- 17 Paradism in Puebla, Mexico
- 17 Conference on Paradism in Brussels
- 18 "Chocolate pussies" to help equip the Clitoraid Hospital

*The symbol of our beloved Creators flying over NY ... a picture by the NY Times*

**You have to select your thoughts the same way you select your clothes. I hope men chose the most beautiful outfit they want to wear every day.**

**Many people spend a lot of time to choose their clothes but not their thoughts. The thoughts are the clothes of your brain. Try to wear in your brain beautiful thoughts.**

**Try to think like poems.**

**Happiness is an art.**

RAEL, May 66 aH

## MAITREYA'S WORDS

### ONE MINUTE FOR PEACE

Every one of you is a transmitter of brain wave.

What you think, what you express, what you feel, is affecting everything in the universe and of course everything on earth.

And the earth needs peace and love. From the sky, when you look at the earth, you see a blue planet without borders.

Many times when we think about the future, we think that one day we will travel in space, and we imagine that we will travel in space and arrive on other planets where there are civilizations and beings.

Imagine yourself being a cosmonaut and you have a space craft in which you travel and you arrive to a new planet.

First thing you can see or record is : 'there is life'.

Then you arrive, you are happy to land and you contact these beings.

But if it's a planet as primitive as the earth, it's very difficult because you see a planet with different nations, borders, armies. Then, a good, a big question comes : "oh, they have different countries and they are fighting each other, which one will I contact?"

Then it changes the problem completely.

That's why the Elohim want us to build an embassy because they don't want to give advantage to one nation over another nation. They want to contact the humanity, not one country. Because if they contact one country, this country will take advantage of it over the other countries.

We will have the same problem in the future when we will travel to other planets, not to interfere with the macro ecosystem. And that's the problem.

So, what is the best, what is the dream, what is the ideal solution ? The dream is that we arrive on this planet and we contact the people of this planet because they are one nation. That's why we have to destroy borders, nations, national flags and nationalism. If we create one world, one united world, where every human being lives in peace, without army, with one world government, then we don't need to make an embassy. Then the Elohim come without embassy.

We need the embassy because we have borders.

That's why we need to influence this planet to make it more peaceful. And we can influence this planet with big, very powerful radio-transmitter to send waves of peace and love. This powerful radio-transmitter, to make it, we need a high technology.

But we have it : our brain! It is the highest high-tech in the universe. Our brain can send powerful waves of peace and love. A few people using this brain to send wave of peace and love can change this world.

Let's do it together, right now. Are you ready ? You send love, you send peace, not only from your brain but from all your body; from your toes, your feet, your legs, your heart, your whole body; your hands, and of course your face, and of course your brain. Everything is sending peace and love vibrations.

And that's it, you are changing the world.

I strongly recommend that you do it sometimes in big cities, wherever, you can do it.

Just sitting together somewhere, maybe with a big banner, sign, written : "Meditate with us, one minute for peace".

So anybody in the street, passing by, can meditate with you one minute.

One minute, for peace and love on earth.

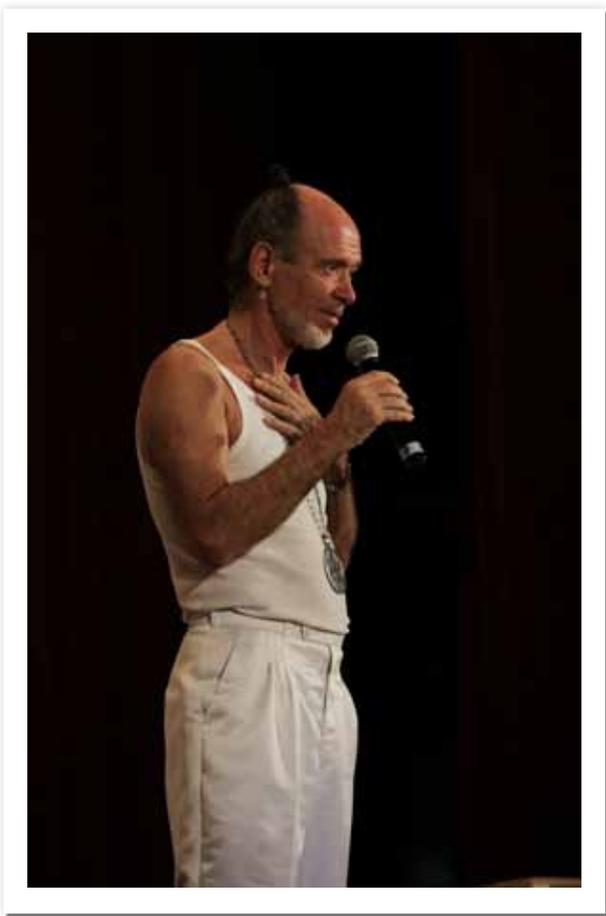

It's very easy, anywhere in the cities where you live, you put a little banner, a little sign, inviting passer by to stop and just sitting or standing up together "are you waiting to give one minute, one minute of your time for peace and love on earth?"

