Raelian Movement Newsletter

April 18, 66aH

IN THIS ISSUE:

MATREYA'S WORDS

- 2 If my tears were food
- 4 When serious, we betray the Elohim
- 6 In one action to protect life on earth there is more love for the Elohim than in one million prayers
- 7 1st Sunday of April, to the Okinawa team:
- 8 To the participants of the Las Vegas HA
- 10 I am the happiest in the world
- 11 Rain meditation
- 12 Is Paradism a Utopia?
- 12 About the Quran

NEWS AND VIEWS

- 13 Arms Industries should be wordialized
- 13 A memorial in Fukushima with radio active debris
- 13 Rael in support of Brics Union
- 14 Two new Honorary Guides

FIRST SUNDAY OF APRIL CELEBRATION

- 14 Mumbai, India
- 15 Celebration Of Life In South Africa
- 16 Brazil
- 16 Ivory Coast, Traditional Chiefs
- 17 Nigeria - First Lagos CPT after six years

PROTEST AGAINST UK GOVERNMENT CONSPIRACY TO COVER UP PEDOPHILIA

- 18 in Korea
- 18 In the US
- 19 In Mexico
- 19 In Australia

OTHER DIFFUSIONS

- 21 Congo, on February 17thé
- 21 Grand diffusion in Veracruz, Mexico
- 22 Anti war protest in Las vegas

CLITORAID

- 24 Clitoraid announces 5 more Restorative surgeries performed in San Francisco

The Asian Happiness Academy starts on April 27th in Okinawa, Japan... Hundreds are expected from all over the world, do not miss this unique event!! See you there soon for an exceptional week with Maitreya Rael...

If my tears were food for starving children, I would cry everyday, but they are not, so I laugh.

RAEL, March 66 aH

MAITREYA'S WORDS

IF MY TEARS WERE FOOD FOR STARVING CHILDREN, I WOULD CRY EVERYDAY, BUT THEY ARE NOT, SO I LAUGH.

March 4th

Remember to always laugh, have fun and make jokes.

When the Elohim were creating life on earth, they were making a lot of jokes.

They are never serious, always laughing. They made jokes in their creation, the most beautiful jokes are on the beach, here, the crabs. They are one of my favorite animals. Instead of walking straight like all other creations, they walk on their side. It's a joke.

Can you imagine if we were all like them, walking sideways?

So remember to always have fun, to never be serious. When you are serious, you betray your genetic code. Being serious is so stupid.

When you were a little baby, you were laughing. Every baby laughs, for nothing, they just look at their finger and laugh. They just look at anything, a butterfly, a bee, anything and laugh. But then they become an adult, educated and very serious. That's terrible.

And the older they get, the more serious they become.

And one day they will die with a serious face.

That's terrible.

Remember to laugh more and more.

If, as a baby, you had received a good education, you should laugh more and more. At 20 more than at 10. At 50 more than at 20. At 70 more than at 50.

And the day you die should be the day you laugh the most. Then you wake up on the Elohim's planet laughing for eternity.

An eternal laughter, that's the best.

Because having an eternal life being serious would be very stupid.

Can you imagine waking up on the Elohim's planet and feeling, 'Ok now I will be eternally serious' ?

Totally stupid.

You wake up on the Elohim's planet and now it's time to laugh forever.

All Buddhas were laughing, all great teachers were laughing.

So remember, a high spiritual life is not in seriousness.

A high spiritual life is laughing, having fun, and playing.

And be very afraid of this contagious disease which is very dangerous: seriousness.

You look at TV, see the politicians, they are always serious, all the people, the teachers are serious.

And what does-it make? Wars, Fukushima, this is all made by very serious people. But when we laugh, we create peace, harmony and love.

So please, laugh. Right now. And more. And more.

That's how the Elohim love you; when you laugh.

Laughing is the best prayer for Elohim.

Stupid Christians make serious prayers. Can you imagine if you are gods or the Elohim, and you have 7 billion human beings looking at you saying "help me, help me". That's terrible.

You don't want to look at them anymore.

If we do that, the Elohim want to look at another planet. But if we laugh, if we send to the Elohim our happiness to be alive ; "Thank you Elohim for the pleasure to be alive", then they feel happy.

What kind of god could be happy to see every human being sad?

That would be a sadistic god : "I create you to suffer and have pain", what kind of god is that ?

No, the Elohim created us to enjoy, to laugh, to have fun. So, we must do it.

First, it makes the Elohim happy and when you make your prayer a laughter, then it makes you happy also and it makes other people happy around you.

So, laugh for the Elohim, for you and for the others.

Let's make our life an eternal laughter. It doesn't mean we don't have ups and downs in our lives, but when you are a little down, or depressed or something, laugh also, because it's the best medicine.

When you have a disease, suddenly a doctor tells you "you have cancer, you have 6 months to live", 6 months crying? That would be stupid.

If I have 6 months to live, I will laugh every day. Then, it's beautiful.

If you have a car accident, one arm cut off, you may cry forever, or say "Ok I have one left".

Don't laugh only for good things. Most people laugh for good things. They have a new girlfriend, they laugh. They win 1 million at lotto, they laugh. But then they lose their money, they cry. They lose their girlfriend, they cry. Laughing when something is wrong is what makes you better than everybody else.

Your girlfriend or boyfriend leaves you? That's the good time to laugh.

You lose all your money? Perfect time to laugh because if you cry, it doesn't make the money come back and it makes you so depressed that you cannot make more money.

So remember, laughing when something is wrong is more important than when everything is right.

You want to become a Buddha?

Don't become, you already are a Buddha. You want to stay a Buddha? Then laugh when things are wrong.

During the huge earthquake last year, we were with James and Sophie at Tako and we had difficulty to stay up like that, it was moving so much. We were not afraid, not afraid at all: just laughing. We were laughing like crazy.

I see videos of people during that earthquake, people screaming : “Oh my god, help me, no”, so stupid.

Laughing! We were sure the house would fall and we were laughing.

What a great experience. It was fantastic. So when everything makes you laugh, then your life is beautiful.

Remember, laughing when everything is ok, yes, it’s ok, but most importantly, focus your brain on laughing when things are wrong.

Everything wrong must make you laugh. Even things that you have to change, for example, we have to change the world, make it a better place, we have to destroy wars, we have to give food to all starving children in Africa, but we cannot do it if we are serious, by laughing we have more energy to do it.

