT FROM EARTH, WE ARE FROM INFINITY

December 18th, 66

We are not responsible for what our family does. You are only responsible for what you do.

We don't chose our father, we don't chose our grandfather.

Even if your father killed 1 million people, it's not your fault, so don't feel guilty.

If you killed 1 million people, you feel guilty, but don't feel guilty for your father or grandfather.

If your father is Adolf Hitler, it is not your fault.

You are responsible only for what you do, not for your family, not for your nation, not for your race.

Only for you.

So no guilt about what your family or your country did.

But you must feel very responsible for what you do.

We must forget about all the nations and nationality.

You are not Japanese, I am not French, you are not Canadian or Korean, you are not Chinese, we are not Asian, we are not Europeans, we are not from the earth.

We are from infinity.

We are not even from this galaxy, we are from infinity

Because if we feel "I am Japanese", then we can have a war with China.

"I'm proud to be French", this is stupid.

If I feel proud to be French, then I can have a war with Germany.

I am not European, because if I am European I can have a war with Asia.

We are not from the earth, because if we feel we are from the earth we can think of a war with

another planet.

We are not from this galaxy, because if we feel we are from this galaxy we can have a war with another galaxy.

We are children of infinity, we are one with everything, an infinite universe and like that there is no pride to be Japanese, no pride to be American, bullshit.

No proud to be European, no pride to be human because some beings from another planet are not human, they have different shapes, they may be looking like a cat or like a dolphin or like a spider, but they are very intelligent and full of love and non-violent.

If we feel proud to be human and we go to this other planet where there are civilizations of spiders, then we want to kill everybody.

We are not human, we are consciousness.

We are one with every consciousness in the infinite universe.

Humans are our brothers and sisters, so are the trees, so are the animals, so are every life in the universe of infinity. Then we realize we are one with everything, and no more violence and peace and love forever.

Don't feel human. Don't feel Japanese.

Feel love.

THE BUDDHA PARADOX

December 25th,

This is a very special day, the conception day. We all have a conception day. It's very important to remember that you all, we all have been a little spermatozoa. There was 200 million spermatozoe swimming towards the ovula and only one was a winner, the other 199,999,000 went to the toilet.

Only one survived, you. You are all winners. You won a race with 200 million people racing and you won. First in 200 million, so that's very wonderful, no ? Feel it. You are winners.

When you feel that, no more sad feeling. We are alive because we are winners, at least one time in our life we have been winners. In the most important race in our lives, feel it. It's you. You are winners.

It is very important to have love and admiration for yourself, because you are champions.

Why?

To spread the Message of Elohim.

So and that's why we must love ourselves unconditionally, even with our problems, our ups and downs. Even with our mistakes, our health problems, we must love ourselves.

Because even if we are very sick, very depressed, very hurt, making many mistakes, we are champions. And that forces us to have love for ourselves, and compassion. Compassion is a very beautiful quality which was thought by every Buddha.

But compassion for others cannot be good if we do not have compassion for ourselves.

We must cherish this little baby we all have been and who is still alive inside. When you look in the mirror, look at the baby you still are inside yourselves. Even more, look at the little spermatozoa you still are, inside yourselves.

That makes us love ourselves more. We cannot have love and compassion for other people, if we don't start by having love and compassion for ourselves.

We must have the biggest love and the biggest compassion for ourselves so that we can give to others after. Because people who don't love themselves and who don't have compassion for themselves cannot give love to others.

You can see that on their faces, people who don't love and who don't have compassion for themselves have a very serious and sad face.

But people who have a beautiful Buddha face, you are sure they have love and compassion for themselves.

And so, if you all, and I'm sure you all want to have a beautiful Buddha smiling and full of love face. When you have this Buddha face, this smiling face, this happy face, everybody is more beautiful.

The secret is love and compassion for yourself.

And love and compassion for yourself, is not only loving yourself when you are perfect or good or successful.

No, love and compassion is when you make mistakes, when you are wrong, when you are suffering. That's when you need more compassion and love.

And then you are more smiling, if you are like that, if you reach this level of a Buddha mind, you are more smiling, more happy and more beautiful when you make mistake and when you suffer.

One more time, it is very important.

When you make mistakes, when you are sad, that's where, if you have a Buddha mind, your face becomes more shining and more smiling, if you have love and compassion for yourself.

This paradox, as it's a paradox, means that a Buddha mind when he has no problem and everything is ok, is less smiling and less happy than when he makes mistakes and when he has problem.

The Buddha paradox means that a real person reaching a level of Buddha has a less smiling and happy face when everything is ok than when he has a problem, trouble and when everything is perfect.

That is a Buddha paradox, a high consciousness paradox. More problems, more smile. Less problem, less smiling.