And all of you, you can do it, together is better, or by little groups, every where on earth, and as you spread everywhere on earth, stopping people for one minute, not more, not trying to sell books, not trying to convert them to Raelism, just saying "are you ready, in your busy life, to give one minute, ONE minute of your life, for peace and love?"

If everybody on earth do it, then we can change the world.

## LOVE OTHERS MORE THAN YOUR FAMILY MEMBERS

*Meditation with Maitreya on July 8th*

Think about the Elohim.

Think about how many people think of the Elohim right now, at the same time as you?

Everybody here but also other people in some other place.

Now think about infinity.

Now, right now, how many people on earth are thinking about infinity?

You can have your eyes opened, it's a conscious meditation.

It doesn't always require to have your eyes closed, you can have many meditations with open eyes.

How many people right now, on earth, are thinking about infinity?

How many people in the universe, right now, are thinking about infinity?

How many?

An infinite number, because it's infinite.

How many people in the infinitely small are thinking about infinity? An infinite number.

Now think about love. Love.

How many people on earth are thinking about love, not making love, but love; not love for their children or their wife, love for the people they don't know.

Loving your children is good but not interesting, every cow loves its children, every dog loves its children. So when we love our children, we are not better than dogs and cows.

Dogs love their girlfriend or boyfriend, we are not better when we love our wives, husbands, boyfriends and girlfriends.

But loving people we are not related to, loving people who are not members of our family, this is real love, much more important.

So, you must, we must focus always on loving people who are not of our family, more than those who are of our family.

And then love increases on earth.

Every criminal in the history of humanity always loved its children.

The worst criminal genocidal military leaders of the history of humanity loved their children as their family. Hitler loved his family, Napoleon loved his family, Genghis Khan loved his family, Julius Cesar loved his family but they killed billions, millions of people.

What is important is not to love your family, it is to love the people who are not members of your family, not members of your country, those who don't have the same color of skin.

If all these criminals, Hitler, Napoleon, Genghis Khan and all the others, loved other people more than their family, their country and their race, they would have killed nobody.

So love and think about how many people, right now on earth, are loving people this way.

This is the only way to bring peace and love and to give a future to humanity.

Thank you Elohim for loving us even if we are not biologically your children.

We are not on your planet, they love us.

Thank you Elohim.

I wish you a beautiful day.

## BILLIONAIRES OF LOVE

*July22nd*

Just a few words about love, the most important thing.

Life is going by so fast, yesterday we were kids, like this little girl, and now we start to age, slowly, but very fast. We remember when we were a child, like this little girl, it looks like it was just recently, and slowly, 20-30-40-50-60 it's going by so fast.

And slowly we reach suddenly the end.

For some very young, for others at 70-80-90 or 100, but you reach the end.

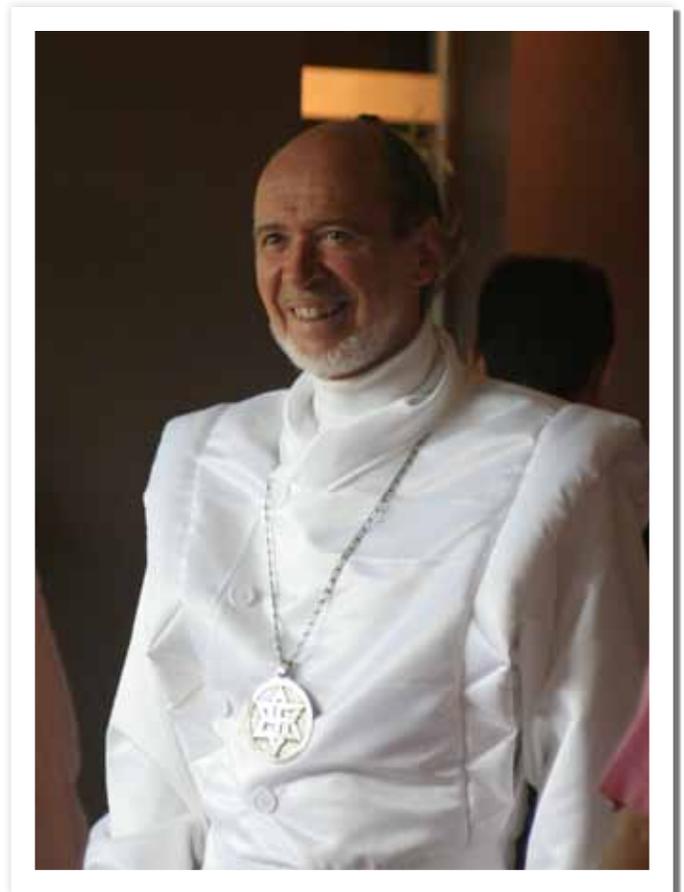

Until we have the technology of the Elohim, we will all die; now or later, but we will all die.