So serious people think “why you are laughing, people are dying because they have no food, how can you laugh?”. Stupid people believe that because people are starving to death we must cry “oh these poor children”. That doesn’t give them food.

If my tears were food for starving children, I would cry everyday, but it’s not, so I laugh. I know right now, one child is dying every 10 seconds in Africa because he has no food, at the same time American armies are wasting billions of dollars for weapons.

So I laugh. Because I want to have energy, the positive energy of laughter, to change the world.

By being serious and angry you waste energy.

You make everybody negative and you cannot change anything, only laughing gives you the good energy to change the world.

Like all Buddhas were laughing.

Remember, be a Buddha, an instant Buddha, like instant coffee, by laughing.

There is much more intelligence in one sincere laughter than in one hour speech.

So please laugh.

EVERY TIME WE ARE SERIOUS, WE BETRAY THE ELOHIM

March 11th

The contact with the Elohim at 11am must never be serious, it must always be happy and crazy. To be Raelian is to not be serious.

The Elohim never intended to come on earth and create a serious population.

Can you imagine that happening?

Elohim saying : “we will create a population on a planet, they will be always serious and sad and depressed”. You love to have pets, little cats, dogs. Do you love to have your pets very serious?

We love our dogs or cats playing, running, having fun.

That’s what we love. Why do we want to have pets? To see them playing all day, running and being happy.

Nobody will buy a dog or cat if they know the dog or the cat is sad.

When you think “I want to buy a little cat or a little dog”, you imagine it running, barking, meowing.

Imagine that you wish to have a baby one day.

Don't do it, there are too many children on earth, but if you imagine "I want to have a child", would you imagine "I will have a baby and this baby will be always serious".

Nobody wants a baby like that. What kind of baby do you want? You want a baby that always laughs. That's the baby we want to have. Nobody wants to create a sad baby, a serious baby, nobody wants that.

It is the same for the Elohim.

We are their babies, we are their children and when they created us, they wanted to have happy, laughing children, not serious ones.

Every time we are serious, we betray the Elohim.

Laugh, be crazy like our friend, as crazy as possible. Live everyday as if it is the last day of your life. That is one of the best secret to have a happy life.

One more time, live everyday as if it is the last day of your life.

For me, today, if it is the last day of my life, I want to do what I do now; being with you, giving you love and happiness, making you enjoying every second of your life, as if it is the last one, and then we all sing like children, dance like children, enjoy every second and be as crazy as possible. And you know, we have to think about our brain balance.

The more serious you try to be, the more in danger your mental health is.

You know, you are more at risk of becoming crazy, really crazy, mentally sick, if you are very serious.

But if you try to be crazy, then you will never become really crazy.

The paradox of craziness is the same as the paradox of sleeping. Some people try to sleep, they cannot.

But they watch the TV, they watch a movie, they are very tired and fall asleep.

They don't want to sleep, they want to watch the movie, but they fall asleep.

You do a meditation, you follow Maitreya's meditation, 5 minutes later you are snoring, but you don't want to sleep. That is why sleeping is a paradox.

When you want, you cannot, when you don't want you fall asleep.

Children are the same, when they play they never want to go to bed. But they play and they fall asleep.

Everything is a paradox. Craziness is also a paradox.

If you are serious, you can very easily become mentally sick.

But if you are playing like crazy, like our friend, you will never become crazy. And it's very easy to understand : when we are serious, our whole body feels bad. It's not working properly.

A lot of bad hormones are flowing inside. When we laugh, when we play like crazy children, everything flows perfectly inside.

Some hospitals use laughing as a therapy to cure cancer and it works. All day long, people are watching funny programs, laughing programs on TV, and their health is getting better and better.

So remember, if you want to stay physically healthy, mentally healthy, try to be as crazy as you can. You will never become crazy, if you try to look crazy. If you try to play like crazy, to look crazy, you will never become crazy. But if you try to look not crazy, you will become crazy.

So enjoy, laugh, love. Have a beautiful day!

IN ONE ACTION TO PROTECT LIFE ON EARTH THERE IS MORE LOVE FOR THE ELOHIM THAN IN ONE MILLION

PRAYERS

March 25th

I love Okinawa and the Elohim love Okinawa.

It would be a great idea to build the embassy here, yes. I hope that will happen.

Okinawa, forever will be a holy place because I am here.

And I want you to really realize how important your actions against the nuclear problems are.

Some people may think that it's just a detail, but it's not just a detail. For the first time in the history of humanity, humanity is destroying the creation of the Elohim.

The radiation, the chemical pollution, everything we do now is destroying everyday hundreds of species of animals and plants.

So by being active like you do now against the nuclear debris coming to Okinawa, you are protecting

the creation of the Elohim.

Never in the whole history of humanity did we have the power to destroy everyday hundreds of species of plants and animals.

I see Okinawa like the Garden of Eden, like the paradise where the Elohim created life at the beginning.

And it's incredible to imagine that human beings are destroying life.

When we look around us we can see the creation of the Elohim, in every plant, every flower, in this beautiful Okinawa spring. Every bird, every butterfly, what a beauty.

How can we destroy, kill, everyday, everyday, hundreds of species of animals and plants ?

So the Raelians should be very active to protect the creation of the Elohim.

Many organizations around the world try to protect the environment but they do it only because they love trees, flowers, everything.

They do it only for this reason.

But we are different, we love the Elohim, we love their creation, in every flower in every tree, in every butterfly, we see the Elohim. I never see a butterfly, when I look at a butterfly I see the creation of the Elohim.

Normal people see a butterfly. When I look at a butterfly I see a caterpillar.

When I see a caterpillar, I see an egg.

Because before there was an egg and the egg is the creation of the Elohim. When I see a big tree, I don't see a tree, I see a little seed.

The biggest tree on earth at the beginning was a little seed, the creation of the Elohim.

So everything we look around us, when I see a bird, I don't see a bird, I see an egg, because it was an egg at the beginning, the creation of the Elohim, with all the DNA information inside to create the final plant or animal.

When I see a human being like you, I don't see a human being, I see a baby, you were a baby, it's still inside you. There was an egg at the beginning, a spermatozoa and an ovule together making the egg, making you. The DNA, all your DNA information was inside to make you who you are.

So, many people around the world are very active to protect the environment, but we the Raelians we are the only ones who do it because it's connected to the Elohim. We are here to protect the creation of the Elohim, like in the Garden of Eden, there were people protecting the Garden of Eden, as it's written in the bible.

You, Raelians, you are the new guardians of the Garden of Eden.