Remember that teaching and apply it in your life.

This wonderful teaching, makes you happier when you are not happy than when you are happy.

And more able to give love to others when you have problems.

Normal people can only give love and happiness to others when they feel good.

Real Buddha when they have problem and when they feel bad, can give more smiles and more love.

That is real love and compassion.

Remember, start with yourself, and then shine like a star.

STOP MAKING CHRISTMAS GIFTS

We must stop spending money for a tradition which is pure invention promoted by multinational companies to make more profits. Stop lying to your children about a Santa Claus which doesn't exist and wasting money to respect a tradition which is based on a lie.

Don't make any Christmas gift ! You have plenty of occasions to make gifts to people you love without doing it during this collective mass celebration of crazy consumerism promoted by governments, religion, and industries and which has absolutely no spiritual content.

Instead, teach your children peace and love and make gifts to them if you wish to do so at another date. I recommend one month before Christmas, like that Raelian children will have their gifts before all others and will make all other children jealous and push them to inform their friends that there is no Santa Claus and push them to put pressure on their parents also not to continue this stupid tradition. Celebrating spiritually the memory of Jesus or my conception day is good. But not a commercial orgy.

SOUTH KOREA INTERNET GAMING FORBIDDEN FOR KIDS AFTER MIDNIGHT

After the new law was passed in South Korea which forbid teenagers to play online after midnight, Maitreya declared it as "a stupid limitation of freedom for teenagers by the Korean government"

"No government should interfere with the private life of citizens. It's up to the families to decide what they want to do in their private life. It starts with teenagers, then slowly the government will

extend limitations on adult citizen, not only about sex, but about political contents, etc.... Young Koreans will anyway find a way around this stupid laws as they can easily use an adult friend or adult family member to play at night. The power belongs always to the People, not to the governments.

BAN ON CLUSTER BOMBS

The US has requested, without success, that the UN lift the ban that exists on the use of cluster bombs, bombs known to harm civilians long after wars are over..

Maitreya reacted strongly to the US attempt, asking the Nobel Committee to cancel President Obama Nobel Peace Prize. "This is another crime committed by a nation whose President is a Nobel peace prize winner. Will the Nobel committee finally have the courage to strip him from the award?"

BRADLEY MANNING HONORARY GUIDE

I decided to award the title of Honorary Guide of Mankind to Bradley Manning for his courage to reveal to Humanity the dirty secrets of governments and hoping that his example will push all military of the world to do the same so no governments or military leader can illegally kill, torture or do anything which is against Human Rights

JACOB ZUMA HONORARY GUIDE

President Zuma was nominated Honorary Guide of Humanity after blaming Christianity for South Africa's problems. He reportedly blamed the introduction of Christianity in the 19th century for the continent's current problems which is in perfect agreement with Maitreya's vision about the poison that Christianity is and has been in Kama.

Today was the conclusion of a beautiful common action which showed us how strong we can be when we unite and push in the right direction. Thank you Negar for giving us this opportunity. More are coming our

DILU IN CONGO

DILU short for “Dimanche Ludique” (Playful Sunday) is a new diffusion and pleasure concept that the Congo team put into place. Once a month, all the raelians of Congo each in their region, gather but not for the almost traditional gathering of exchange and meditation, but to have pleasure by diffusing as a group anywhere chosen.

In Mfoa (Brazzaville) during the DILU of June 26, 65, Swastika Rehabilitation day, a soccer game was organized at the TV Congo stadium. The team called “The Extraterrestrials of Congo” from the Congo Raelian religion, led by its captain Uriel Kayemb, level 5 played against the team named “The Fearsome” made up of the journalists of the National channel 1 of Congo.

It was a wonderful party: more than 100 raelians were gathered around their National Guide to beat the team from the TV station that censored us during our last media broadcast. The score: 4-3! “The Extraterrestrials of Congo” won a game full of meaning. Rael oh oh oooooo. It wasn't easy but our spirit was top when after being led 2 to 1, Uriel scored a goal to make the score even. Everyone exploded with joy, both Raelian and non Raelian alike that had come to support the “Extraterrestrials of Congo” .

A beautiful victory for us and on top of it, we had a great time, before the game (it was announced on the radio and TV during the whole week), during the game and even after the game where, a traditional meal was offered to our opponents during which a hot and harmonious debate took place between the journalists and 3 guides who took part in it. (Mwene, Uriel and myself)

Uriel was interviewed on TV and on the radio. He didn't miss the opportunity to point out that media liars have existed since the time of Jesus and even before, these media were the reason why Jesus was crucified. The public opinion influenced by the media liars were led to favor Barabbas over

Jesus because their propaganda against Jesus had been well orchestrated.