So the question is what do we do until we die?.

You can become the richest man or woman on earth and die.

You can have billions of dollars in your bank account and you die.

You can have a lot of sexual activities, maybe have 10 children, 20 children and you die.

You can have all the power of the world, become President of United states, or the Catholic Pope and you die.

So it doesn't matter how much power or money you have, we all die.

But after death, Elohim give us eternal life. It is not a miracle, they do it scientifically.

Who do they choose, those who are rich ? No. Those who are powerful ? No.

Who do they choose ? Those who are more intelligent ? Because you can be very intelligent or a genius and you die. They don't choose intelligent people.

Who do they choose? The people who give love.

And so, it's not a question of becoming a billionaire of money, it is very difficult and doesn't give you eternal life.

You can become a billionaire in power but it doesn't give you eternal life.

But if you a become billionaire of love, then you have eternal life.

So I hope you all decide to become billionaires of Love.

To become billionaire with money, you need to have and take more and have more.

To become billionaire in power, you also need to have more and more power and take more.

And it's very difficult for both.

But to become billionaire in Love, you can do it immediately, immediately, doesn't need time, no school, no university, no bank account, no credit card, immediately, by becoming love.

Not by taking, but by giving, the more you give love, the more billionaire of love you are.

So I cannot make you billionaire of money, I cannot make you billionaire of power, I cannot make you billionaire in knowledge, my mission is to make everybody billionaire in Love.

And it starts immediately.

When you finish your life, which can be very soon, very soon, the Elohim check, not a bank account, not the number of diplomas from big universities, not the power you had, but how much love you gave during your life on earth, this very short life.

On the Eternal Life Planet, there are only billionaires of love.

Do you want to join? Let's do it, it starts right now.

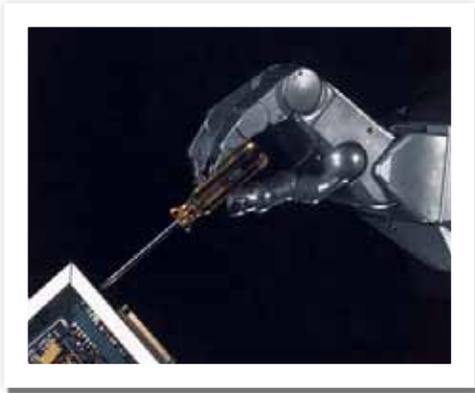

Remember, contrary to money and power, the more you give the richer you become.

Do you want to be a billionaire of love ?

## **THERE ARE NO ILLUMINATI**

Many peoples keep asking me questions about the "illuminati". There is no such thing as "illuminati". But the real problem is that the world is full of "obscuranti". Especially amongst those who rule the world : politicians, corporations, religions and medias

## ROBOTICS WILL DESTROY CAPITALISM

China's robotics industry still lags that in other countries. In Japan, for example, there are 306 robots working per 10,000 people while in China there are currently only 15. As wages are rising in China, squeezing the profits of many manufacturers, we see a boom in the robotics industry in this country. According to the International Federation of Robotics, China is the fastest growing market in robotics, and by 2014 it will top the global market.

Rael commented: "Soon no workers at all will be required in totally automatized corporations. There will even be computers selling their products over the internet. Then we will reach a level where huge capitalists can create companies making and selling products without any human workforce. The only problem is that if thanks to this great technology there is no more job, then there is no more salaries, then nobody will have the money to buy any product. The only way out is

Paradism, where these new technologies are used without any workforce or any money, then the products are distributed freely to all Human beings. It is the end of capitalism.

## CIRCUMCISION DECLARED HARMFUL BY GERMAN COURT

Rael commends the ruling by a court in Germany that circumcising young boys for religious reasons amounts to bodily harm. Rael has long stated that "Circumcision for men—like clitoral excision in females—constitutes sexual mutilation and should be forbidden." He has also expressed his wish for success to the Norwegian political party which recently said it will seek to outlaw circumcision in Norway.

## SWASTIKA DAY

June 23rd was our 3rd swastika day and the Raelians of the Americas, Kama and Europe had much fun promoting the true meaning of our Creators' symbol.

The display of swastikas triggered a mixture of reactions, messages of congratulations from Hindus and Buddhists, complaints from the Jewish community.... A majority of the complaints came from the New York – New Jersey areas where a banner showing a swastika was flown over Manhattan, the Jersey shore and Long Beach Island. The media loved it and most were very respectful about our intent and explained the true meaning of the swastika. While many still think that there is no way we can undo the harm done by Hitler to that symbol, just the communication success of this year can prove them wrong. Millions learned about it and this is not over... :-)

### An email received on proswastika.org from an Hindu supporter:

"excellent job. your work is commendable to educate this world about the ignorance that still prevails about the ancient Hindu symbol of peace and prosperity and good luck from Vedas.