All the organizations around the world protecting the environment don't have the spirituality of it. It's our mission to bring them the spirituality of this movement.

Every plant, every animal we destroy, what are we doing? We are destroying the work of the Elohim

For one butterfly we destroy, imagine how long the Elohim worked to create it? Imagine the Elohim working in a laboratory, finally making the most beautiful butterfly of Okinawa, they were so happy, so proud, thinking about us and the pleasure we would have one day to look at them.

When we destroy them, the Elohim are very sad, we destroy their work, like if you build a beautiful house and somebody comes and destroys it.

That's why I want you to feel in your heart, deeply, how important it is to protect the creation of the Elohim.

Praying to the Elohim is good, sending our love to them is good, but protecting their creation is much better.

When they look at us and they see many people saying "Elohim I love you" but around them, everything is destroyed, it's not real love.

So, Raelians, if you actively protect the earth, the creation of Elohim, they think this is much more respectful of them.

In one action towards protecting life on earth, there is more love for Elohim than in one prayer.

In one action to protect life on earth there is more love for the Elohim than in one million prayers.

So I'm very proud of you and I know you are very active and the Elohim really are happy to see that you try to protect their creation.

ON THE 1ST SUNDAY OF APRIL, TO THE RAE LIANS ASSEMBLED IN OKINAWA

On this beautiful day of celebration of the creation by the Elohim, I want to congratulate the great Okinawa team for their action against nuclear waste and specially Tony. I was so happy to see you in the newspaper.

Maybe Tony, you can become more famous than me in Okinawa and maybe you can start to be a politician, the first Raelian politician in Okinawa? Why not having the first Raelian congressman, that would be great.

And congratulations to all of you for helping and trying to protect this beautiful paradise from any danger.

Of all the places I have been on earth, Okinawa is one of the closest to the Elohim's planet.

You are lucky to live in paradise. Protect it.

And it's one of the places where we can see the creation of the Elohim. Enjoy it.

You are a part of it. We look at the butterfly and the flowers and we say "it's beautiful". But the birds and the butterflies look at you and say "what a beautiful creation" because we are one.

Enjoy this beautiful day and celebrate and enjoy life today.

Enjoy!

ON THE 1ST SUNDAY OF APRIL, TO THE PARTICIPANTS OF THE LAS VEGAS HAPPINESS ACADEMY

Today is, for me, the most beautiful day of the 4 holidays we have every year.

Of course December 13th is good because it was THE encounter.

Of course October 7th is good because it was a very good encounter.

Of course August 6th is good because it is the celebration of the happy new year but today for me is the best because today, in a way, should be also the beginning of our calendar.

We should also say "Happy New Year" today because everything started today on April 1st.

This is a day of celebration.

The word celebration is very important and it must be in your brain, constantly.

Not only today, but all the time and if you really got the most essential part of the teachings, provided to you by the Guides and specially Brigitte and Daniel, the happiness, your happiness is a celebration.

And there is no higher happiness than the celebration of the creation of the Elohim, of being alive, feeling infinity, feeling the beauty of plants, girls, boys, everything around you is a celebration. Don't look at things or beings, animals or humans around you, without having in mind this concept of celebration.

Then I look at a flower, I don't see the flower I see a seed which was created by Elohim at the beginning.

When I look at a huge tree, a sequoia, I see a little seed because in the beginning it was a little seed.

When I look at a bird, I don't see a bird, I see an egg.

This egg contains all the DNA, the beautiful creation of the Elohim.

Everything I see around, for me, is a celebration. Make every moment of your life, every second of your life, everything you do as a celebration of the greatness of the beauty of the Elohim's creation.

Everything you do, not only when you lie down to have a beautiful meditation, not only when you have the contact on Sunday morning with the Elohim, not only when you read the Messages or when you talk about the Messages, but,

When you go to the toilet, make it a celebration.

When you eat, when you drink, in everything you do, make it a celebration. When you eat, it's a celebration because what you eat is coming from the Elohim's creation.

When it goes inside you, make it a celebration.

When you taste the taste, when you smell the smell, make it a celebration.

When you digest it make it a celebration, when you go to the toilet make it a celebration also.

Because it goes back to the earth and your shit is a future flower, a future tree.

So everything you do is a celebration. We must have this celebration constantly in our minds, with humility and power.

Humility, because we are dust. We are this little dust, accumulated by the magic of the creation of the Elohim and at the same time it will go back to dust. So every second is a celebration of being alive, before going back to dust and after having been dust. We are alive now and we can celebrate.

What is the purpose of being alive? To celebrate the beauty and the power of our creators.

That's why every second, right now, when you go the toilet, when you pee, when you make shit, it's a celebration of the greatness of the Elohim, of the infinite wisdom of the Elohim, who created us to celebrate infinity. We are celebrating infinity, we are celebrating our connection with everything outside and inside.

We are one, we are one with everything. This celebration must be permanent.

A Raelian, a good Raelian, and I know you are all good Raelians, is in permanent celebration, all along his/her life; celebrating the fact that you were born, celebrating constantly, consciously, every second, and including celebrating our death, because our death will bring us somewhere else for the infinite happiness of celebration.

Right now, looking at you, the Elohim are celebrating. They are celebrating their beautiful creation, they are part of you, they love you.

So we must celebrate at the same time, together. They celebrate us, and we celebrate them and like that there is a unity in the infinity of the cosmos, of the permanent celebration. When the stars are looking at you, they are celebrating, that's why they are shining in the darkness.

A light is a celebration.

Darkness is necessary to see the light and darkness is necessary to celebrate and then we become stars ourselves, shining in the darkness of unconsciousness by becoming conscious.

I think the essential has been said.

I love you. I miss so much being with you, even if I am useless and I know all of you would like to take an airplane charter and come to the seminar which starts right here in Okinawa in less than one month.