The Raelians are not surprised with the treatment they received from the media, Uriel pounded, so we go on with our job to spread love and happiness. They promised to repair the mistake by broadcasting the pre-taped interview of our spokesperson, Woukoussa the following Saturday, and tonight they announced that they would air the game and Uriel's interview... but you know... wait and see.

In the meantime, we gave out 853 flyers, did a 30 minute conference in front of the journalists and we were the spot light in the neighborhood where the match took place, where many young people live. At 11AM, they were all surprised to see us form a circle and attempt to do a group telepathic contact, wearing a swastika inside a star of David as a symbol of happiness and pleasure... love and light cannot continue to be hidden, positive contamination goes on...

ON THE ROAD TO ENERGIZE NKAYI, CONGO

Guided by the pleasure to bring light to Nkayi, 4th city in Congo, a team of 10 Raelians from Pointe-Noire, led by Woukoussa, guide priest who originates from Nkayi, assisted by Mahinga Ma Ngoumba, Pointe-Noire's regional guide, headed to Nkayi for 2 days (Nov 26 and 27, 66 a.H) to lead diffusion and harmonization activities there.

A large public conference gathered 75 people on Saturday November 26, 66 a.H, followed the next day by a Sunday meditation attended by 22 people. These two activities were preceded by a substantial media campaign with radio and TV announcements, posters, invitations, flyers given out and the broadcast of the Prophet's presentation titled "Assessment Of Africa's 50 Years of Independence" 4 times that week.

The next mission is scheduled for next March.

Thank you Raël for all this happiness,

DECEMBER 13 IN ADIAKE, IVORY COAST

The 13th of December celebration took place in Adiake (a city located in the region of South Comoe) which has been very dynamic in its diffusion in the past 2 years. The Messages are welcomed with enthusiasm there.

The celebration began at 11H with a copious lunch. The menu included cassava couscous with fish, manioc accompanied with a paste made of sweet potato greens. Guide Djossouvi Chrisostome (Djoss Lamathyere) gave a speech about the Messages and then Guide Degni Yolande (Yolie) explained the Raelian Baptism in the light of science to the 27 guests who had left their professional activities to attend. It was a bit challenging to gather the team and the newly baptized people because most of them are students and the others have demanding careers.

9 people, including 1 woman recognized the ELOHIM as their creators. Medals were gifted to the new comers.

Thank you to the whole team of Adiaké (Adjèkè) and the one of South Comoé.

He asked the city Mayor to rent one of the class room to stay for a while for only 500 yens per night, and the mayor said OK to him.

After that, Masahiko had an idea to ask Okinawa schools to accept Fukushima children during the Summer holiday season (they have no class in July and August), and some schools agreed to his idea and the organization to save Fukushima children was established and now many Fukushima children stay at some Okinawa schools thanks to Masahiko.

AUSTRIA

On June 18, the Raelians of Austria took part in a 'gay pride' in Vienna, called Regenbogen Parade ...

There were three of them (Alireza, organizer and in charge of Aramis / Vienna, Hubert and his partner Bettina Heinzle / Tyrol). They had the surprise to find themselves in the very middle of a political game where a representative of FPÖ party of Vienna (Mr. Lasar) criticized the event saying "This is where freedom of expression leads" (I summarize - apparently there were posters that criticized his party) and by giving as example some kind of 'neo-Nazis' that had been admitted to the event. The 'neo-Nazi' in question were the Austrian Raelians who wore the symbol and holding balloons with the symbol too; one picture appeared in the media. On the internet 2 or 3 sites talked about it.

Of course, political opponents took the opportunity to make fun of him, saying, rightly, that he was uninformed and informed him that they were the Raelians.

In our case, during the days that followed, we used the event to give more explanation on the website that reported the case and allowed comments. Our active members were well mobilized for the occasion ...

THE RAE LIANS OFFER « FREE HUGS » IN LUXEMBOURG

On November 19, the streets of Luxembourg turned into mini carnival scenes with the Raelians in costumes and their festive and colorful Free Hugs. They had costumes, wigs, craziness, musical instruments and laughter, despite the pre-winter temperatures. Some passers-by took them immediately for "ETs".

"It's somewhat true" said Hugues with humor, coordinator of the Raelian Movement in Luxembourg, since we claim that we come from an alien civilization, who created life on earth (2) ". "Other townsmen came spontaneously and some even thanked us for bringing

joy in the city! ... “He said “ like those sales ladies coming out of their stores to give us a hug in the street and the many groups who wanted to take pictures with the Raelian team.” A beautiful wave of friendship went around the city, and continued when the group seated in a cafe and people kept coming to spontaneously give us free hugs, asking who we were and what our motivations were. A beautiful day indeed filled with pleasure and joy, sharing the feeling of accomplishment through what may seem light and trivial, but something so important in this world in need of love.