Thank you from the bottom of my heart . This world would be a better place with people like you who goes extra mile for humanity so we, as a human race, live in peace and harmony.

**From a Buddhist:** As an American Buddhist here at the Jersey Shore where there are barely any temples around, I had to go out and learn about Buddhism myself. After finding that the swastika belongs to OUR belief, and learning the reality of it all, I have been wanting to do so much to get this message out. As Americans we should embrace the real meaning of the swastika and have it imprinted on shirts with the real meaning under it. I am anti-nazi and pro-swastika. Just because some crazy animal stole this symbol and so many people thought it meant evil really ruined it for us. I want to help you, I want to do so much more. I would like to see religious shirts with the swastika and under it written Peace and Love. If we can all ban together and get a whole bunch of novelty items like this, we could really get the word out. I would love to help out, it is something I can do for my belief's. Thank You for doing this for all of us.

## IN MIAMI

The Raelians of Miami hit the streets of South Beach for the third year in a row to create a peaceful environment to help raise the consciousness of the very Jewish city about the Swastika. This year we added something new, the big Swastika ball, where Raquel was inside as we walked down Lincoln road. We all met at 3pm on the corner of Lincoln and Washington and as Jesus began to blow up the big ball the crowds were beginning to gather to see what we were doing. Raquel entered the ball and we began to walk 6 blocks to our favorite grassy knoll. Well we only got 2 blocks when this very angry woman rushed up to us screaming profanities looking for allies in the crowd to join her. Unsuccessful she brought back a police officer and after reading the flyer he escorted her away from us as he knew we had the right to be there. So we continued until we arrived to the grassy knoll and Raquel came out the balloon for a few minutes and then went back in where children came to play with her in the ball. They were so pure having fun pushing her and watching her roll around in the ball. The rest of us, Donna, Jesus, Estelle, Joe and a newcomer Simon were passing out flyers and talking to the people. Most were ok with it and many said I know this symbol and already understood it was in many countries of the world and was a peaceful symbol. We all had a wonderful afternoon without conflict and the Swastika ball and our beautiful sister Raquel helped make this event a very successful one.

## IN CHICAGO

I was hoping it would be a day without wind. So when I woke up in the morning on June 23rd for Swastika Day, I looked up the window and, contrary to what happens usually in the “Windy City” (Chicago), the leaves of the trees had absolutely no movement, as in a photograph... It was important to have no wind because the 7x4 (2.1x1.2 meters) banner on wheels we had planned to use for the event would have been flying in the sky as intended for Miami, New York and Venice Beach. This banner was not intended to fly but to be pulled by a bike all along the beach of Chicago. This banner was installed on the roof of a minivan for the 40 miles trip to Chicago at 7:30 AM and that is when the rehabilitation day started for us. The minivan was parked just next to the bike path for the passing bikers to see until 2:00 PM when we installed the banner on a bike-trailer made for this occasion and pulled it off the beach trail to the amazement of all.

Thousands of people were shocked at the view of the swastika showing proudly its original colors and meanings. We had mixed comments, some from empty heads, and some from lighted ones... A hockey team, full of testosterone, hated that we stopped on their rented piece of land when we met Pedro and Cristal and ended up into a heated discussion. A young bright girl came to me and told me that while she was disagreeing with the banner’s message, she was supporting our right to express our view and “gave me five” that was greatly disconcerting for the hockey team leader who was yelling hatred comments towards us. There is a big rocky mountain in front of us but, like water falling on rocks, water always destroys rocks with time.

What we will retain from this experience is the wonderful minds we have met along our day and the seeds we have planted in many other full of potential. Infertile minds are just not educated. And their reaction stemmed from that. Maitreya’s messages and actions are the antidotes and we are so happy to follow his lead. Larry, Pedro, Cristal and Marc were part of this wonderful act of awareness and proud to change the world following the leadership of our beloved Maitreya Rael.

## IN HOUSTON

Seven Raelians from all over Texas came together in Houston for the Gay Pride event and combined Paradism and Swastika all in the same day. It was Joseph Pegram, Barry Beck, Roderick Archie, Leo & Janie Trevino, Berry Christain and myself. There were about 150,000 people and we worked the crowd with all three flyers and then we had them at the booth as well. We stayed for almost 8 hours and handed out lots of flyers. We were so happy to be together again and we got to visit and catch up on each other's lives while happily doing our diffusion. Last year we had to have someone removed from our booth, but this year it went very smoothly. We got about 16 email addresses of people that wanted to know more about our humanitarian efforts. Some people stopped by the booth just to say hello from last year. People were surprisingly accepting of our reclaiming the Swastika flyers and we had many conversations. We then went to eat at a little restaurant and reviewed the day and talked about ideas for improving our booth. It was a great feeling to know we are part of this global change and heading the welcoming party for Paradism.