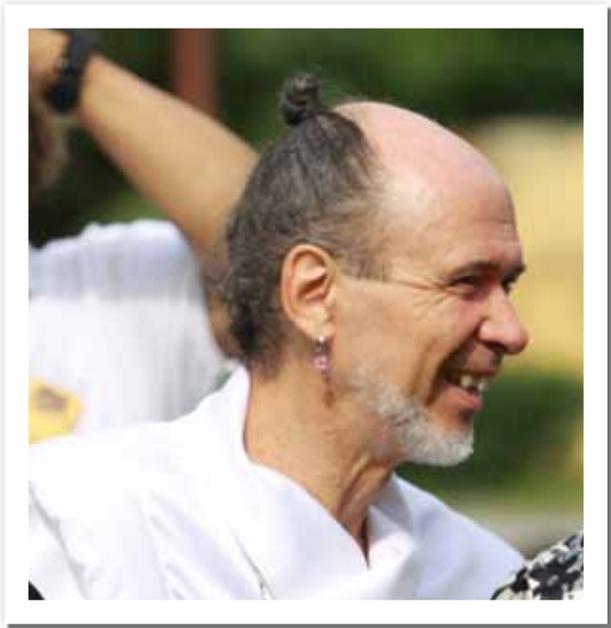

So my dream is that everybody in this room now would say "let's go, I take my ticket, I will go to the seminar in Okinawa" and I can have the pleasure to see you all very soon.

I send you a lot of love and I am so happy that the teachings, my teaching was given to you by all the guides, which is for me, one more time, the best time for me, when I feel that I can die tomorrow or after I speak now or after one minute and say: 'mission accomplished'.

Not only that, but **'mission impossible accomplished'**.

I AM THE HAPPIEST IN THE WORLD

The Maitreya is supposed to be the Buddha of happiness, so I must be the happiest but I cannot say I am the happiest because if I say "I am the happiest", I lack humility.

Can we lack humility when we say "I am the happiest in the world"? No!

It's not a lack of humility to say "I am the happiest in the world".

You cannot say "I am the strongest in the world", this is a lack of humility.

You cannot say "I am the richest in the world", this is a lack of humility.

But you can say "I am the happiest in the world", each one of you.

Being Raelian, knowing the Message, feeling the deep teachings of the Elohim, if that doesn't make you the happiest person in the world, you don't understand anything.

The number one goal of the Message of the Elohim is not intellectual, it is not to make you more intelligent, it is not to make you more powerful, it's to make you happier.

The Elohim created life on earth to create happy people.

When we are depressed or sad, we betray the Elohim.

So be happy not only for you but for other people around you and for the Elohim.

If you are not happy you don't make the Elohim happy. Breath, put a smile on your face and feel the happiness inside, deeply coming inside you and have enough happiness in you that other people looking at you become happy also. Being happy for yourself is good, but it's not enough.

Being happy just for you is a little bit selfish.

But being so happy that everybody looking at you, without saying anything, without one word, just looking at you, become happier, that's the ultimate goal.

Make your happiness make other people happier.

Be so shining of happiness that when you walk in the street, if you meet somebody who is a little bit sad, just by looking at you, they will start smiling.

Then, the happiness becomes love.

And that's what you have to focus on; to really be happy, to give love.

Do it, right now.

Then this wonderful place where we meet often will become full of the vibrations of happiness we spread.

Because your happiness not only influences other people, but it also influences the trees, the butterflies, everything around you.

The plants, the trees, are happy to feel your happiness.

The grass is alive, it feels your happiness.

Everything, the universe, the infinity feels your happiness.

And if you are happy, you also feel the happiness of the trees, the happiness of the grass, the happiness of the butterflies, the happiness of the universe.

So please, start right now.

I love you and I hope that my little smile makes you happier.

RAIN MEDITATION

On this beautiful day, there is a lot of rain.

We are often making the mistake to say "it's a beautiful day" only when it's a sunny day.

It's a mistake because when it's raining, it's beautiful also.

The sun is beautiful, but the rain is beautiful also.

With only the sun, there would be no life on earth.

The rain is life.

When you look at the rain, look at it as a meditation.

When I look at the rain, I don't see the rain, I see the clouds. When I look at the clouds, I don't see a cloud, I see the ocean, because the ocean evaporates and creates clouds.

When I look at the ocean, I don't see the ocean, I see the river, because the river makes the ocean.

When I look at the river, I see the rain.

We are in this cycle, more than 90 % of our body is made of water.

When you drink a glass of water, you drink the rain, the clouds, the ocean, everything.

And the water you drink which becomes this 90% of your body, has been drunk many times, an infinity of times by other people.

The water you drink was drunk before by an infinite number of people.

When you drink, after you go pee, it goes in the river, goes in the ocean, goes in the cloud, goes in the rain and you drink it again.

Maybe you drink today the water that I peed last year.

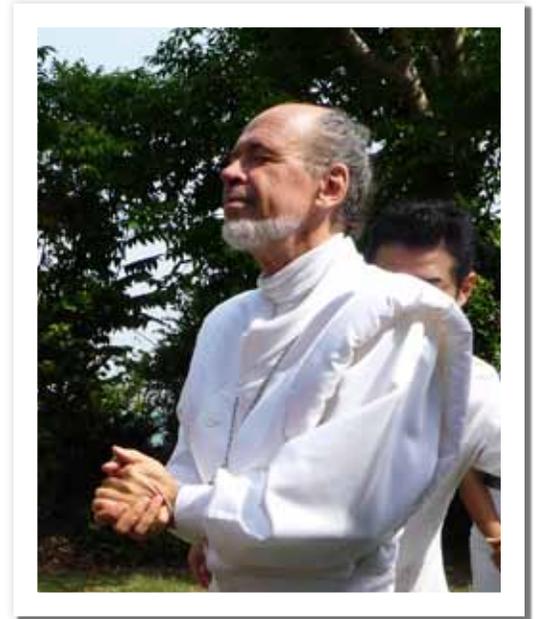

Some molecules of the water you drink now were drunk before by many other people.

When you drink a glass of water, you have molecules of water that were drunk before by Buddha, Jesus, Moses and all the prophets.

This infinite cycle of life, everything is transiting through our body, passing through our body.

The matter of our body is eternal.

The minerals have always existed, energy or mineral. The water has always existed.

So what is only us, is our consciousness. This is really us.

Not the water going through, not the mineral making our body, but our consciousness, and that's what we make grow everyday by beautiful meditations like the meditation of the rain.

So, don't look at the rain as something which is outside of you. The rain is a part of you and you are a part of the rain.

Don't look at the earth as something separated from you.

You are a part of the earth and the earth is a part of you, in an infinite cycle, and I wish you to look at everything with this feeling of oneness.

Not only the clouds and the earth, but also other people. Animals, plants, but especially people. Think about it again, in your body, some molecules come from my body and in my body some molecules come from your body.

We are one, that's why we must love, give so much love to other people, because inside them, there is a part of us, and inside us there is a part of them. Feel that, live it. It's not called a meditation, it's love.