OCTOBER 7TH IN LISBON

On October 7, a group of sympathizers and Raelians gathered in Lisbon around Marco Bruno and David Uzal, who happened to be here for the event. After a fraternal lunch, we went to a park and near a “river” to meditate. Five people did their transmission. (Pictured with Marco and David). Four of them came through the Internet and online follow up.

A wind of revolution is blowing over Portugal which is without a doubt helping the diffusion. We will benefit from it during a great action for the Embassy to be coming soon.

ROME, NATIONAL ASSEMBLY OF ATHEISTS

Saturday, June 25th, at the Cavour Congress Hall in Rome, the International Raelian Movement, spoke at the first National Assembly of Atheist Democracy, the newly formed political party that places among its first targets to achieve a real Italian secular State. The Atheist Democracy party is the first party in Europe to propose the idea of a free State from religious interference, while respecting all religions.”Atheist Democracy respects the religious feelings of all - said Carla Corsetti, secretary of the party - but religion must be lived as a private matter, respecting the freedom of all.”

On behalf of the Raelian Movement, spoke Raffaella Lonigro. Raffaella is a wonderful Raelian and a brilliant lawyer from the Marche region, to which our participation on this event is due, as the result of contacts and exchanges of views with the leaders of Atheist Democracy. During her speech, she raised the idea, proposed in a loud voice from the Raelian Movement in 2004, to organize a petition, addressed to the Italian population, to hold a referendum calling for the return of Vatican territory to Italy, that the fascist government illegally gave to the Catholic Church, in an undemocratic manner and without popular support, and the cancellation of the Lateran Treaties of 1929 signed by Mussolini, Italian head of State at the time, and representatives of the Vatican.

She also underlined the points of greatest interest in the political program: Secularism of the Italian State, abolition of the hour of religion which should be replaced with history of religions, importance of apostasy, abolition of religious symbols in public spaces, removal of public funding to the Catholic Church, destination of eight per thousand to scientific research.

“Rael has always said, and recently reiterated in a speech, that no individual should adhere to a religion before they have reached the age of understanding, typically around 14 y.o. - said Raffaella Lonigro - because such an important and formative choice for one’s own life should be

done in complete awareness. “

In the room there were also many Raelians, some of whom came from other regions in order to attend the event. Among them, the head of Lazio region, Roberta Pucci, who at the end of the Assembly has stopped to speak personally with Carla Corsetti for an exchange of views on the role of women in society.

Roberta underlined: Carla Corsetti is the first female leader in founding a political party in Italy, and added, repeating the words of Corsetti, that “ to change a society that has always been traditionally male-dominated is the task of us women, we need to spread our feminine qualities if we want a better world. “

NETHERLAND, 7TH OCTOBER 66 A.H.

On this special day, the Dutch Team celebrated the second meeting of our Beloved Maitreya Raël with the Elohim in Berchem, Antwerp. We were about 25 and had one transmission of the cellular plan.

It was such a wonderful day, with many beautiful people, each with his or her own color. We had the privilege to welcome Uriël spokesperson for Kama, Kimbangu, National Guide of France and so many other beautiful people. When we are together, we feel the love, the happiness, we feel the connection in us, around us and between the Maitreya and us and the Elohim and us.

MISSION IN MOSCOW !

It is difficult to translate in just a few lines, the emotion, the joy felt and the happiness to be in the action, the sharing the laughter, the fun. There are so many stories that can be lived in one week

of intense diffusion of the Messages!!!

It started on the plane as we boarded in Geneva, the pilote threatened to throw us off the plane because of our symbol:-)!

When we arrived in Moscow with Bishop Guide, Philippe Chabloz, while passing flyers in the streets, the subway, going by the Radio Station, we had the pleasure of imagining that we were like a serum that penetrated inside the veins and the arteries of the big city, the serum of truth that spreads to heal this great body: humanity!

Numerous anti-bodies with prestigious names such as Philippe Chabloz, Allan Tschopp, Vitorio Vegni, Sakina Sayad, Thierry Debray, Lucie Barathieu, Pierre Perroud, Jean-Jacques Benyoucef, Claude Faurite, Carmen and Gabriel Barra or Eric Berthanier who took from their vacation time and their budget to be among the pioneers of the diffusion of the Messages in Moscow with a special mention of Kristof Lebigre who was extraordinary during this stay!

The beautiful team was composed of diverse and complementary personalities (the exchanges were enriching and a good training :-)) Brothers and sisters from Moscow joined the team. We were warmly welcomed by Tatyana and Serguei. There was also Olga whose devotion was like no other and without whom none of this would have been possible; brilliant Daria and Dimitri with his artistic craziness!