Michele Pernoud, leader for Texas

## WHAT A DAY IT HAS BEEN IN L.A!

One of our member Jacques, came up with the great idea to have flying banners floating in the air with proswastika.org written all over it and so after some research, negotiations and the creation of the perfect slogan this idea became reality :-))

Three cities were to be targeted by our flying banner, New York, New Jersey Shore and Los Angeles, while at the same time in LA a march alongside a giant transparent ball or bubble covered with various swastikas was also taking place in front of a passionate crowd, but to better explain all this I asked Negar our Persian sister, for who I felt this experience to be quite memorable, to summarize her momentum which relay to me to a princess from Persian floating in a love bubble.

But before reading Negar's enthusiastic experience, please realize that, when this LA event was occurring and at the exact same time that the flying banner was floating in the LA sky, I was receiving a phone call from the airline company telling me the evolution of the story such as this example of a voice-mail and I quote "The helicopter of CBS news did follow us over New York and many complaints have been filed there, to a few police departments, will stay in touch, am sure more is coming they are looking to find out who's the company to blame for etc" at this particular time I knew WE DID IT it was really history in the making.

Venice beach, a giant transparent rolling ball covered with swastikas, a flying banner and happy Raelians. Such a beautiful day and such an incredible experience! Negar explains;

As a person who came from a country like Iran, with no tolerance about different ideas, it was a kind of a dreamy day, to be able to play with creative ideas and express oneself, talking about something which might be disagreed by many people, for the lack of knowledge or consciousness somehow, and some of these dissidents would have a kind of authority but not able to stop you!

For me personally the true meaning of Swastika was clear, as a symbol for the wheel of Eternity, since a long time ago in Meditation classes and learning about Mahabharata and on the other side in some kind of 'history of art' classes I learned that for example the ceiling of Apadana hall, which was the main hall for the public dates of the king in Persepolis, was filled with this ancient symbol, and they refer it to Mithraism. it would be interesting to mention Mithra is known as a Persian God! And this is one of many historical backgrounds of Swastika; but surprisingly most of the people know the symbol for its usage or better to say ab-usage in a short period of the history rather than knowing anything about the thousand years of its peaceful and precious archaism meaning which is routed in all the nations and could be found everywhere! It simply shows how strongly we people are influenced by the propaganda and most of us just take the information from those who govern us and observe things through the frame of what they want us to see!

What a LOVE revolution this exceptional day at the beautiful beach of LA, in June 23rd. The weather was wonderful and we arrived about 2PM, all excited and full of enthusiasm to touch people's minds and help them to cure their sick beliefs poisoned by a historical Human disaster which like a hallucination became attached to a very beautiful old symbol.

We first did some Swastika paintings on our bodies and added some cute accessories to color the event with lots of fun! Then we started our wonderful lightening journey from a corner into the crowd, it was brilliant! Our team was shining like a flowing torch and people could not stop their eyes in being stabbed!

I personally enjoyed a lot to see the reactions and hear the comments, even the negative ones! In general I can divide the people I met in 3 different categories; the ones who knew about the true meaning of the symbol, the second group were kind of neutral on this issue with misguided information and for the third group they were obviously in complete disagreement! But in my opinion the interesting point is all these three kinds of people were touched by the seeds of awareness we were trying to plant all around!

The first group was impressed by the courage we had, daring to rehabilitate the true meaning of a symbol which has unfortunately become attached to a scandalous genocide!

The second group was impressed by the new information and for example when they were asking: do you support Hitler? I was simply replying: absolutely not! That's why I'm here! Swastika is the symbol of... and I could see many of them, hesitating at the beginning and changed their mind after few words to finally take the flier with them!

In the third group, some of them were getting mad and for me it sounds like 'a projection' about something they were told they have to hate but I could imagine many of them being surprised and confused to learn the different and true meaning for the so called symbol of Nazi!

Over all, categories disregarded all the people curiosity and attention was wonderful and suddenly we found ourselves without any of many fliers we had in hands this day! They were all taken by thirsty people in quest of the true.

Beside all the connections I made with so many people, like a Palestinian young man who was asking questions about

Justine who organized the banner flights for us went on vacations to Mexico a few days after the event when in the evening he got a phone call from a woman who yelled and screamed at him for 20 minutes regarding the NY plane banners at which point he told her that he had been listening to her for 20 minutes now which probably already cost him \$80 or so due to the roaming fees but that he would only like her to check out the website in case she hadn't done yet which she said, no, she hadn't. He asked her to do it and to call back in 5min. She called back 3minutes later crying, apologizing to Justine for insulting him, saying she was a teacher and educating kids about the Holocaust but that she hadn't known about the swastika's religious use and that she was thankful for him letting her know about it.

the Movement, the Message and his beautiful concern about peace on Earth etc. The personal experience of being inside the bubble was so fantastic and magical! The voices of people and the environment were sounding at first like an obscure wave and all

around you that you would see, were amazed faces whom at least were attracted by the creative idea. But shortly after “in trans|” I was feeling like being protected inside this bubble of love that was covered with the symbols of the Elohim and now the only language that was filtered through was the waves of love which was connecting you directly to the people and the whole environment! It was indeed magical.