To hug somebody else, you are hugging a part of yourself.

And I wish you a day full of this kind of love, where you feel that physically, really materially, we are one.

When you hate other people, you hate a part of yourself.

So that's why love is the only important thing.

I love you.

And remember also that we are part of the Elohim and the Elohim are a part of us.

IS PARADISM A UTOPIA?

Some people use the word "utopia" for ideas which are irrational or unrealistic. In this case the actual capitalist society where 1 % of people own 99 %, where millions are homeless while a few thousand people own many empty houses, where we spend billions of dollars everyday for weapons and wars, while thousands of children die of starvation every day is a real utopia and it's time to have a world revolution using a more rational and realistic system, like Paradism.

ABOUT THE QURAN

"No Prophet ever wrote any religious book for the simple reason that they were all illiterate. Moses, Jesus, Buddha and Muhammad simply didn't know how to write. They were just teaching verbally.

So their words were reported at the beginning as an oral tradition. And we all know what happens when sentences are passed from person to person: they are always more and more distorted. And the longer an oral tradition is passed the more it goes through modification. So much that even after passing a simple sentence through as little as 10 persons, it loses its original meaning.

Imagine what happens when it goes on for decades ...

Centuries after the Prophets died, their alleged teachings were "collected" in books, always betraying the original teachings. Because political powers were controlling the scholars and making sure that their powers and traditions were not altered by these writings. So all Buddhist books, Bibles Quran, etc contain only 10 % of the original teachings of the Prophets. That means that 90 % of their content was invented by men.

All Prophets were originally teaching peace, love, compassion and non-violence except in self-defense. And that includes the Quran, Muhammad having been the most betrayed Prophet of all.

NEWS AND VIEWS

ARMS INDUSTRIES SHOULD BE OWNED AND CONTROLLED BY A WORLD GOVERNMENT

While most industries are largely affected by the financial crises, the arms industry doesn't show any sign of problems. According to the Stockholm International Peace Research Institute (Sipri), it is more than \$400bn that have been spent in weapons and military services worldwide in 2010, representing a 60% increase since 2002. Maitreya Rael commented about this news saying that it is "the proof that weapons industries and their banking allies are responsible for the world problems".

"This is capitalism at its worse. All military industries and their profits should be "worldialized" which means "nationalized by a Humanity World Government. It is shocking that more and more people live in poverty while military industries shareholders are becoming richer and richer. Imagine all the improvements which could have been made in the world and how many starving children could have been saved if the trillions wasted in military equipment had been spent on science and education."

RAEL PROPOSES TO CREATE A MEMORIAL PYRAMID MOUNTAIN IN FUKUSHIMA WITH RADIO ACTIVE DEBRIS

After the Japanese Prime Minister's plea to have local government authorities across Japan to accept tons of debris from Fukushima for disposal, Maitreya Rael commented saying that it is a "very stupid idea to spread radioactive debris all over Japan"

While Prime Minister Noda calls on the spirit of the Japanese people to help one another in the aftermath of the disaster, Maitreya Rael said that spreading the contamination is a very bad idea. Instead he proposes to actually bury the Fukushima power plant under these million of tons of radio active debris and create an artificial mountain shaped like a pyramid covered with concrete, limiting the radioactivity to the Fukushima area.

"It would be much better to bring all debris close to the Fukushima nuclear plant in a zone which will be uninhabitable for a very very long time and build with it a mountain shaped like a pyramid, which will be a memorial for all the victims ." said Maitreya Rael.

RAEL IN SUPPORT OF BRICS UNION

The fourth annual gathering of the world's fastest-growing economic powers – Brazil, Russia, India, China and South Africa – also called the BRICS, was held in New Delhi at the end of March during which the representatives of these countries proposed the creation of a joint development bank and discussed a greater stock market co-operation. The World bank director shortly after acknowledged the new Bank.

According to officials, this new bank will allow the countries to pool resources for infrastructure improvements. An equity index derivative, shared by the stock exchanges of the five Brics nations, is expected to be launched also to facilitate cross-border stock-market investment.

Maitreya Rael commented on this new cooperation step saying that "this union is the only way to oppose and destroy Western imperialism."

"Their next move will be to create a new world currency, a move which will accelerate the destruction of the US dollar, just like Saddam Hussein and Muhamar Kaddhafi tried to create one, which triggered immediately the US led invasion and destruction that we know were led under false pretexts of non-existent weapons of mass destruction or so-called "humanitarian protection". But with now Brazil, Russia, India, China and South Africa united, they will not dare to do the same. Cowardly attacking weak small countries was a piece of cake but now that countries with nuclear powers like India and China are part of this union, they can't do anything except risking a nuclear world war which would see at least millions of immediate victims inside US cities, and which may be fatal for the whole of Humanity."

Together the BRICS states account for 43 per cent of the world's population and 40 per cent of global GDP.

Rael concluded: “The US should also realize that with its 313 million inhabitants, it is dwarfed by this new union which represents a staggering 3 billion population, 10 times more and almost a half of Humanity. It’s time for the Western world to start behaving with humility and not anymore with a colonialist and imperialist mind. If not, in a spectacular and rightful return of situation, they may well end up being colonized by their very ex-colonies...”

TWO NEW HONORARY GUIDES

Maitreya has awarded the title of Honorary Guides of Humanity to the Israeli couple, Ronny Edry and Michal Tamir for their action for peace.

Ronny and Michal started the campaign ‘We love You’ on Facebook and The Internet, basically telling the Iranian people that the people of Israel do not want to send bombs to Iran. Within 48hrs, Iranian people started to answer back, sending messages of love as well to the Israeli people.

Rael said that Ronny and Michal are the Jewish Ghandis and that they should start a political party for peace by non-violence.

You may see Ronny’s appeal by following this link:

FIRST SUNDAY OF APRIL CELEBRATION

MUMBAI, INDIA

I was sending messages to the people for days, informing them about our meeting in Mumbai. Some 18-20 people responded positively to my invitation, coming from different parts of India.

I was so happy to see how many people would be interested in coming and started to look for a place to meet, in a hotel meeting room.

As we came closer to the meeting, less and less people confirmed their coming. So I decided with Bharat Panchal, our guide of Mumbai, to organize the meeting in my place.

Finally we were 8 all together for our 1st April gathering, 3 of them were totally new.. and they did their transmission!!

Ivory coast studying in India, arrived at Mumbai on Saturday after a 17 hour trip from Bengalore! What a great pleasure to meet them! It was the first time we met physically but the connection was immediate.