As far as the numbers are concerned, about 2,000 posters were placed in the streets and 20,000 flyers handed out; It was an interesting exercise to be in an unconscious crowd and to be noticed by our charm, our smiles, our love! In our minds, we had the sentence of the prayer: "ELOHIM, I love as my brothers all human beings and I try to bring them happiness"...

40 of them responded and joined us for the conference; about 20 books were sold during the week. Olga and Dimitri gave a 50 minute interview live on a National radio station and a National TV station to present the Embassy. There were also some web magazine who published our request to the highest Russian Authorities for a land on which to build the Embassy. Since the beginning, more than 81,000 books have been downloaded and in the last month, 50 people are interested in the Messages after having downloaded at least 2 books. Long live the internet!

On October 7, 7 people did their transmissions and a dozen of sympathizers have joined us as well. It is very touching to see how powerful the Messages are when we see that Olga's sister travelled 24 hours on the train on Oct. 6 to come and do her transmission and she left the next day right after her transmission for another 24 hour plan ride back home. The Message of the Elohim is so strong, when it vibrates inside us, it brings us together, it makes us move...

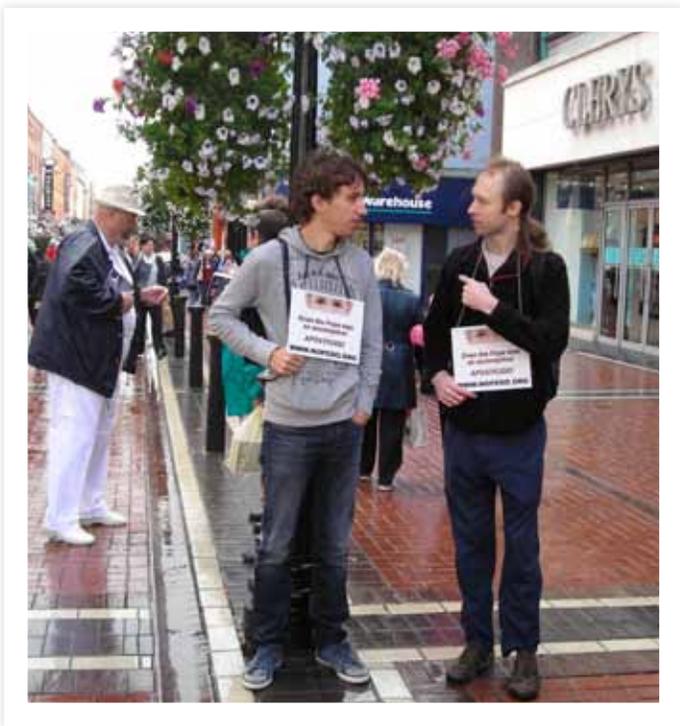

Thank you Maitreya for having transmitted it to us and thank You dear Fathers for the wonderful life we are living, We are privileged in this life!

NOPEDO DEMONSTRATION IN DUBLIN

On August 27th & 28th

We had rain, wind and some sunshine in Dublin on Saturday 27th as we took part in the first ever Nopedo demonstration in Ireland. Irish Raelians Moya Henderson and Ray Whelan were joined by Raelians from France and Belgium led by Jean Regolle, they were Jean-Jacques Benyoucef, Ricardo Cunill, Mahel Mani-Vangelis and Françoise Tallia (Yale) on the main streets of Dublin.

Jean, Yael, Mahel and Ray

Many people stopped to read the Nopedo poster, some chatted for a while as we informed them of our action and about the Raelian Movement. A few who were abused by priests and nuns stopped to tell us their story. Most people supported our cause but didn't wish to go any further than that. Overall we were very well received.

A passer-by invited us to support a demonstration the following day outside the Pro-cathedral in the centre of Dublin while Sunday masses were being celebrated. It was organised by a group calling themselves ACCAI (Abused Catholic Children of Ireland). They were protesting against the continuing cover-ups of child sex abuse in Ireland as they await the publication of a report on the handling of

clerical child sex abuse allegations in the diocese of Raphoe which they believe will be another cover-up by the catholic church as the Bishop of Raphoe Philip Boyce said the report was “inaccurate and misleading and not in the public interest”. The report is due for publication in the next few weeks.

We joined this protest group on Sunday with our Nopedo banners and were welcomed. One woman told us that she downloaded a Nopedo Apostacy Form from the internet some months ago, completed it and sent it to the church. She received no reply. This upset her as she feels the church won't allow her to leave.

They were delighted with our support on Sunday and asked us for our continued support, which we will of course give in whatever way we can.

The one day Nopedo demonstration turned out to be a two day event. The Irish Raelian Movement are very grateful to those who travelled from the continent. Raelians working together in support of each other promoting the Nopedo cause was a successful event in Dublin.