In conclusion like the way we draw the symbol of Elohim in our meditation, all of us had the feeling that we drew and printed something good in peoples mind through rehabilitating the wonderful symbol of Swastika. We gave a group hug to each other and reviewed in a few minutes that, how beautifully the different fantastic color of each person made a marvelous piece of art in this dreamy day of July 23rd a day to be remembered.

In Vancouver

Claude, Negar and the L.A and Las Vegas team :-)))

## ZACATECAS

To start our day of fun!! We met at 7:00 AM to start our preparations in Zacatecas Capital Bicentennial Plaza, starting at 10:00 AM. We put up our banner and started handing out flyers, there was a total of 1000 leaflets distributed, we took this opportunity as there was an event with more than 1000 people. It was a truly wonderful day for us with many people which were interested to formally contact us and we gave addresses and telephone numbers, it was a succesful response !! At one point several people came towards us and asked Michelle to give them flyers and to take pictures with them, all behaved very friendly and respectful to show the swastika! It was a day of many emotions and satisfaction!! It was a real success ...

Lucero Castillo,Zacatecas Guide

## MEXICO CITY

Raelians appointed in Motolinea Street and 5 Mayo where we started to celebrate the International Day of Swastika, walk to the Zocalo of the city where there was a concert, there was great enthusiasm and people in general were watching the banner and carefully reading the pamphlet that we gave, those who asked more specific information were given the real history of the Swastika. It was touching to see the Raelians from Mexico City so happy doing this beautiful diffusion.

Frank, Mexico City Guide

## PUEBLA

Ma.Carmen, Cyn, Vincent, Nico and Beny appointed in the center of the city where a large music event was held in the sun, clouds and rain. It was the perfect setting to carry out the diffusion of the Swastika rehabilitation, we deployed our banner and posters and gradually people came to ask questions, especially young people who wanted to know more about our movement, we distributed 400 flyers then walked along an avenue with our posters and two young men joined us and were very excited to join the diffusion. After we parted our dear Nico walked alone across the street with a big smile with our banner and handing out leaflets.

Benny, Puebla Guide

## KARLSRUHE, GERMANY

Thanks to the presence of many Raelians (over 80), a show of force could be made and the event, which lasted only “a few minutes”, served its purpose with inescapable efficiency. Congratulations to the Italians, the Belgians, the French from Paris, Brittany, Lyon and the Mediterranean region, and particularly to the Swiss team who had chartered a bus for the occasion...

As anticipated, the police who was worried about the number of people present, prohibited our materials which showed swastikas used in various parts of the world. Marcel therefore canceled the march because the German authorities were preventing us from using what was meant to inform the public about the true origin of the swastika.

Then, a bit later, as a personal action, Marcel vigorously and determinately protested against the fact that the public authorities illegally diminished our religious freedom and against the fact that they prohibit swastikas. He waved two signs, one forbidden (see above) and the other consisting of six pictures of swastikas (Jewish, Christian, Islamic and Chinese, Hindu and Buddhist). The police then stepped in by confiscating the two signs and by serving Marcel a notice that he would have to appear before the court... That trial is an important point because it is the only way to strike hard, in the courts, to defend our rights to freedom and to the use of the swastika for religious purposes. We will win it!

Then for the rest of the afternoon, after a few “firm rectifications” with the police, the group spread into the city for a diffusion in small groups where many people could be stirred by our symbol and discover the messages...

Bravo, Marcel for your commitment to the respect of our rights and freedoms, ...

Thanks to you and all those present, a foothold will grow that will lead to the rehabilitation of the swastika, the center of the symbol of our Fathers, the Elohim...

I love you

Pierre Gary, Continental Guide for Europe

## VERONA, ITALY

Beautiful diffusion in Verona, where we gave out swastika flyers, we also had a booth with the model of the embassy, some books and smiles of Raelians. We had great interactions especially with the young people.

We were 12 people in tropical weather and a surreal atmosphere because at the same time there was a “zombie walk” in the city with more than 700 people dressed as zombies, so funny :-)

## ABIDJAN, IVORY COAST

As part of the promotion of the swastika, the Raelians in the region of Abobo (Abidjan North) organized a march to make the symbol of infinity known to the public. Before the march, we had a discussion with about fifteen people at the University City of Abobo.