On Sunday, one more person arrived from Bengalore, Dianne an American newcomer and Daubrey’s friend and we all met at my place with Bharat our guide of Mumbai, Rajeev (a newcomer), Ravikiran from Hyderabad, and Rajendra an enthusiastic man who has been looking for us for a long time and was so happy to finally meet us today.

We spent a few hours together meditating, watching videos and answering questions like “Did God create the Elohim? Are there some Hindu prophets? Why aren't they mentioned in the book...?”

At the time to prepare for transmissions, we decided to go to a park, outside, just on the opposite side of my street. When we got to the gate, it was closed, and someone told us they should open at 4pm.. We tried to figure out where we could go.. finally we found another entrance to the park, where the door was not locked. We entered and set up on a very nice place on the grass, just close to the sea. There was a cool refreshing air, a nice sunny day, not too hot.

Two guardians were there, but we could arrange to stay for 20 min. We were alone in that beautiful park, surrounded by nature, which can be difficult to find in a city like Mumbai!!

Three newcomers did their transmission and became Raelians: Dianne, Rajeev and Rajendra.

We were all so happy to see the Raelian family grow and feel connected together. We hugged each other and congratulate our new brothers and sister!

After that we went back to my place and watched two videos of the Raelian Happiness Academy in Asia and in Europe. They were all enthusiastic about the idea of attending one day the Raelian Happiness Academy!

At the end of our meeting, we all promised to stay connected through the Internet and try to meet up again soon!

With Love,

Milan, Guide-assistant in Mumbai (India)

CELEBRATION OF LIFE IN SOUTH AFRICA

Travelling in Southern Africa for nearly a month and having had the opportunities to meet Raelians in Lesotho and South Africa, people interested in the Raelian philosophy in Swaziland, Bostwana; it is amazing to see how this part of the world has been touched by the Messages of the Elohim thanks to the tremendous effort of Lamane (Level 5) and Gildas Mahouassa (National Guide of South Africa).

On a beautiful day, with a mild temperature not far from the wonderful mountains of Johannesburg, close to the wild life and the surrounding by the breathtaking national parks, under a heavenly skies, we celebrated the 1st Sunday of April in South Africa (Johannesburg) with the guidance of the National Guide, Gildas, it was such a beautiful feeling.

The beauty of the Raelians, the teachings of Maitreya, the celebration, the festive atmosphere and feeling the connection with all the Raelians around the globe and above all the welcoming of one of our brother Linton Phukubje (a young musician and music producer), who did his cellular code transmission.

We felt the unity of the group, about 15 Raelians made the trip to the gathering (not to forget that South Africa is twice bigger in land size than France and five times larger than the United Kingdom)

We could feel the Elohim, the connection with Maitreya once more and with an exceptional feeling of closeness.

Very soon we will invite you all to South Africa for more Raelian events (Raelian Week-ends and mini-seminars)

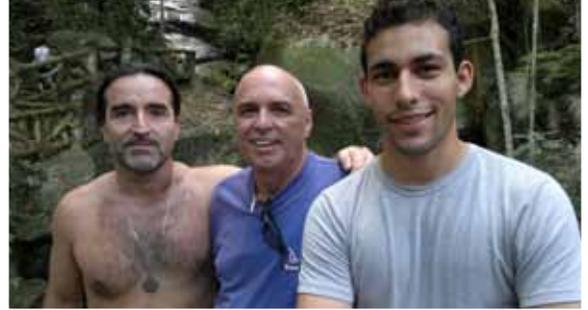

We love you all

Yoropo Bolou.

BRAZIL

Two transmissions in Brazil during the 1st Sunday of April: Cauby from Rio de Janeiro and Emanuel Ben Hur from Brasilia

BOUAFLE, IVORY COAST, WITH THE TRADITIONAL CHIEFS

In Ivory Coast, we celebrated the 1st Sunday of April in the city of Bouaflé, located about 4hrs drive from Abidjan. The celebration lasted two days.

We also took this opportunity to promote the coming Happiness Academy which will be held in Elohika, Burkina Faso, from the 13th to the 25th of August.

The meeting with the Traditional Chiefs of the region of Bouaflé started on Saturday morning.

As per our customs, the National Guide Yves Boni and his team who had arrived early on Friday, went to meet with the central Chief of the Anyans, Chief Bernard. The Anyan chiefs were there as well as the Gouro Allogènes, the Yôwrè, the Baoulé allogènes, the Dan, the Agni and the representatives of the CEDEAO.

After the usual congratulations, a toast was given by the representative of the land chiefs of the city.

The theme of the meeting was : «Traditional Chiefhood and Integration of the peoples for a new Africa». It was the privilege of our National Guide to give a conference on that subject that was followed by a video of Maitreya Rael about the '50 years of independence of Africa'.

Rael's message was received with enthusiasm by all the crowned heads. Chief Bernard, President of the association of the Traditional Chiefs of the Marahoue, took a pledge in his name and on behalf of all the Regional Chiefs, to do all what he can so that Bouaflé gives a piece of land for the building of the Embassy to welcome the Elohim. Here is what he declared:

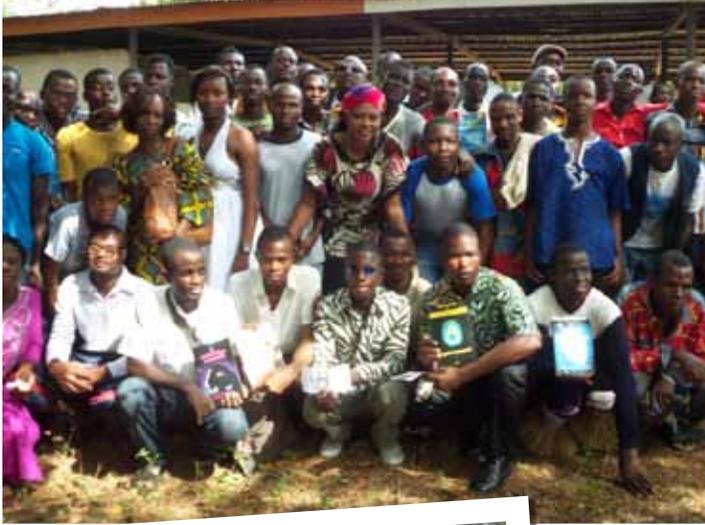

“Following the message that we just received, I want to say, on behalf of the Bouaflé community, on behalf of all the chiefs whom I represent, that we are ready for the Embassy that you propose. Considering the harmony between all the different communities living here in Bouaflé, we can say that we are ready and we really wish to have this embassy here in Bouaflé. We want to welcome the building of this Embassy here in Bouaflé, the capital of the Marahoue region. It would be an honor for us, a great honor and it would show the joy that we have to have attended such a great meeting today.