NORTH AMERICA

US, LEGAL SUCCESS

After 5 years, a US Federal Court finally gave the US Raelian Movement, a default Judgment against Abdullah Hashem. For the record, Hashem was this student in filmmaking who asked us to report about our Happiness Academy and spent the full week with us. Back to his university he pretended to have infiltrated us and spread all kinds of rumors about being sexually harassed and other similar lies.

The US Federal Court has ruled, basically, that all the rumors spread about us are just that, rumors and not true.:

- The Filmmakers Lied About the Raelian Movement
- Ordered to Return Film Footage
- Conspiracy to blackmail took bizarre twists which unraveled in a Sacramento Federal Court

...and more... A brilliant success of the US Raelian Movement and a personal one for Ricky, the Continental Guide, who never gave up!

IN MONTREAL : THE RAE LIANS SUPPORT OCCUPY

In Montreal, the Occupy movement set up camp at a symbolic location : Victoria Square, the city's financial district. In support of this movement, Michel and Jocelyn Chabot, Raelian Guides, decided to show our support by going on location Saturday, October 29, 2011.

For the Raelians, these movements of world revolution bear hope and should go even further in their demands, notably with the promotion of Paradism, a new concept of social organization and the solution to the world's problem (www.paradism.org). This action is part of the continuity of events explained by Maitreya Rael, the founder and spiritual leader of the Raelian Movement, who has been predicting the fall of capitalism for a long time.

The Raelians support these movements around the world and also wish to inform people that another organization is possible, as opposed to a system based on competition and money. The current system generates a lot of suffering. How can one go beyond this point without aggressiveness or violence?

On this point, the two Raelian guides from Montreal who beared the values of a totally pacifist philosophy, had much to do in the face of critics influenced by the vile discourse against religious minorities and the rumors conveyed by the French media.

Michel and Jocelyn Chabot commented on the events of the day.

“The poster we carried to inform about Paradism, which we had just put up a few hours earlier, was removed by people who were there and who defined themselves as anarchists. They threatened to start a fight. It took all our determination and our calm, as well as the intervention of mediators, for a dialogue to begin with the leaders of Occupy.

In the early afternoon, sixty warmly dressed Raelians went to Victoria Square to participate in a demonstration. The atmosphere was feverish when a Raelian passed in front of the demonstrators with his car. The hostile reactions totally disappeared once the demonstration started and after we gave explanations of the true meaning of the Raelian symbol (www.proswastika.org).”

About 2,000 people attended the peaceful demonstration.

The people of Occupy Montreal, outraged against the Raelians? A few explanations and the magnitude of the issue helped overcome the prejudices.

Raelian Bishop Guide Daniel Chabot, who was present during the demonstration, gave an interview on LCN (one of Montreal's most popular media), explaining why the Raelians support Occupy. "This adventure made us grow" concluded Orev Rhodet, Raelian Guide, who also participated in the demonstration. "Once again, it was Maitreya Rael who gave us the answer: promote Paradism and bring love everywhere on the planet."

SEMINAR IN MEXICO: "THE BEST EXPERIENCE OF MY LIFE"

By: RikE.T. – Raelian New Comer from Mexico

The daring of going off my own limits was great; the setbacks that I had become obstacles resolved with love, so this allowed me to participate in the Seminar full-time and at the end the experience was the most hyper-macro-mega-brilliant that I have lived. I did not do much, just chose to be happy.

This is how began the most wonderful week of my life: by giving my love and my intentions in the infinite love of the teachings of the Elohim given to his son, my beloved Prophet Raël, every detail of them were coming into me as if I was being designed for that.

While I keep writing these lines, a smile is still drawn inside of me and in my face, the experience was extraordinary because I made a philosophical auto-diagnosis that helped me to be in harmony with my small infinite, with these exercises I was noting the changes in me by integrating with my brothers, the power of love can do it all. The emotion that I experienced was of great love for all the creation, I was feeling the love vibrations of each of my brothers, and it was like re-integrating me to a nucleus from which I had been separated. The power of being myself to the maximum, with no fears to anything was incredible. I kept noting how the colors were brighter with the pass of the days, from each color were emerging like poems and texts. I felt more connected to the Elohim at every moment, and with everyone's love I felt physically and emotionally strengthened; it's cool, at moments of reflections I reordered my ideas so the harmful thoughts kept relaxed.

I felt like a child that can run naked, with no masks and no fear of being criticized. My consciousness was being elevated as my senses were being awakened, the atmosphere among all revitalized more my consciousness and there was an infinite connection with my beloved Prophet, with my brother's cells and the Elohim. Crystal tears of happiness rolled down my cheeks by realizing that I never was alone, it's wonderful to be another particle of this great whole.