The march began at the University City at 11:30AM and ended at 1:30 p.m. at the City Hall. Considering the current period of reconciliation and peace in the Ivory Coast, the symbol has really caught people’s attention, because just below the symbol we wrote: “SYMBOL OF PEACE”. It is true that we also faced insults of people accusing us of promoting a symbol of torture, violence and war in relation with Hitler. Some even wished that the police had arrested us. During the march, we had several informal debates. We really had a good time.

The Raelians in the south region of Abigjan, ( represented by Douyou Cyril, Karim Ouattara - Level 3, Marie Chantale GNABRE - Level 2) invited themselves on the local radio ZENITH FM (92.8 Mhz). This show usually of 10 minutes, ended up lasting 30 minutes during which the subjects of the symbol, the origin of the swastika (inherited from our creators the Elohim), the traces of the swastika in the ancient cultures of the world, the bad publicity it has received, the benefits of the swastika, and the presentation of the Raelian philosophy, were discussed. In conclusion we have urged the other religions that recognize this symbol to join us for its rehabilitation. We also invited everyone regardless of religion or culture to use this symbol to attract good vibes in their lives.

*In Libreville, Gabon*

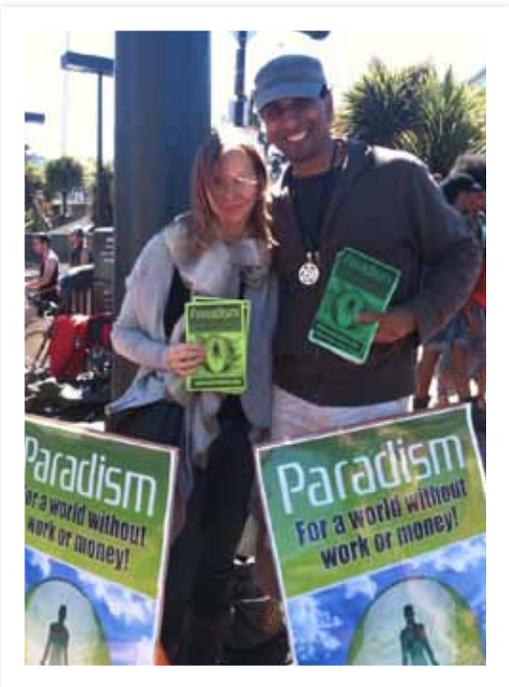

*In Cartagena, Colombia*

*in Burkina faso*

## OTHER DIFFUSIONS

### SF LGBT

The San Francisco LGBT Pride is one of the biggest in the nation, if not the biggest!! There is no escaping the loud music, flashing lights, extravagant costumes, or in many cases lack thereof (grim), countless of flags,feathers, super toned hairless oiled bodies, unless your preference is more toward the “musky, rural” look, anything goes on this exceptional colorful day, and we love it just like that!! :-))) But then again, SF is renown for its extravagant and progressive lifestyle!!

For Felix and I it was just an afternoon of pure pleasure to be in the “Castro”, regarded as one of America’s largest gay neighborhoods, to enlighten our brothers and sisters with our Paradism campaign which was received with great respect, interest and curiosity.

Haaaaa...Living in such progressive place is just pure delight as it allows us to dream that maybe one day the entire world may feel as free and inhibited as we are here...yet this is just a little sample as there is still so much to do to completely free ourselves...and so keep on dreaming and lets realize this dream for the entire humanity :-)))

Thank YOU Maitreya for your guidance in the realization of this dream :-)))

### OTTAWA NAKED BIKE RIDE

Saturday, June 9, the Raelians of the Outaouais region participated in the “Naked Bike Ride” in Ottawa. This international movement bikes naked to demonstrate against human polluting activities, such as the use of fossil fuel and overuse of the automobile. Their slogan is “less gas, more ass.”

“The Naked Bike Ride organizers have embraced the Raelians. They were very respectful and seemed intrigued by the energy and what our group was about. When biking by, the crowd was clapping and smiling, the atmosphere was superb. “Says Nadia Salois, Raelian Guide, coordinator of the Ottawa region

### CHICAGO GAY PRIDE

The Chicago Raelians joined the local gay pride to promote ARAMIS, the Raelian Association of Sexual Minorities.

Eduardo tells us “Like every year, it was a wonderful and happy experience to be a part of the ARAMIS team at Chicago’s Gay Pride Parade. It was so nice to see so many young people come out to express their sexuality but what really caught my attention was how so many people danced under our banner in support of atheistic ideals. It seemed to me that more and more young people are becoming more and more atheist.”

### FREE HUGS IN SYRACUSE

A team of local Raelians gave free hugs in the city of Syracuse.

Harold tells us “The love and warmth that was given as well as received was intoxicating for our entire team. Thanks to the Maitreya for this very powerful exercise! I feel that we did and are making a difference.”