I am asking all the Raelian representatives who came here this morning to transmit this important message to the Prophet.”

After the meeting with the Chiefs, in the afternoon, we went to the stadium to attend a football match where the Raël FC, the Raelian Movement team, was opposed to the local team ' Les Vétérans FC'. The game was interrupted after the first half time break because of a violent tornado on the city. The Raelian team won by 1 to 0!

On the 1st Sunday of April, Raelians came from every part of the country, Abidjan, Adiaké, Bouaké, Dabou, Daloa, Divo, Gagnoa, Hiré, Katiola, Vavoua, Yamoussoukro, and also from the city of Bouaflé and its area. Also old Raelians showed up, so between the Raelians, the guests and

some sympathizers, we were about 300 people.

The ceremony was held within the local high school. The three level 5 Guides of Ivory Coast, ZADOU Azaël, Taï EHOUAN and Ya BONI were there and eight guides level 4 as well, Djossouvi, Kouadjo, Peheri, Mattoh, Ayamoh, Yolie, X-Ciël, Bohoui et Sounanga.

The program started with the participation of a traditional dance group from Koblata, followed by a video presenting the five points. After a meditation led by the Continental Guide Tai, the transmissions of the cellular plan were done by the three level 5 Guides. 48 new people joined us on that day, among which 4 women, a nice harvest.

NIGERIA - FIRST LAGOS CPT AFTER SIX YEARS

On this first Sunday of April celebration, we were in Lagos. For the first time after six years of presence in Lagos I was able to participate to a CPT ceremony.

Chris EZETTE discovered the existence of the IRM through the Internet with Google. He then got in touch with the Continental Guide Tai, and the National Guide of Nigeria, Steve. Such a special date for me! First, somebody very interested by the Messages traveled two hours all the way to meet us and do his CPT. Chris EZETTE works as a Web Designer and he is 36 years old. What a wonderful day, thanks a lot Elohim.

MEYER Jean-Marc, Guide Assistant in Lagos

PROTEST AGAINST UK GOVERNMENT CONSPIRACY TO COVER UP PEDOPHILIA

After receiving a letter from the UK Cabinet which proves that the UK Cabinet is complicit in crimes of pedophilia as well as Crimes Against Humanity, the Raelian Movement decided to organize a protest in front of UK embassies.

All this stems from a lawsuit the Movement filed against the Pope during his visit to the UK in September 2010, alleging covering up pedophilia within the church as well as Crimes Against Humanity for the Vatican's telling millions of Africans that condoms do not stop the transmission of AIDS. They deduce the Vatican is responsible for millions of deaths in Africa as a result.

We filed this lawsuit in 2010 trusting the UK Courts would treat this case fairly. We were encouraged when the lawsuit was accepted. Then, mysteriously, the case was stayed, preventing service on the Pope while he was in the UK. The lawsuit was then eventually dismissed, even though it had initially been reviewed by a judge."

The UK cabinet has thus partnered with the world's largest protector of pedophiles and promoter of spreading AIDS merely for political expediency. Children and AIDS victims suffer so the UK Cabinet could bask in the Papal pageantry. Through Freedom Of Information requests with the UK, we learned that the UK Cabinet had formulated a policy to prevent "legal threats" against the Pope during his visit to the UK. When asked why, the UK Cabinet denied the request on the basis that it "involved the highest levels of the UK government including privileged discussions among government Ministers." Privileged discus-

sions? What privilege could protect pedophiles? This means that the UK government is protecting the Pope - who was formerly in charge of dealing with the rampant cases of pedophilia under Pope John Paul II reign - and who was most certainly in the 'privileged' position to have buried thousands of cases of pedophilia so as to avoid \$billions and embarrassment to the Catholic Church. Protecting a criminal over the rights of children is detestable. The UK Government is complicit in criminal activity just as anyone who conspires to keep justice from being carried out. Furthermore, the English press, which we now know was rotten to the core after the revelations of the Murdoch-News of the World scandal, apparently cooperated in this travesty."

The Raelian Movement is of course going on appeal. The worldwide protest organized in front of UK embassies on March 7 went very well.

IN KOREA

In Seoul, 25 Raelians participated, and delivered a letter with the press release to the embassy.

The police department paid a great interest in our protest...they advised us with some tips to do it more efficiently...and they even photographed us by themselves to deliver the pictures to the embassy, so they said...^^ An internet news agency covered our protest.

IN THE US

In the US, letters of protest were given to UK diplomatic staff at the embassy in Washington DC as well as consulates in Chicago, Houston, San Antonio, Vancouver and Toronto.

Larry (in the picture on the right) tells us about the Chicago protest:

"After delivering our protest letter to the Consul General's office, we spent the rest of the day with our poster on the sidewalk in front of the entrance. Amid the hustle and bustle of the city, the glaring sirens, and the abundance of foot and vehicular traffic, our sign was viewed by hundreds, perhaps a few thousand of individuals. Some offered support with a smile and some stopped to chat. One supporter, now in his seventies, described an experience more than 65 years ago. 'And, shamefully, it's still going on,' he added. Others took pictures of our sign, one to "post on Facebook." As I stood there watching the rainbow of people passing by, I could not help but think of the countless number of silent victims. Many may have passed our signs in other protest locations around the world. I felt such a great sense of pride and strength to stand there, in protest, as a member of the Raelian Movement and as a supporter of the rights of children.

IN MEXICO

In Mexico, DF we held the protest with posters in front of the UK Embassy.

Our spokesperson accompanied with many Raelians gave the letter to the ambassador.

When they arrived, the police came to talk to us and our spokesperson explained the press release. They were very respectful. We received the proof of receipt that we gave the letter. Mission accomplished !

IN AUSTRALIA

In Australia, Raelians, some having traveled quite some distance, gathered in protest outside the British Consulate in Brisbane, Australia. This protest had been organized on a global level to shed light on the inconsistencies of the British law and the parliamentary system.

We had a wonderful group of people with banners and fliers, it was a beautiful day, and we assembled peacefully bringing awareness to those passers-by as well to all those who entered and left the UK Consulate about this particular action.