The pleasure of a total liberty and of a revolutionary thinking is comfortable, since the best gift of

the Elohim is the “free will” so I can choose what I like and what I do not like. Of course, this was not easy, after being in an infected world, and even if I wanted to be different as I really am, there were obstacles even from my own brain and my own thoughts that caused me some emotional distress, but when I encountered the truth I realized is the best that had happened to me, because this was in concordance with all my ideas. Living this truth is still more exciting, an infinite joy and happiness that can't stop.

I take this opportunity to thank my two beautiful little Angels Bort and Cyn, and my Guides Benny and Mary; and to send much love to all.

I love you Raël, you are incredible, when I saw you on cam there was this intense heat going on through all my body, and then my smile could not stop from the emotive words you shared with us my beloved Prophet.

TESTIMONY: “MY EXPERIENCE AT THE HAPPINESS ACADEMY 65AAH”

By Areli Peralta – Raelian New Comer from Mexico

First of all a big thank you to Raël, our beautiful Maitreya for his existence, for sharing his teachings with the Guides and for them at the same time, sharing these teachings with us, Raël, you are our beloved Prophet and I Love you Infinitely and Eternally.

Despite the rubbish that one gathers and preserves, like the damage created by the planetary contamination of years of obscurantism, mysticism and bad education, I decided to put a stop to them and accept the teachings of Raël like a powerful weapon of combat against the aforementioned, since it is incredible the way in which one can relate and adhere to them.

Knowing oneself, understanding our organism, especially our mind, our brain, is wonderful since it lets us open the door to self love, happiness and joy, fundamental things for a healthy and prosperous life.

For me the Seminar is something unique, full of love, joy, fraternity, friendship, laughter, education, intellectual progress and above all, it is the ideal place to learn how to elevate our consciousness and with this reinforce the ideals and values that are of great help when we get back with the rest of the world.

Something Marvelous that happened to me at the personal level is that there are teachings that seem so simple, which stay attached to one like strong glue and suddenly one realizes that we are putting them into practice without almost even noticing them, it is like if they were subliminal messages of love for oneself.

I feel so full of love that I cry as I write this, there is a great change in myself, I am full of beautiful thoughts, wanting to run all over the world and infinity to share how I feel with everyone else.

It is such an excellent experience that I would not change it for anything, I am sure I will come back each year and enjoy of such a great pleasure that you can only find at the Happiness Academy.

Infinite thanks to those who organized and made possible this wonderful dream called Happiness Academy. Thanks also to all our sisters and brothers who without their participation, it wouldn't have been the same because sharing magical days with all of you is incomparable.

I Love you Infinitely and Eternally through all the length and width of the Universe.

Your sister who loves you with her heart

DIFFUSION IN MEXICO, NOVEMBER 66

In Mexico City on November 19 and 20, 2011, took place the "1st International Meeting of Ancient Traditional Cultures" involving Chile, Bolivia, Uruguay, Argentina, Honduras, Guatemala, India, USA and all Hoppis Ethnic groups in Mexico (Maya, Huichol, Nahuatl, Otomi Quechuas, etc.). The Raelian Movement was invited to participate with the theme "The Origin of Life".

On Sunday November 20, with much excitement Aida and Carlos Damascus (Raelians) were present to the event with leaflets and flyers. Then later, we welcomed our National Guide Maricarmen accompanied by Guide Frank Caballero (Mexico City) and Benny Reyes (Puebla) and also Cynthia Bella, as well as our brothers Rafael Raelians German, Nico, Peter and Ruben Campos.

The beautiful blue skies, radiant sunshine and vast green areas of this beautiful place, was the perfect setting to disseminate the messages and talk about our wonderful philosophy. At 14:30. we were given 20-min., enough time for a magical moment to pass the video talking about the message and let Frank (Mexico city Guide) talk about our philosophy based on consciousness and love, accepted with an incredible interest by the participants and people in general who asked us more information to download the books.

Later we met with leaders of other cultures to whom we gave away the book to invite them to a dialogue, mentioning that we carried the symbol that was

the symbol of Quetzalcoatl or Venus Mendocino, a very ancient symbol to which they have much respect.

In another area we had a booth with Aida and Rafa Aleman with books and pamphlets, who gave information of the page for downloading the books to all interested people.

On this place was also TV Azteca and our responsible for PR Ruben Campos and Nico came to talk with the station staff who informed us that soon we will do an interview, saying they were very happy to contact the Raelians.

The next day we came to the site to continue to spread and met more leaders who expressed us their desire to know more of the existence of the Elohim, Rael and the Raelians and the great mission that we have to save humanity.

The time of the closing ceremony was very exciting when they invited the Guide of the Raelian Movement for Mexico City to give a message of Peace, Love and Brotherhood. Guide Frank Caballero spoke of "We Are One" and then they came to us to express their love with tears of great joy to meet him, in an infinite harmony.