### RAELIANS PROMOTING PARADISM IN NYC

Raelians from the New York City area promoting the most revolutionary political system, Paradism

## PARADISM IN PUEBLA, MEXICO

Taking advantage of the protests which took place in the city center of Puebla, Puebla Raelians went to do diffusion on Saturday 7 July, it was wonderful to see that once we set up our banners and the messages with the book in our hand, people approached us to read.

SAVE HUMANITY! Was the theme.

...We do not need weapons or military, we need peace and love. We do not need borders separating countries, because they only exist in the minds of politicians and military, because humanity is one....

A fantastic day! Young people, tourists and journalists took many photos of the banner and congratulated us for this great diffusion, many wanted to know who was the person on the banner and we were so happy to say that it was the Messenger of Infinity Maitreya Rael.

We distributed 500 flyers of the message and many young people have called to know more on our movement and download the books.

## CONFERENCE ON PARADISM IN BRUSSELS: THE REVOLUTION HAS BEGUN

The series of conferences, which began in Paris on December 12th, ended in Belgium, in Brussels on May 2nd.

Fany Charpentier, assistant guide and one of the speakers, shares:

“Rather than an end, we see this moment as a beginning. Wherever we held these conferences - nine in all - whether in France or in Luxemburg, the reception was very positive. Here in Brussels, the reactions of the audience rose yet another notch, or even two or three.”

Jean Pierre Saulnier, Raelian Guide and coordinator of this lecture tour, confirmed that momentum: “Following our visit to Brussels, a group of attendees at this conference apparently intend to create the movement for Paradism in Belgium.”

Feedback on the conference

“The very diverse audience, composed of people of all ages and from different backgrounds, expressed a genuine interest in the principles of Paradism, as explained by Jean-Pierre. The questions after the break demonstrated a desire to ‘get things moving’.

It must be said that Eric Remacle, Raelian guide and coordinator in Belgium explained clearly the importance of changing or even abandoning certain paradigms to be able to understand Paradism.

Fany took up the idea: regarding education, she stressed the need to rid ourselves of the conditioning more or less induced by the system and centuries of traditions no longer adapted to today's and tomorrow's world. It is all about becoming the agents of permanent change in order to build a world of peace, prosperity and love.

Osiris expressed the importance of loving differences, which are the real source of enrichment of humanity, the public was receptive to the idea of a world without work, without money and without political figures, but characterized by self management with respect for differences! In this regard, Jean-Pierre

reminded the audience that Belgium had lived very well without a government for a year and a half and that the Belgian people could hence consider using that experience as an example to the world.

As for Jean Regolle, assistant guide, he illustrated with humor and relevance how more human cities would be under paradistic guideline and in full respect of nature.

With equal humor, François Pithon, MD, ophthalmologist and researcher, explained the importance of a reorganization of global health, emphasizing prevention over curative medicine which is much more costly and less effective. He clearly spelled out the need for a strict control of births to lower demographics: permit the birth of only one child per couple which would allow humanity to revert to the figure of 5 billion. To illustrate the current situation, he used the image of 7 people cramming into a car with only 5 seats.

A world without money, without work, without politicians, will this happen soon? It's a dream that could become reality. It's up to us.

## “CHOCOLATE PUSSIES” TO HELP EQUIP THE CLITORAID HOSPITAL

It is such a privilege to have Sonoko with us in Chicago who, on top of already being a beautiful and organized woman, is bringing the refinement of Japan with her. She led the fund-raising effort for Clitoraid at the EXXXotica expo held in Chicago with so much cuteness. And it is contagious, rubbing off on all of us. Since no one in the team

had had experience with this type of show, Donna Newman was contacted who helped to secure a complimentary and very well located booth at the expo. On her advice, Raquel was contacted and she shared with us her wonderful idea of making “chocolate pussies” using plastic molds that she sent to us along with a few “Adopt a Clitoris” T-shirts left over from the Florida expo. Larry, who gives so much love around; Pedro, who is so friendly; James who drove 5 hours to be with us; and me (Marc) participated in this event, which was a total success. The chocolate pussies produced a lot of smiles and made a difference in the fundraising (\$1,200). There was nothing left to sell on our table 3 hours before the end of the show but we continued to spread, until the end, this wonderful message of hope towards more respect for women's dignity.

We had so many touching moments in witnessing people softening up at the contrasting revelation of what Clitoraid is all about after first being introduced to the slogan :”Adopt a Clitoris”, which surely does its job to attract attention. But to crank up our visibility, Sonoko was using her charm in the front of our booth, using different sexy attires. On top of that, she rode a huge rodeo-action “dick” that was just next to our booth to help advertise the cause. It was hilarious! We laughed so much. Having fun while changing humanity is a choice we made because we received and accepted the gift the Maitreya Rael gave us. We are so, so, so grateful for your love and teaching Maitreya Rael.