We had an official letter which we attempted to present to the consulate itself. However we were prohibited to enter the building on security grounds. We then asked the security personnel to deliver the letter on our behalf which was done quite surprisingly, with the gentleman coming back some time later letting us know that he had personally delivered our letter to the consulate.

All in all it was a successful afternoon and a point well made. With beautiful happy Raelians gathered on the street, partaking in this very necessary action. Our aim was to highlight the inconsistencies of the British judicial system, the parliament and the obvious protection offered to the Vatican, the Catholic Church and the Pope himself by British authorities and in this we were successful.

A Registered Person-Person letter was also sent to the High Commissioner in Canberra Paul Madden Letters and emails were also delivered to Consulates in Melbourne, Sydney, Adelaide and Perth. After a phone conversation with the UK Consulate Media and Press Team to inform them of the world wide press release and action they were interested and willing to receive via email the letter and Press Release of which receipt was acknowledged.

OTHER ACTIONS

CONGO, A SMOOTH AND EFFICIENT FEBRUARY DAY

The Raelians of the Northern region of Ouessou, of Pointe-Noire in the South and of Mfoa (Brazzaville) located in the center of Congo, spent the whole day in the streets to commemorate the vile slaughter of Giordano Bruno by the Catholic Church, a Raelian before his time. We have declared that as long as this modern pioneer doesn't get the recognition he deserved like Galileo did, we will not stop giving him a loud homage as we did today.

Young people piled the whole day long around the stands that we posted on different strategic locations in the cities where we had this activity. They all showed surprise learning about the way the Catholic Church have behaved, they all had no clue. We have of course added how the Catholic Church treated Kimpa Vita and all the other victims of the Inquisition and the Crusades.

These young people were discovering our world configuration. It was a surprise to see that some of them don't know what it means that the earth is round, or what a solar system is or the galaxies. This is a paradox as elementary astronomy is supposed to be taught in the schools...

It was a big moment of spreading the truth as given in the Messages transmitted by Rael, explaining the Universe, trying to illustrate what the Infinite is and why we are not alone in the Universe... wow! What a pleasure to feel the truth and spread it. We rejoiced in the feeling of being exceptional in this mission of awakening consciousness. We had a little less people than last year but it was such a thrill to meet with young people so eager to know the truth. We had about 1300 people in Mfoa, about the same amount in Pointe Noire and 500 in Ouessou. The Guides Woukoussa and Mahinga Ma Ngoumba gave some interviews and did a great job at it...

February 17th, a date to live in spreading the message, it is so powerful, just pure happiness.

With love, Tshielikk, National Guide Congo Mfoa

GRAND DIFFUSION OF THE RAE LIAN MOVEMENT AT THE TAJIN SUMMIT IN VERACRUZ, MEXICO

Papantla Veracruz, 20th and 21st March 66 a.H. - Two wonderful days of diffusion organized by the team of Gabriel (Veracruz Guide), Cynthia (Puebla), Conny (Orizaba) and Paul (Poza Rica). It is with great enthusiasm that we went to the event of the Summit Tajin which takes place in the archaeological zone of Veracruz Papantla, which receives thousands of people around the world. On the first day we setup a table with books, pamphlets and posters and walked the streets carrying a banner that read "God Does Not Exist" when we heard the voice of a person saying : "It is true God

does not exist” and we were approached by a boy dressed in a costume of transformer, he accompanied us marching and shouting “There is no god, we were created by extraterrestrial scientists” and at the end he bought a book.

There was a lot of passion and joy to spread the message, when a bride and groom, the man was from Ireland and the woman came from México and they did not want to leave, they started reading the book and asked questions, they left their email address to keep in touch and we invited them to visit the website to download the message by ebook. The people’s reaction was positive, encouraging us to continue the diffusion as they were sending hand signals to show their agreement and some approached us to take us in picture and we gave them a brochure, there were also journalists who also took videos and photos.

At the end of the second day we were infected with so much happiness to bring to all these people a bit of light and share the message of Our Beloved Fathers the Elohim, in the evening we went to dinner and swimming Two fantastic days of Diffusion!

With Love

Gabriel Villanueva, Guide of Veracruz

ANTI WAR PROTEST IN LAS VEGAS

The North American Happiness Academy was held in Las Vegas again this year, at the Alexis Park Hotel, a few blocks from the famous strip and all agreed to say, happily following Maitreya’s teachings, that it was their best ever.

There were several highlights, especially Maitreya’s special speech via internet on the final day which brought us even higher, ready for the celebration of life in the desert on the following day, the first Sunday of April. (see excerpts of Maitreya’s speech on page 8)

Also on Saturday afternoon, after the level ceremony, we all went on the strip to stage an anti-war protest, expressing our disgust of the attempt of the Western World to launch a war in order to prevent a war... is there anything more stupid than that? We made it clear in a strong, fun and happy way.

Harold Henning

At the end of the happiness Academy, three new Guides were nominated, Claude Chevey from Las Vegas, Harold Henning from Upstate New York, and Alcibiade from Panama. Alci was empowered by Ricky in the desert during the first Sunday of April celebration.

Alcibiade (on the left) and Claude (on the right)

A happy team around a happy Continental Guide

CLITORAID

CLITORAID ANNOUNCES 5 MORE RESTORATIVE SURGERIES PERFORMED IN SAN FRANCISCO AS MORE DOCTORS COMPLETE TRAINING IN CORRECTIVE PROCEDURE

Our head surgeon, Dr. Marci Bowers, has not only performed restorative clitoral surgery on five victims last month in San Francisco, but she has also trained Dr Harold Henning, the new Raelian Guide, to perform the restorative procedure, which was developed by French surgeon Dr. Pierre Foldes.”

With the completion of his training under Dr. Bowers today, he will be ready to perform the restorative surgery at Clitoraid’s new medical facility, dubbed the ‘Pleasure Hospital,’ in Burkina Faso. He plans to attend the opening later this year and also plans to donate some equipment to the project.

“But some victims here in the United States, including on the East Coast, want to have their sense of pleasure restored, so I’ve made plans to do this for them in Upstate New York,” he said, adding that he had learned of these patients after they contacted Clitoraid.

“Restoring the sexual pleasure that has been taken away from such victims is the beauty of what we’re doing, and I look forward to helping them by doing the corrective surgery,” he said. “After joining the Raelian Movement, my eyes were opened to issues that plague women throughout the world, not just in my local community.”

Marci Bowers and Harold Henning