Two fantastic days of diffusion, which bring us closer to the building of the Embassy.

ThankyouBelovedElohim,BelovedProphet,Thanksforlettingusbepartofthisextraordinarymission!

WHAT A MEMORABLE FIRST RAELIAN CELEBRATION IN ECUADOR !

We entered the Raelian new year with 21 people present at the celebration, three transmissions of the cellular plan and a gay marriage ! What more could we ask for, after spending less than a year in Ecuador, after a few months of learning the Spanish language, we succeeded in creating a solid, smooth and well connected team.

We began this New Year's celebration with a wonderful piece for violin played by a new 13 year old Raelian named Adrianna. Youth was among us, also with the presence of Vincent, 14, who took perfect care of the TCP protocol. Our beloved National Guide Joseph Kollar, gave us the honor to welcome Ivan, Sebastian and Carlos into our big Raelian family. These three new Raelians were impatiently looking forward to this celebration. We could see the emotion of joy on their faces.

The celebration continued with a hidden talent, our gracious Stella Desgagné, who offered us

a song acapella of “Somewhere over the rainbow”. Later on, our dear guide Steve Lebeuf gave us a fascinating presentation about “our religion is science”. We finally ended the day with a video of Maitreya Rael “We Are One” and with a piece for violin and piano by Andrian and his daughter Adrianna ! We experienced so much emotion on this Raelian New Year’s day 66 A.H. in Ecuador !

SPREADING THE RAE LIAN MESSAGE AND ARAMIS AT THE HOMOSEXUAL MOVEMENT OF LIMA

On Saturday August 13th 66AH, the Peruvian Raelian Movement gave a conference titled “Homosexuality and Raelian Movement -Homosexuality was genetically designed by our extraterrestrial creators” at the Homosexual Movement of Lima. For 3 hours our team of 4 Raelians (Marco our National Guide, Dago, Erich and Lili) delivered the message pointing out the importance of how science can explain homosexuality and how our Prophet was the first to say that Homosexuality was of genetic origin. Even though there were some technical problems that delayed our speech, most of the 22 gay attendees stayed until 11:30pm when the conference was over.

There were many interesting questions and people pointed out that we were the first religion to accept homosexuality and that it was interesting that we delivered a rational message backed up by science. The result of this diffusion was amazing as we have been invited again to give another conference on September 17th, asked to give an interview at the internet program “gay friendly”, put into contact with the lesbian community for tentative conferences, and have reached many people through the official web page of the Homosexual Movement and through social networks of their members, most notably, the leader of the Homosexual Movement of Lima, who promoted us within his 2000 plus friends list which includes people from the media. Thank you dear Pierre Paul for your wonderful support towards us and for your fantastic planetary leadership of ARAMIS and, for you our dear Maitreya, for awakening in us the desire to spread this Message of Love to all our colorful differences.

We love you all.

AUSTRALIA

DRAG QUEEN CHRIST ART STIR THE PASSIONS.

An artwork by artist Luke Roberts, who is a Level 4 Guide in Oceania, has been causing a sensation in Australia. Luke's triptych *Three figures at the bases of crucifixions* has been selected for entry in the Blake Prize for religious art. The Blake has two prizes that challenge artists and poets to investigate ideas and issues surrounding spiritual thought and religion in contemporary art and literature.

The initial selection of Luke's work has caused an uproar and anger amongst some Christians, who see it as a degradation of the image of Christ. Headlines include *Uproar over religious artwork* and *Christians angry over drag Christ art*.

Luke says, "They are missing the point. The work is about Christ Consciousness, that higher mindedness of enlightenment, which is a path open to anyone regardless of his or her religious tradition.

"The six figures in the artwork represent members of minority groups in real life. A gay man is the central figure being paid respect by a lesbian, with a gay Maori youth paying silent tribute to an intersex woman on the left and an aboriginal man on the right supported by an indigenous bride.

"In placing the three main figures on plinths I'm indicating their journey to an elevated consciousness. I'm presenting them in a heroic manner to show their triumph over adversity and at the

same time underlining the suffering they've incurred as members of sexual and racial minorities.”

The central Christ-like figure is played by Tobin Saunders, a well known gender illusionist. His alter-ego Vanessa Wagner, has appeared on Celebrity Big Brother in Australia and also in advertisements for Telstra, Australia's main telecommunication body.

Other figures include fellow Raelian, musician and champion of intersex rights Jandy Rainbow (aka Jezebel Decibel) and Richard Bell, a famous aboriginal artist, who caused a sensation himself this year in judging a major art prize by flipping a coin.

We will keep you posted on further developments with the prize and the results of the official announcement on September 15th. We wish Luke all the best.
